

Motherhood

Is made happy-hood by healthy infant-hood.

Children that have bunches in the neck, eruptions on the face, head or body, eczema, sore ears, inflamed eyelids, rickets, or snuffles, should be given

Hood's Sarsaparilla

The great specific for inherited or acquired Scrofula. None too young or old to be benefited by this great blood purifier, alterative and tonic.

"My little boy, three years old, had a continual breaking-out of sores. I gave him Hood's Sarsaparilla and in a short time he was completely cured." Mrs. LYDIA SCHADE, Stratford, Ont.

"One of my children had scrofula sores all over his body. A friend told me to give him Hood's Sarsaparilla, and when he had taken three bottles he was cured." Mrs. Wm. E. Rodd, Charlottetown, P. E. I.

Accept no Substitutes for Hood's Sarsaparilla and Pills. No Substitutes act like them.

A NEW AMBASSADOR

Hon. Charles Hardinge Given the St. Petersburg Post.

London, March 5.—King Edward has approved of the selection of Hon. Charles Hardinge (assistant under secretary for foreign affairs, and brother of Viscount Hardinge) to succeed Sir Charles Scott, as British ambassador at St. Petersburg. Sir Charles Hardinge (financial adviser to the Egyptian Government), will replace Mr. Hardinge in the foreign office.

FIRE AT HALIFAX

Two Structures Badly Damaged—One Fireman Killed.

Halifax, March 5.—The worst conflagration that has occurred here this year broke out at 12:10 this morning at the corner of Duke and Water streets. The fire started on the lower floor of the T. H. Carrol's fruit store, and in less than 20 minutes the entire building, a large three-story wooden structure, was a mass of flames, and by 1 o'clock was completely wiped out. The British American Hotel, south of the corner, and Duke street, west of Carrol's, was also badly damaged. The loss is thought, will amount to about \$25,000. But little of the contents of the stores were saved. During the fire, Patrick Schell, a man about 60, and an old-time fireman, dropped dead near the scene from excitement. He was a hardware clerk, and unmarried.

TO USE WASTE ENERGY

Canal Rapids in Northern Ontario to Be Used for Pulp Industry.

Toronto, March 5.—Mr. Davis, Commissioner of Crown Lands, has received an application from Messrs. Parry Sound gentlemen, with whom are associated American capitalists, for the lease of a valuable water power at Canal Rapids, on the Magnetawan River, near Georgian Bay. The proposal of the syndicate is to build at that point a large pulp mill and, perhaps, other industries, and the Government has also been asked for a lease of some land in the vicinity for building purposes.

Canal Rapids are one of the finest undeveloped water powers in that district, but their energy has been going to waste because there has been no

SIX BOOKS FOR THE SICK.

What I Learned After 30 Years.

Which shall I send?

No money is wanted. Simply select the book you need. It is my experience as a specialist of 30 years. In the book I tell how at last I found a way to reach difficult, deep-seated diseases. Thirty years of earnest, arduous toil in hospitals and at bedside, made it possible for me to write these books.

The book tells how I perfected my prescription—Dr. Shoop's Restorative. How by scientific experiment I traced out the causes that bring on chronic diseases.

I found invariably that where there was a weakness, the inside nerves were weak. Where there was a lack of vitality, the vital nerves lacked power. Where weak organs were found, I always found weak nerves. Not the nerves commonly thought of, but the vital organs' nerves. The inside—the invisible nerves.

This was a revelation. Then my real success began. Then I combined ingredients that would strengthen, that would vitalize, these nerves. That prescription I called a restorative. It is known the world over now as Dr. Shoop's Restorative. After that I did not fail to cure one case in each hundred. In the extremely difficult cases my failures for five years were one in each forty treated. I found cancer incurable. Cancer is for surgery, not medicine.

Then how to get this prescription to sick ones everywhere was my thought. I must announce it in the public press. But, thought I, will they realize the real truth of my discovery, the real power of Dr. Shoop's Restorative? Then a way came to me—like an inspiration. "I will offer it to the sick on trial. Then they will know I am sincere—that my prescription is unswerving."

