WHAT do we mean by uniformity in flour? We mean stability and dependability, every barrel like every other barrel, every baking like every other.

Now, uniformity in flour comes only from eternal vigilance. It is the result of everlasting care and watchfulness at the mill. It can only be produced by the most advanced methods of milling and the most expensive up-to-date equipment.

One of the many great virtues of

### Royal Household Flour

is its absolute uniformity. It never varies. It is the same yesterday, today, to-morrow. Year in and year out it is always uniform, always the best, always invariable in results whether for Bread or Pastry.

Royal Household Flour has to be uniform. It cannot be anything else. It is surrounded at every stage of production with the utmost care and watchfulness.

The Ogilvie Mills are models of up-to-date equipmentthe machinery is the most advanced and most expensivethe inspection laboratory and test baking departments are

the most complete and scientific in the world. It has taken enormous Capital and the experience of a life time to achieve the absolute uniformity of Royal Household Flour. The watch, watch, watch and test, test which have made ROYAL HOUSEHOLD FLOUR the
