LONDON, SATURDAY, FEB. 4.

ARE EXFORTS DANGEROUS?

During the eight months ending Nov 80 last, Canadians imported from the of the university, the number of stu United States \$185,562,370 worth of dents in attendance was greater than goods and from Great Britain \$73,744,- ever. This growth indicates fairly well 998 worth Canadan purchases from the grade of intelligence of the prov the United States were \$57,023,342 in er education. For the population of 1897, and \$217,502,415 in the fiscal year the province seems to grow slowly.

been swamping Canadian nationality higher education is true, for Queen's According to the new school of political economy which has sprung up in a night. only exports can sap a country's independence. Freight trains and vessels may come from the United States loaded with goods and there is no danger; but woe to Canada and the Empire unless they go back empty! We

There are the cries of men who have been complaining for years of the "un Toronto?" favorable balance" of trade with the Thited States Last year our exports to the United States were valued at \$101,199,675 or \$113,102,740 less than our imports from that country. Much of this difference we had to settle in the overcrowding in arts at Toronto. The overcrowding in arts at Toronto of the settle in the control of this difference we had to settle in the control of this difference we had to settle in the control of this difference we had to settle in the control of this difference we had to settle in the control of this difference we had to settle in the control of other markets. Politicians who have been trying for years to make party capital of the disparity letween on clamor against the reciprocity agree ment which would greatly increase our adverse balance of trade. They call Frotectionists, but the done. themselves protection assumes that ex-theory of protection assumes that ex-borts are more to be desired than imports are more to be desired than in-borts. There is a lack of logic in the opposition to the Fielding Paft agree-

RELIEVE TORONTOS OVER. CROWDED UNIVERSITY.

ment only equalled by the lack of sin

From the latest report of Prof. W. J Alexander, acting principal of Uni-Versity College, Toronto, the following significant extract is made:

the number of students or by in creasing the staff:

'Another defect which has been felt this session more keenly thus every is the insufficient accommodation afforded in the main building. This leads to helding of classes it rooms really too small for them, and to the continuous occupation of the state room throughost the forenees hours. Those conditions, in turn, as gravate the consequences of the very inadequate ventilation.'

Too many students, crowded and un healthy rooms-these are the complaints which have been coming for some time from both faculty and stu dents of Toronto University. The only remedy which some minds can imagine is the construction of more buildings round the old Norman tower, though It may be noted in President Falconer's report on Page 13, that while he con tends mildly for the Government sup-Cine, applied science and post-graduate work." which he asks the Government to concentrate." Can he or any other intelligent citizen find the ghost of a grason why Government money, money of the whole province's contribution, should be put into a new arts building on the north side of the university fluadrangle rather than into a good are university, it is high time that the Provincial Government and government gove port of but one "thoroughly well duadrangle rather than into a good are university here in London? Instead of the west pring to cut the throat of the West pring to cut the throat of the West provincial Government did something to encourage this enterprise of London and the west and for the convenience of hundreds of arts students in this opulous portion of Ontario.

It is, of course, precisely the arts

Women cannot posst or complete equative with man until she finally learns, as man dees, to get shoes that are large and dearer bread, say the working. Thousands of canadians who at first sight regarded the reciprocity agreement between the proposed reciprocity agreement between the sum of Montreal, who decided this men, of Montreal, who decided this morning to agitate against eagure adainty bunch was a free exchange of wheat and hogs a free exchange of the delicates and short programme followed, in which the party repaired to the form of the evening consistent men, of Montreal, who decided this dear the proposed of the delicates and the surface and the surface and the surface and the surface and the proposed of the delicates and the surface and the surface and t