I wrote a reliable druggist in each city and village in America. They agreed to co-operate with me. Now by any sick one Dr. Shoop's Restorative can be taken at my risk. For a full month I will let you use it entirely at my risk.

Send no money. Just write me for the book you need. When I send it I will tell you of a druggist near by who will permit the month's trial. Use the Restorative a month. Then decide. If you say to the druggist, "It did not help me," that will relieve you of any expense whatever. He will bill the cost to me. This is my way of clearing your mind of all doubt as to what Dr. Shoop's Restorative can do.

No matter how prejudiced, you cannot dispute this absolute security I offer. You cannot resist an offer like this if you are at all sick. If you have a weakness, write me. If you can't do things like you used to do them, tell me about it. Write in confidence. As a physician I will tell you a way to help.

Get my book now—today. Address Dr. Shoop, Box 41, Racine, Wis. Mild cases, not chronic, are often cured by one or two bottles. At druggists.

BIG BLAZE AT ST. JOHN'S

Four Buildings Destroyed—Loss Will Approximate \$75,000.

St. John's, Que., March 5.—A serious conflagration, which originated in U. Normand's fur store, at the north end of Richelieu street, has been burning since 7:30 last evening. The losses so far amount to at least \$75,000, including W. McNulty's wholesale and retail boot and shoe store, U. Normand's fur store, F. Payette's ready-made clothing, and haberdashery store, Arbeck and Raincourt's general store, J. E. McNulty's drygoods store is now burning, and will be a total loss. Most of the buildings were owned by J. E. Molleur. The fire is said to have been caused by a fallen oil lamp, which fell from a shelf, and lit the electric light stand, there is oil lamps are in general demand. The fire brigade turned out promptly, doing all in their power, in spite of which the stubborn fire penetrated through the walls from floor to floor and building to building till it assumed the dimensions named. It is said the insurance is heavy, but not enough to cover the losses.

A LUCAN SUICIDE

William Hill Kills Himself By Taking Carbolic Acid.

Lucan, Ont., March 5.—William Hill, aged 42, head cooper with the Lucan Milling Company, of this village, committed suicide yesterday afternoon at his home by taking a large dose of carbolic acid. That the act was contemplated some days ago is assured from the fact of his having told a friend he would be dead in less than six weeks. At the time the act was committed the victim and another young man were preparing supper for themselves. Mrs. Hill being away from home. Domestic trouble is supposed to have been the cause.

SLAUGHTER AT WINDSOR

Accused Murderer of John Rudden Brought Back to Canada.

Windsor, Ont., March 5.—Provincial detectives arrived here yesterday from Cincinnati, Ohio, with Edward Slaughter, the colored man accused of the murder of John Rudden, in this city, last fall. The arrival of Slaughter is the culmination of a determined fight made by his relatives against his extradition. He will be given a preliminary hearing Monday or Tuesday and then remanded for trial at the fall assizes.

EXTENSION OF TIME

Blizzards Have Again Interfered With Transportation Companies.

Toronto, March 5.—As was expected, commercial paper due yesterday was not very well met. Owing to the prolonged severe weather and the consequent stoppage of traffic of the railways and general paralysis of business, country merchants are not in a position to promptly meet their notes falling due, as they would otherwise have done. Many local wholesale houses, knowing that their customers could not meet their notes, went to the bank a day or two ago and took up the paper. A general manager of one of the banks said that no serious results would ensue. Extension of time would be granted the delinquents and business would soon pick up.

BUSINESS A BIT SLACK

Bad Weather Causes Settling To Be Slow at Toronto.

