More About Paul.

"I have fought a good fight, I have finished my course, I have kept the faith."

A pretty fair sort of letter for an who has known much of per ecution, much of misrepresentaon, much of shipwreck and more of physical maltreatment.

Paul has the faculty in his pistles of summing up great exeriences in a human way. Paul ddom writes above the heads of is audience. There is a directness, Remember at the time the above ears." erse was written, Paul was near-

then he knew his days were num- in. Every second magazine carothers not to do as they have done of country characters. hey try, in their own way to point an hour a man is apt to write the just a wee bit top-heavy things that are very close to his heart; there is apt to be very little time wasted in idle words. When one is face to face with the great

he has held dear.

Paul, as the evening of his days raws near, is able to look hack and say: "I have fought a good ght, I have fought a good ght, I have fought a good ght, I have finished my course."

Notice need for such an institution has ceased to exist in London? On Friday there were seven children in court on various of the evening of his days that has been placed upon them. And but the resolved, in spite of their defeat the proposed to do to improve the conditions of the people. WENDELL HOLMES

A Safe Investment

IS IN SOMETHING EVERYBODY WANTS, NEEDS AND MUST HAVE.

If you had such a commodity there would be no question about selling it.

If you knew where such a commodity could be obtained in unlimited quantity without fear of depletion, and it could be turned out to the market at A SURE MARGIN of profit, you would be interested, would you not?

SUCH IS SUGAR

SUGAR is absolutely necessary to the health and happiness of mankind

SUGAR is a delight and a necessity, but not a luxury, and all want it and must have it.

SUGAR is a farm product when produced from beets, and is one of the most protitable crops the farmers of Ontario can grow, for it suits this climate and soil. It also increases the productivity of the soil.

SUGAR is sugar and is exactly the same whether produced from Ontario beets or Cuban cane. The chemical formula for all sugar, both beet and cane, is C12 H22 O11.

SUGAR produced at home would be just as good as we now get when we are importing 95% of all we use, and would keep at home, to go into the pockets of Canadian farmers and workmen and investors, the thirty to forty millions of dollars we are now sending away

to foreign countries. SUGAR IS A SAFE AND PROFITABLE BUSINESS, WHEN IN THE RIGHT LOCATION TO GET THE BEETS, AND EFFICIENTLY AND ECONOMICALLY MANAGED.

The Peninsular Sugar Company

Presents all the above features as an inducement to home investors, especially farmers who have been producing beets to be exported to American factories. The capitalization is only what is needed and there is no bonus or watered stock, but all investors are on equal basis. There is only one kind of stock and that is offered at par.

IF YOU ARE INTERESTED, WRITE TO-

Peninsular Sugar Company, Petrolea, Ontario
