The London Explosions.

The explosions have caused an intense excitement in Irish circles. The Irish almost unanimously think the outrages were due to the deliberately planned machinations of enemies of the National party o: Ireland, who intend to create an anti-Irish feeling in England. It will be next to impossible, they think, to have a perfectly impartial jury to try O'Donnell now. It is also remarked that the explosions occurred at about the moment Davitt was opening his address in St. James' and overtook them at Melbas, where he found El Mehdi posted with the fugitives and his bodyguard and 2,000 cavalry. The Arabs were again attacked and beaten with great loss. El Mehdi's horse was killed under him. El Mehdi is reported to have been cut down by light cavalry sent in pursuit of him. Hicks Pasha has taken possession of El Obeid, and the government treasury. The Egyptians loss was nothing. The United Ireland (the League organ) pro-

The physicians find that the tympanic membranes of the persons injured are ruptured, which can be only attributed to the detonation of dynamite. It is evident that the exposive was similar to that employed by Dr. Gallagher and his confederates.
