

## BISHOP FALLON

(Continued from page one).

tary had sent a lying and libellous attack on me to the Detroit Free Press. I refrained at the time, though a desire to write more than fair to Dr. Reaume, from laying the matter before the Prime Minister. I knew that Sir James Whitney would not tolerate for an instant that any man should draw a salary from the province and at the same time receive pay from newspapers for fomenting racial and national strife. Dr. Reaume assumed an attitude of almost apology for his secretary, and though he promised to 'investigate,' I heard nothing of the results of his investigation. What I should now like to know is how the Hon. Dr. Reaume failed in four months to discover what it took Sir James Whitney less than forty-eight hours to unearth and promptly deal with. I have no hesitation in affirming as my personal opinion that Mr. Maisonneuve lost no sleep through any degree of punishment from his official chief because of his mischievous misdeeds.

## Education of Children

"Now I see no reason why a subject of such surpassing importance as the education of our children should be discussed with bated breath. I have never surrounded with any veil of secrecy my views on the baneful effects of the alleged bi-lingual system in the Province of Ontario. I have spoken clearly to the priests of my diocese at their annual retreat last July my opposition to that system and the reasons underlying my opposition. My words were spoken with full confidence, either expressed or implied. The ecclesiastical sycophant who gave them to the public, while his tastes may be questioned, is in no sense guilty of any betrayal of a confidential communication. But he was both dishonest and dishonest in suppressing my emphatic declaration made at the same time, that so far from being hostile to the French language, I would favor the establishment of purely French schools for the purpose of assuring, to such children as desired it, a thorough education in the French language. It suited the purpose of a clerical agitator to suppress that fact.

"Similarly in the case of the memorandum of Hon. Mr. Hanna, there was nothing confidential in my conversation with him. I stated my views to him and gave him certain facts because, in common with his colleagues in the Ontario cabinet, he is the guardian of public education in certain sections of my diocese in a deplorable condition, but if any attention were to be given to the preposterous demands of the Ottawa French-Canadian congress, it threatened to become more deplorable still.

## Important Information.

"I wanted Mr. Hanna to use the information I gave him, and which seemed to astonish him, in any way he pleased. At the same time I must say that his statement as published, and particularly in regard to any meeting of the bishops of Ontario, which in fact had taken place, does not agree with my remembrance of the conversation.

"But, on the main issue, Mr. Hanna stated my absolute exactitude, and I desire now to reaffirm them. The alleged bi-lingual system of education as it prevails in certain parts of the Province of Ontario is absolutely, as concerning the teaching of either English or French and utterly hostile to the best interests of the children of both English and French. Let me cite a few facts culled from a multitude that I collected on my tour through the diocese of London.

"The French-Canadian parishes of Belle River, Big Point, French Settlement, McCreagh, Humberstone, Staples, Stone Point, Elmwood and Tilbury, with eight hundred and thirty-two pupils, passed a total of ten pupils at the recent entrance examinations.

"Disgraceful Conditions.

"It is from some of these parishes that the loudest noise comes regarding my insistence that these conditions are a disgrace. If the separate schools in these districts are bad, the public schools, also, under the alleged bi-lingual system, are worse. For in the above-mentioned nine districts the public schools succeeded in getting seven children through the entrance examination, of which Tilbury furnished four, McCreagh, Big Point and Palmcourt one each, and the others none. And I could cite many other instances of equal inefficiency. All these facts have been supplied to me ever their own signatures by the pastors of the parishes I have named.

"Is it any wonder that I should raise my voice on behalf of all the children who live in what might be called the bi-lingual belt of my diocese? And is it not monstrous that for so doing I

should be charged with hostility to the French language and to the interests of the French-Canadian people? In the schools that are inflicted on these children, neither English nor French is properly taught or decently spoken. The regulations of the education department are in many instances utterly disregarded. Because of the conditions that obtain, children are either not sent to the school at all or are withdrawn in the face of the difficulties.

