EVENTS OF OUTDOOR AMUSEMENTS YESTERDAY. Closing Day of the Untario Rifle Association

Meeting—The Second Military District—The Small Bore Prizes. Favorable weather attended the competitors assembled at Garrison common yesterday, on the occasion of the closing of the O. R. A. meeting and the inaugural match of the Toronto and second military district.

match of the Toronto and second military district.

The small bore competition was the only event of the day. The number of entries was small, owing to the larger number of competitors at the meeting being unaccustomed to practising with such rifles.

The shooting on the whole was excellent and above the standard, Sergt. D. Mitchell carrying off the first prize with 101 ont of a possible 105.

The following is the prize list:

SMALL Bore—Open to members—Ranges 800, 900, and 1000 yards; seven rounds at each range; any position.

The second military district prizes were decided on the same shooting, and resulted

the Victorias of Norwich, which resulted in Burford taking the first game in 20 minutes, and Norwich the next three in 7, 30 and 20 minutes respectively.

To-day the Chicago public will have an opportunity of witnessing our national game. As this is the first match game in that city much comment is made as to the manner in which the game will be received. The opposing teams are the regular organized Chicago lacrosse club and a team of Canadian residents there.

The Torontos will have to put forth their full strength to meet the Dominions, who hold the intermediate championship. The latter will put the following team in the field:

S. W. MARCHMENT & CO,
Authorized City Contractors. MISREPRESENTATION.

The excellent character of the ÆTNA LIFE INSURANCE COMPANY has recently been set forth in the columns of two Toronto daily papers, in respect to its Strength, Soundness, Profitableness, and Economy of Management. This has been done both substantively, by full publication of its accounts; and also comparatively, by placing its figures alongside of those of other companies, English, Canadian and American. And this has been done also in an open, manly fashion, over the names of the ManageRe of the Company in Canada, all of whom have had long experience in the business, and are responsible for the correctness of their statements.

Thereupon some anonymous writer, who evidently does not wish to be held responsible for his slanders, concocts a statement in which he proves, in his own fashion: let, that the ÆTNA'S volume of Income and Insurance is less now than in 1872; 2nd, that its death rate rules higher than the average of other companies in the States; 3rd, that it paid out in eash \$155,441 more money in 1879 for death and endowment claims than it received in eash for premiums; 4th, that its lapses and surresiders are abnormally heavy; and 5th, and lastly, as if bound to destroy, by a masterpiece of absurdity, any value sensible people might have attached to amote moderate statement, be brings the actual cost of collecting what little income he leaves us, up to "more than 24 per cent"

Points I and 24 have been answered fully in a previous advertisement, entitled "Selid Progress," showing that all statements were in Greenbacks in 1872, but in Gold in 1879, and that while Income and Policy Liability had decreased, on the other hard the Assets had lanceassed from \$18,807,5546 Giveenbacks in 1872, but in Hard the Assets had lanceassed from \$18,807,5546 Giveenbacks in 1872, but in they are now \$26,403,440 in Gold? And as to deaths, we showed that the ÆTNA was an old company and had many old members, while many of the other companies were new; but the ÆTNA having received the necessary funds from those old members was

In Canadian companies, 10.62 per cent. In American companies, 10.97 per cent. In British

And upon the Ætna's whole U.S. and Canada business only 4.80 " Light lapses indicate good management and well-pleased and satisfied policy-holders.

To No, 5 we say: It is a little too much to expect Twenty-six Millions to be taken care of, and invested and re-invested, safely and profitably, without any expense whatever. It cost the larvest loan and savings society in Canada close upon 1½ per cent. to re-invest and care for 1/2 millions last year. And again it is a little unreasonable to expect that \$1,370...27\$ 32 ould be paid out to about 3000 widows and or phans, and \$779.584.57 more for Endowments, never paying the wrong party, and getting a proper legal discharge from each, and no expense schatter be incurred in the whole performance! But this is the basis on which the hidden writer proceeds to figure out his "more than 24 per cent." for collecting a few cash premiums. What per cent. would it be if all the premiums were completed, as many of the ÆTNA's were years ago, by 5, 7, 8 and 10 payments?

The standard method of measuring a life company's economy is by showing the ratio of its Working Expenses to its Entire Income. This method has been followed for many years in the "Policyholders' index," for all American companies, and has been applied by Prof. Cherriman to all Canadian companies in his Blue Book for three years past. It is a little unfair both to old companies whose premiums have been largely completed, and to young companies whose premiums are mostly new, but no better test has yet been discovered. By this test it is found that the Expenses of the ÆTNA, per \$100 received, compare with other companies very favorably, as follows;

Average of all Canadian companies, for 3 years past, per annum, \$27.30

"the ÆTNA larg, do do 30 63

"the ÆTNA larg, do do 40 86

See Canadian Government Report, and Goodsell's "Policyholders' Index," compiled from all American Reports. Light lapses indicate good management and well-pleased and satisfied policy-

See Canadian Government Report, and Goodsell's "Policyholders' Index," compiled from all American Reports.

Light expenses secure good returns to policyholders in the form of dividends and other valuable advantages such as expensively-conducted companies cannot afford. WILLIAM H. ORR, Manager.
