

Could Not Lift Stick of Wood

Would Almost Faint From Severe Pain in Back — Doctors Could Not Get the Kidneys Set Right.

A great many people suffer the results of deranged kidneys and do not understand the cause of trouble or the way to obtain cure. The writer of this letter suffered excruciating pains in the back and in vain his physician tried to cure him. For some reason or other his medicines did not have the desired effect.

Mr. Oita's brother was a merchant selling, among other medicines, Dr. Chase's Kidney-Liver Pills, and he heard his customers telling about how they were cured of kidney derangements by the use of these pills. Mr. Oita putting them to the test, with the splendid results reported in this letter.

Mr. E. C. Oita, Benton, Carleton County, N. B., writes: "I am glad to let you know how much your medicine has done for me. I suffered from my kidneys, which at one time were so bad I could not lift a stick of wood without getting on my knees, and then would almost faint from the pain in my back. I consulted a doctor about it, and he gave me some medicine, but it did not help me. My brother, who is a merchant, and carries all your medicines, advised me to try Dr. Chase's Kidney-Liver Pills. I got one box, and they helped me, so I got another one, and kept on until I had taken five boxes, which cured me. I have had no trouble with my back since, and am never without Dr. Chase's Kidney-Liver Pills in the house. Last summer I also suffered from piles. I used three boxes of your Ointment, and it cured them. I can certainly recommend Dr. Chase's Pills and Ointment."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, 5 for \$1.00, at all dealers, or Edmondson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute or you will certainly be disappointed.

New Health For Women

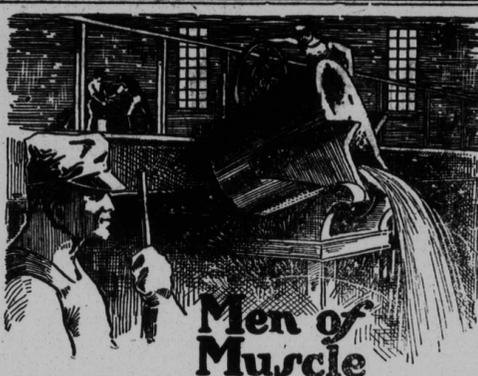

The most fateful years in a woman's life are those between forty-five and fifty. Many of the sex enter this period under depressing conditions through overwork or worry about the home or through a condition in which the blood is weak or watery and so they suffer heavily. Among the commonest symptoms are headaches, feverish flushes, palpitation of the heart, dizziness, back-ache, depression and other well recognized disturbances of the health which signalize that the blood requires attention. Woman urgently needs rich red blood all their lives but never more so than in middle-life when the nerves are also weak and overworked.

Now every woman can prove the prompt help afforded to her health by renewing and building up the blood. It is a test that any ailing woman can make by taking Dr. Williams' Pink Pills for these pills make rich red blood which in turn stimulates the appetite, strengthens the nerves and restores full robust health. Thousands of women have found in Dr. Williams' Pink Pills new health and strength and with these a new happiness and interest in life.

So if you suffer avert yourself at once of the splendid home treatment which Dr. Williams' Pink Pills so easily afford and you will be among those who rejoice in regained health. These pills are sold by all dealers in medicine or may be had by mail at 50 cents a box of six boxes for \$2.50 by writing the Dr. Williams' Medicine Co., Brockville, Ont.

Concert and Sale At Blackville

On the 9th instant there was a very successful sale of fancy articles supper and concert in aid of St. Raphael's church held in Blackville Hall. The sum of \$123.50 was realized. There was a very good attendance in spite of the fact that many in the village including some of those who were to be soloists in the concert were ill. The concert was a credit to the organizer Mrs. McManis of Toronto and her able local assistants. The choruses consisted first of the Medley of Irish Airs second a medley of patriotic airs, and was much enjoyed. T. Ross gave an excellent violin solo; and Miss Lila Underhill; a solo; "I want to Kiss Daddy Good-night." Another chorus was the "Rocky Road to Dublin," very well rendered. A marked feature was the "Maple Leaf Hoop Drill by 14 girls." Miss Underhill gave a fine recitation which was heartily enjoyed, as Simon Driscoll of Douglastown sang the solo; "A Little Bit of Heaven," and as we sang; "My Irish Cinderella;" His singing was very much appreciated. The concert closed with God Save the King. It had to be temporarily shortened because of the illness of several of the soloists. Mrs. McManis proved a very acceptable accompanist; Charles Ross presided. The fine orchestra rendered music during the evening.