## Can't Read or Write.

"During my present confirmation tour the French-Canadian pastor of a French-Canadian parish in Essex County said to me in the presence of witnesses: 'Half the boys whom you confirmed this morning (they ranged from 11 to 15 years of age) can neither read nor write. Every year since I came here I have offered a gold medal to the child that would pass the entrance examination. Not one has ever passed. Another pastor made an equally appalling statement to me, regarding the illiteracy of his children. Thirteen of them are still another district, in which, for the past 25 years, not a single child has ever been able to obtain the entrance certificate. And six of the thirteen French-Canadian priests in active service in my diocese have expressed to me their unqualified dissatisfaction with the manner in which the children are being educated in the so-called bi-lingual schools.

"Now, the fault is not with the children or with the teachers; it is with the system, and it is a system that is being extended. It is a matter of great public moment. On the one side of the discussion are a few noisy agitators, on the other side are also French-Canadians in no small numbers, together with the rest of the population of the Province of Ontario, without distinction of creed, or nationality. And let me hazard the prophecy that when this second division awakes to the gravity of the situation, it will make short work of an alleged bi-lingual school system which teaches neither English nor French, encourages incompetency, gives a price to hypocrisy and breeds ignorance.

## Is Not a Fight.

"This whole question is not a contest between English-speaking and French-speaking Catholics. It is a matter of great public moment. On the one side of the discussion are a few noisy agitators, on the other side are also French-Canadians in no small numbers, together with the rest of the population of the Province of Ontario, without distinction of creed, or nationality. And let me hazard the prophecy that when this second division awakes to the gravity of the situation, it will make short work of an alleged bi-lingual school system which teaches neither English nor French, encourages incompetency, gives a price to hypocrisy and breeds ignorance.

"(Signed) M. F. FALLON.

"Bishop of London."

## A HUNGER MARCH IN AUSTRIA'S CAPITAL

An Imposing Demonstration in Vienna Against the Tariff on Foodstuffs.

Vienna, Oct. 15.—Vienna witnessed today a most imposing manifestation by Socialist workmen against the tariffs on meat and other foodstuffs. Two hundred thousand men and women marched in procession over the Ringstrasse to the town hall to shout into the ears of the members of the government that the present intolerable dearth of living cannot be borne any longer by the masses of the people.

The huge procession started at 10 o'clock from the Schwarzenbergplatz, headed by the Socialist deputies and town councillors. Numerous deputations from provincial towns followed, then came endless lines of Vienna Socialist workmen wearing carnations or other red flowers and neckties, and Socialist emblems, and marching like well-disciplined soldiers 20 or 30 abreast.

Workmen's songs alternated with constant shouts of "We want cheaper meat," "Down with food taxes," and "The frontiers must be opened."

An enormous number of red flags and large streamers were carried, some of the inscriptions being, "Workmen, too, wish to eat meat," "Away with the custom barriers!" "The frontiers must be opened to meat and cattle," "Give us food at reasonable prices."

In the rear of the procession marched the bourgeois elements—the postal, telegraph, and railway employees, bank clerks, artisans, tradesmen and several hundred housewives. The latter was a novelty, as never before have the wives of Vienna citizens taken part in street demonstrations. The march past lasted three hours, and when the different groups reached the town hall they were addressed by the Socialist leaders, who in vigorous speeches called upon the Government to abandon its protectionist policy and give the people cheaper food.

Splendid order was kept, and the police, who were instructed to remain passive, had no cause for interfering.

**THRESHER INJURED.** Ridgeway, Oct. 15.—Ben Smith, a young thresherman living near Mornington, was seriously injured this afternoon when he was run over by a threshing engine. He had close call from losing one of his legs when the machine started unexpectedly. He was very badly bruised and shaken up.

**ACCIDENT TO MR. DOWNEY.** Guelph, Oct. 15.—It is reported here that Joseph Downey, superintendent of the Ontario Asylum for the Insane, while getting out of a train near the Union station in Toronto, stumbled in the dark and broke his collarbone on the right side.

