"The Flour that is different."
If you do you will find that the cost of ROBIN HOOD is smallest after all.

The bigger loaf is one difference. Easier assimilations of the bread is another difference. The sweeter flavor is a third difference.

There are other points of difference. Any one of them worth the extra cost.

SPECTACLE and EYEGLASS
fitting is not perfect unless the frames or mountings are properly adjusted, and that requires the expert hand. The beneficial effect of a correct glass may be upset by an ill fitting frame. It has been my special work for over twenty years to correct troubles emanating from eyestrain, and placing the proper lenses in the most suitable and becoming frame or mountings. All my work is guaranteed.