Toronto, March 5.—Bradstreet's trade review, weekly summary: Trade at Montreal has again been seriously interfered with this week by the snowy storms. The conditions of trade, however, are reported sound. The volume of the business done so far is very fair, all things considered. There is a large accumulation of freight awaiting for shipment as soon as it can be moved by the railways. Payments on March paper have been fairly considering the slowness of retail trade in the country. At Toronto the unusually heavy blizzard at the opening of this week caused further interruption to railway traffic, and trade has again been adversely affected. The annual spring millinery openings have been somewhat retarded by the blizzard, but at the opening of the week, and later by the heavy rain. Payments on maturing obligations this week have been very fair. Prices of staple and imported goods are firm.

Trade at Quebec, all things considered, is fairly satisfactory, and the outlook for general trade is promising.

In Winnipeg there has been fairly good buying this week by the retailers. The travelers are meeting with a satisfactory demand through the west. The outlook for a further influx of settlers is encouraging.

Trade conditions at London are satisfactory, and while spring trade has been a little slow, the prospects for steady expansion under improved conditions are promising. Payments have been only fair.

Ottawa trade is in a sound condition. The volume of spring business so far has been satisfactory.

Failures for the week number 19, as compared against 15 last week, and 24 in this week a year ago. For February they are slightly more numerous than a year ago, but liabilities are small. Bank clearings for the week aggregate \$44,165,000, an increase of 3.5 per cent over last week, but a decrease of 8.1 per cent from this week a year ago.

JURY FOREMAN GUILTY

Accepted a Bribe of \$300—Will Be Given Utmost Penalty.

Toronto, March 5.—The jury at the general sessions yesterday found Michael J. O'Neill guilty of the charge of accepting a bribe of \$300 while foreman of a jury holding an inquest on the death of Jas. Dillon, killed by a C. P. R. train on the Toronto Esplanade and took the \$300 from Provincial Detective Rogers, who was sent to catch him after he had approached the lawyer for the company, Judge Winchester remanded O'Neill till March 12, for sentence, when, it is said, he will be given the utmost penalty. Other charges may be laid.

JAPS RUSHING MEN TO KOREA

Russian Troops Retiring Towards the Yalu River.

A JAPANESE CRUISER SUNK

Foreign Minister Lamsdorff Expected to Resign—Port Arthur Harbor Badly Blocked.

London, Saturday, March 5.—Little change in the Far Eastern situation is reported this morning. It is apparent that the Japanese are busily engaged in transporting their forces into Korea, and this work is being facilitated by the enforced inactivity of the navy.

HARBOR ALMOST BLOCKED.

According to the Sebastopol correspondent of the Daily Graphic, Admiral Skrydloff has learned privately from Port Arthur that the Russian battleship Retvizan lies in such a position as to block effectually the exit of battleships from the harbor, the passage being practicable only for cruisers. The correspondent adds that Russia's new battleships now building on the Baltic will not be ready for active commission before the end of the year. JAPAN'S FULL COAL BINS.

The Japanese officials who have charge of the Japanese financial and commercial interests in England declare that his Government foresees the possibility of coal being declared contraband of war, and that it has been collecting large stores of Welsh steam coal for years, so that today it has a supply sufficient for the needs of the navy for years to come.

WHAT FIGHT WAS THIS?

On the strength of a statement made by a missionary, the Shanghai correspondent of the Daily Chronicle sends in a doubtful report that 28 Japanese sailors have landed at Teng-Chau, saying that they were on their way to the result of an engagement with Russian warships, which also went down. No Russians were saved, but 200 Japanese were captured by Chinese troops. This action is reported to have occurred between Port Arthur and the Mias Tao Islands.

LAMSDORFF'S SUCCESSORS.

Telegraphing from St. Petersburg a correspondent of the Paris Matin says that rumors that Foreign Minister Lamsdorff has repeated his request for resignation were persistently carried in high circles. M. Muraviev, the minister of justice, and M. Izvolsky, Russian minister to Denmark, are mentioned as possible successors to the foreign minister.

ALL OVER BY SUMMER.