The Ladies' Aid of the First Lord Baptist Church intend holding a box social on Friday evening, Oct. 21. Mrs. Charles V. T. McNichol, 5, has kindly offered her home for the occasion. An excellent programme has been prepared and a good time is expected.

In the most densely populated portions of the East Side in New York there are 1,000 people to the acre. Such a terrific figure can be reached only by means of high, six-story tenement-houses. The usual living apartment in such tenement-houses has two or three small rooms; into these are packed with many as eight or nine children, and often several lodgers besides.

## MUST MAKE SACRIFICES TO HELP OTHERS

Rev. E. W. Halpenny's Sermon in New St. James' Church On Sunday.

Rev. E. W. Halpenny, of Toronto, general secretary of the Ontario Sunday School Association, occupied the pulpit of New St. James' Presbyterian Church Sunday morning. "Here Am I, Send Me," was the text chosen for his sermon. Mr. Halpenny impressed upon his hearers that in order to save others we must make sacrifices ourselves.

Mr. Halpenny stated that the Sunday school offered the greatest opportunities for Christian work. He strongly advocated the institution of a cradle roll in all Sunday schools, and related many incidents to show what a real benefit it was to the church and church workers. "The Sunday school population of Ontario is only one-tenth the day school population," he said, "therefore what a great work there is yet to do for Sunday school workers."

Mr. Halpenny also stated that the home department was another department of the Sunday school that could do excellent work in bringing the children and their parents in contact with the Sunday school and church work, and strongly urged that such an institution be organized for each Sabbath school.

## SAYS MONTREAL IS BAD ON SUNDAYS

Secretary Roberts Makes Startling Statements About the Liquor and Vice Traffic.

Montreal, Oct. 16.—Secretary Roberts, of the Dominion Alliance, in a sermon at the First Baptist Church here tonight, declared emphatically that the laws were not forced and that Sunday night orgies occurred in saloons and hotels here, which were making a second Sodom and Gomorrah of this city.

He declared he could name hotels which Sunday after Sunday were crowded outside with rigs and autos, and frequented by men and women of the lowest type, with nothing done to prevent such orgies, although the police outside knew perfectly well what was going on.

He further said that there were 500 unlicensed liquor dealers in the city, while the "red light" district was going on just as ever.

## STEEL MEN PLAN MUTUAL PROTECTION

Big Manufacturers Propose a World-Wide System of Co-Operation.

New York, Oct. 14.—Ironmakers from all parts of the world met here today at the first general meeting of the American Iron and Steel Institute. No such gathering of ironmakers has ever taken place before in this country and from it results may flow which will revolutionize that gigantic industry in some of its important branches.

The American Iron and Steel Institute is a new departure inasmuch as its aim is to deal not only with the technical part of the industry but to take up its commercial side as well, and hence invade the domain of prices, so important to the world at large.

Plan Mutual Protection. Other organizations, notably the Iron and steel institute of Great Britain, have insisted for the exchange of views regarding the technical side of steel-making and have held many important meetings, but the most important step yet taken towards securing what for a long time has been under discussion, namely, a world-wide co-operation among the makers of steel and iron for mutual protection in the markets of the world in the matter of production and prices.

The movement looking to such a thing has been going on quietly for some time. Prominent among those who have been trying to bring it about has been Judge Gary, of the United States Steel Corporation, but associated with him in these efforts are representatives of many of the so-called independents and the foreign steel-makers.

Already several meetings of the new institute have been held, but it was not until the meeting of today that the American ironmasters' great iron master of such countries as Great Britain, France and Germany in the new movement to secure co-operation.

A scheme for the construction of a new main road, 90 feet wide, from Thornton Heath to Purley, England, is under consideration. It will pass through districts in which there are few houses, avoiding the busy centre of Croydon by making a wide detour. The scheme, as submitted to the authorities by the Motor Union, will cost about £50,000. The road will branch off at the point at Thornton Heath, and follow a line through Waddon Marsh lane, Coldharbour, and so on to Purley, a distance of about three and a half miles.
