In Champagne our heavy artillery has gained in several occasions a very notable advantage over German artillery.

### Tabasco's Rough Trip.

BROUGHT A BIG MAIL. After a stormy though uneventful passage of twelve days from Liverpool, the Furness liner Tabasco, Capt. Yeoman, entered port at 10.30 this forenoon, bringing 70 packages of mail matter, 400 tons of cargo, but no passengers. The ship left Liverpool at noon last Thursday week and right from the start met terrific weather and slow headway was made. As the passage advanced gale succeeded gale, until yesterday when conditions were favorable. The weather throughout was intensely cold, which made it difficult for the crew to work about decks. Beyond having a rough experience, Capt. Yeoman had no more to report, as he sighted or passed nothing during the trip.

### McMurdo's Store News.

TUESDAY, Dec. 8, 1914. New Talcum Powders are always coming to the surface, and a new talcum powder must be good nowadays to win popularity. The standard demanded by the public is high, and a talcum must have quality to measure up to the standard. This appears to be fully the case with Nyls Mayflower Talcum Powder, the latest product of the kind to be added to our Talcum case, and what reports we have of it support the claims. This powder bears the label "Made in Canada" and as such is an imperial product. We believe this Talcum Powder is well worth a trial, for its softness, its smoothness, its purity and its perfume. Price 25 cents a tin.

### Severe Winter North.

According to the report of the S.S. Kyle which arrived from the Northward at 1 p.m. yesterday, winter has set in with unusual severity on the Labrador Coast. After leaving Quispou the ship experienced a series of gales and snowstorms far worse than any felt here in January. The Kyle was unable to call at Battle Harbor on the way North because of ice, but that port was made on the return trip during the height of a north west gale. When the ship reached Hawke's Hr., she became blocked with ice and had she remained for ten hours longer would probably have been forced to stay there all the winter. Most of the freight for Cartwright was landed at Hawke's Harbor as it was impossible to get further north. A considerable quantity was brought back here in accordance with instructions of the shippers. Chief Officer Barnes says that on the whole, the trip was one of the worst he ever experienced at this season of the year.

The Kyle arrived in port from the northward at 1 p.m. yesterday.

### Household Notes

Boiled sump or coarse hominy is very nutritious. Beans are the most nutritious of all vegetables. Whiting and ammonia are best for cleaning nickel. Every cellar should be aired and sunned very often. As a rule meats containing much fat are not wholesome. Sliced oranges and shredded cocoanut put into a dish in alternate layers is a delicious dessert. Good mutton should be bright red in color, with firm, white fat. Fine net of the sort used for curtains can be cut up for boudoir caps. A few chopped dates added to apple sauce makes a very tasty dish. Newspapers will give as brilliant a finish to window glass as chamomile. Proper food makes all the difference in the world to the health of a family. After the dust is wiped off a mirror a little camphor on a cloth will brighten it. In cold winter weather salted snow will serve instead of ice in the ice-cream freezer. It is better to clean meat by wiping it off with a wet cloth than to let water run over it. When you wish a foundation for an embroidered linen napkin ring cut up a mailing tube.

POLICEMAN ENLISTED.—Constable Doody has resigned from the police force and last night enlisted with the Second Contingent.