How To Prevent And Care Influenza

Timely Hints Issued by N. B. Department of Public Health

(Issued by the Provincial Dept of Public Health)

1. Live as much as possible in the open air, and have houses well ventilated. Admit all sunlight possible.
2. Avoid all in-door assemblies, and travel as infrequently as possible.
3. If the disease appears in the family, put the patient at once to bed, preferably in an upper room, well aired, but so that the patient be not in a draft.
4. Keep patient by himself, permitting only the nursing attendant, the doctor, and the clergyman to see him.
5. Have whoever enters his room to wear a mask of simple gauze over the mouth and nose. The same gauze should not be used for more than two hours, and then burned.
6. Insist upon the patient using a handkerchief to cover coughing or sneezing (paper ones will do); these handkerchiefs should be burned at once after use.
7. Do not permit patient to mingle with his family or the public until all fever is gone, and until all discharges from mouth, nose and throat have dried up.
8. Patient, after recovery, should take particular care to avoid exposure to chills and dampness, as pneumonia is quite frequent under these circumstances and constitutes the gravest danger connected with the disease. Remain in house three or four days after feeling well as this is a critical period after recovery.
9. Call a doctor upon the occurrence of suspicious symptoms as unusual back-ache, head-ache, chills followed by fever, etc., as it is dangerous to depend on house-hold treatment in this disease.
10. Do not be too anxious, that is, do not worry respecting the danger of contracting the disease. Such worry serves no good purpose and sometimes renders one more liable to contract it. Follow the above preventive measures and the

How The Canadians Captured Cambrai

Vivid Pen Picture of The Advance of Our Boys on Important City

With the Canadian Forces, Oct. 9.—(By J. F. B. Livesay, correspondent of the Canadian Press).—Early this morning the Canadians troops penetrated Cambrai and are now in complete possession of the city. This is fulfilled the legitimate ambition of the Canadian corps, for the achievement of which they have been fighting hard ever since they stormed the Canal du Nord and took Bourlon Wood on Sept. 27. Even if the imperial troops, who yesterday so gallantly advanced south of Cambrai had had the good fortune to capture the city, its fall must still have been attributed to the sledge-hammer strokes of the Canadian corps, before which the defense of the enemy crumbled. The capture of Cambrai fittingly crowns the brilliant record of the corps since August 8.

Cambrai fell on a night attack. We kicked off at half-past one. The morning was pitchy dark, but careful preparations resulted in all the troops getting to their destinations without a hitch. Our third division had the honor of crossing the canal and penetrating into the city.

The element of surprise assisted in overwhelming the enemy defence in the streets. Once the Place d'Armes was reached they spread out over the entire area and by daylight had passed through the city to the southeast, well out on the Avenue de Valenciennes, while on the south, west they had established themselves at the corner of Boulevard de la Liberte and Porté de Paris. Some enemy elements apparently were caught between the city and the imperials further south. Our troops began at once to try and save the city from the fires that broke out at various points.

The Allies have not fired a single shell into Cambrai and these fires must have been of incendiary origin. Meanwhile our third division swept out due east to the line of the Scheldt Canal, securing all bridgeheads as far as Eswards and capturing Morenchies, Ramillies, Blecoure and Cuvillers with many hundreds of prisoners. The victory was complete and glorious.

It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing frezone, the other discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

Ask at any pharmacy for a quarter ounce of frezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, itching corn and instantly the soreness is relieved, and soon the corn is so softened that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

BAD SCALD

"Such relief I felt when I applied Zam-Buk to a badly scalded hand!" writes Mrs. A. Rieley, of 416 Timothy St., Montreal.

"I was standing near the stove when the kettle boiled over on my hand. I applied some ointment which I had in the house, but it did not ease the burning. The skin peeled off and the pain was so bad that I got no sleep for two nights. Then I commenced using Zam-Buk, and the first application gave me wonderful relief. It seemed to cool the burning so that I was able to sleep, and from then the scald began to heal. Zam-Buk grew new skin over the sore place and before long my hand was quite alright again."

Zam-Buk should always be kept in the house for cuts, burns and knocks, and for eczema, ringworm, boils, pimples, blood-poisoning, ulcers and piles it cannot be equalled. All dealers or Zam-Buk Co., Toronto. 50c box; 5 for \$1.25.