In a dispatch from Rome a correspondent of the Paris Figaro quotes the Japanese Minister to Italy as having said, in an interview, that he was not fully aware of opinions held in Japanese military circles, but judging from the general trend of news received from the seat of war, the attention of the Japanese generals was no longer concentrated upon Port Arthur. He said that he feared the concentration of the Russian Baltic, Black Sea and eastern fleets, because this was impossible before summer. Japan hoped that the war would be ended by that time. Asked concerning the possibility of European complications, the minister said he did not believe these would supervene if Japan was victorious.

RUSSIA MILITARY MOVEMENTS.

The Tokio correspondent of the Times says: "Russians were recently conveyed to Pootsie by Vladivostok and crossed the Tumen River southward of Ung Kwin and Hol Yang. The Russian troops who have hitherto been south of Anju have all retired towards the Yalu River. The martial law regulations published at Vladivostok, and the great solicitude with regard to provisions, the objections of France to Japan's obtaining the Seoul Wiju Railroad concession are met by the plea that

HER HUSBAND WAS A DRUNKARD

A Lady who cures her husband of His Drinking Habits Writes of Her Struggle to Save her Home.

A PATHETIC LETTER

"I had for a long time been thinking of trying the Tasteless Samaria Prescription treatment on my husband for his drinking habits, but was afraid he would discover that I was giving him medicine, and he thought unwell and hesitated for nearly a week, but one day when he came home very much intoxicated and his week's wages were all spent, I threw off all fear and determined to make an effort to save our home from ruin. I saw coming, at all times, as directed, next morning, and watched and waited for the result. At noon I gave him more, and also at supper. He never suspected a thing, and I then boldly kept right on giving him regularly, as I had discovered something that set every nerve in my body tingling with hope and happiness, and I soon saw a peaceful happy home, a share in the good things of life, an attentive, loving husband, contented that he had been told that he was a drunkard, and he was taking the medicine he had been given. He had given him the full course he had stopped drinking altogether, but I kept giving him the medicine till it was gone, and then sent for another lot, to have on hand if he should relapse, as he had done from premises before. He never has, and am writing you this letter to tell you how thankful I am. I honestly believe it will cure the worst cases."

FREE SAMPLE and pamphlet giving full particulars, testimonials and price sent in plain sealed envelope. Correspondence sacredly confidential. Enclose stamp for reply. Address The Samaria Remedy Co., 25 Jordan Street, Toronto, Canada. Also for sale by W. T. Strong & Co.

THE RAILROAD IS REQUIRED FOR STRATEGIC PURPOSES.

A dispatch from Vladivostok, dated March 2, via St. Petersburg, March 4, says: "According to information received here, forty Japanese transports, escorted by the entire naval fleet, have been energetically landing troops in Korea at Fusan and Chemulpo. It is estimated that fully 100,000 men have disembarked, and it is supposed that an immediate advance into Northern Korea is contemplated. From the fact that the Japanese are thus employed it is felt that no immediate attack upon Vladivostok or Port Arthur will be made. The reported landing of 2,500 Japanese troops at Song Chin, Plakien Bay, on the east coast of Korea has been confirmed. There is a remarkable rumor abroad that a quantity of transport material, together with 90 tons of salt fish has been discovered laid away in secret places in the neighborhood of Nikolaevsk. They were apparently intended for the use of Japanese forces toward the end of summer. The enrollment of volunteers is proceeding with enthusiasm at Vladivostok."

PORT ARTHUR IS QUIET.

The following dispatch, dated March 2, has been received at St. Petersburg from Major-General Pfug, commanding the Russian forces at Port Arthur: "All is quiet at Port Arthur and Yinkow. According to information given by eye-witnesses, a Japanese cruiser, having three funnels, lies near Chemulpo between the islands, having recently sunk there." A correspondent of the Daily Mail, cabling from Chefoo under date of March 1, said among other things, that he had seen a Japanese cruiser of the Nitaka type beached at the entrance of Nam Yang River, which is about 15 miles south of Chemulpo. Japanese naval vessels of the Nitaka type have three funnels.

AN EARLY ADVANCE.

Paris, March 4.—Information received here from official sources in Korea confirm previous reports to the effect that Chinampo is free from ice, that the Japanese have ceased debarking troops at Chemulpo, and that they have taken advantage of the opening of Chinampo to land troops there, thus expediting the forward movement.

THE FEDERAL LIFE ASSURANCE COMPANY OF CANADA.

TWENTY-SECOND ANNUAL STATEMENT.

The twenty-second annual meeting of the shareholders of the Federal Life Assurance Company of Canada was held at the head office of the company in Hamilton on Tuesday, March 1, 1904. The president, Mr. David Dexter, in the chair. The following reports and financial statement were submitted:

DIRECTORS' REPORT.

Your directors have the honor to present the report and financial statement of the company for the year which closed on the 31st December, 1903, duly vouched for by the auditors.

The new business of the year consisted of 1,567 applications for insurance, aggregating \$2,841,250, of which 1,916 applications for \$2,748,172 50 were accepted. As in previous years, the income of the company shows a gratifying increase, and the assets of the company have been increased by \$251,573 89, and have now reached \$1,893,900 70, exclusive of guarantee capital.

The security for policyholders, including guarantee capital, amounted at the close of the year to \$2,763,900 70, and the liabilities for reserves and all outstanding claims, \$1,711,300, showing a surplus of \$1,052,600 70. Exclusive of uncalculated guarantee capital, the surplus to policyholders was \$182,790 70.

Policies on 70 lives became claims through death, to the amount of \$130,234 62, of which \$2,000 was re-insured in other companies. Including cash dividends and dividends applied to the reduction of premiums, \$41,770 78, with annuities, the total payments to policyholders amounted to \$204,018 49.

Careful attention has been given to the investment of the company's funds, in first-class bonds, mortgage securities, and loans on the company's policies secured by reserves. Our investments have yielded a very satisfactory rate of interest. Expenses have been confined to a reasonable limit, consistent with due efforts for new business. The results of the year indicate a most gratifying progress. Compared with the preceding year, the figures submitted by the directors for your approval show an advance of 15 per cent in assets. The assurances carried by the company now amount to \$1,945,249 56, upon which the company holds reserves to the full amount required by law, and, in addition hereto, a considerable surplus. The field officers and agents of the company are intelligent and loyal, and are entitled to much credit for their able representation of the company's interests. The members of the office staff have also proved faithful in the company's services. Your directors regret to report the death of Mr. T. H. Macpherson, the second vice-president of the company, and a valued member of the executive committee. The vacancy thus caused was filled by the election of the Rev. Dr. Potts.

DAVID DEXTER, President and Managing Director.

AUDITORS' REPORT.

To the President and Directors of the Federal Life Assurance Company: Gentlemen,—We have carefully audited the books and records of your company for the year ending 31st December last, and have certified to their accuracy. The cash and journal vouchers have been closely examined and agree with the entries recorded. The debentures, bonds, etc., in the possession of the company have been inspected, whilst those deposited with the Government or banks have been verified by certificate, the total agreeing with the amount as shown in the statement of assets. The accompanying statements, viz., revenue and assets and liabilities, show the result of the year's operations, and also the financial position of the company. Respectfully submitted,

H. S. STEPHENS, CHARLES STIFF, Auditors.

Hamilton, 1st March, 1904.

FINANCIAL STATEMENT FOR 1903.

The retiring directors were re-elected, and at a subsequent meeting of the directors the following officers were re-elected: Mr. David Dexter, president and managing director; Lieut.-Col. Kerns and Rev. Dr. Potts, vice-presidents.

Writing Advertisements

Is a most profitable occupation. It is a pleasant, paying business. Few lines are open to young men today that offer as good opportunities as advertising. There is an enormous demand for young men who understand advertising. All young men and women who train themselves for these positions can get immediate employment.

The I. C. S. being itself one of America's largest and most successful advertisers, can, in its advertising course, give you the benefit of its wide experience as an advertiser and instructor. The course is practical; so simple a child can learn it; so inexpensive any one can afford it.
