## HUNTING SEASON IS NOW OPEN

Deer Reported to be Plentiful—  
Many Non-Resident  
Hunters are Ex-  
pected.

Fredericton, N. B., Sept. 16th. Everything points towards a very successful hunting season according to Chief Game Warden, A. Gagnon, who has been busy distributing the Game Licenses to the vendors in readiness for the hunting season which opened for deer on the 15th, and for moose on October 1st. From almost every county in the Province reports show an abundance of deer, while moose also appear plentiful. The partridge season, however, has been shortened by one week and does not open until October 20th, closing on November 10th, both dates inclusive. The bag limit for partridge is the same as last year, namely, six per day and twenty for the season.

An important amendment, passed at the last session of the Legislature and in force this season, requires all hunters who kill a moose to bring out the head forthwith and exhibit the same to a Game Warden. This is necessary in an effort to prevent any illegal killing of cow and calf moose.

The forest is reported very dry so the early hunter will find dry walking where other years the travelling was wet and heavy. Hunters are therefore requested to carefully extinguish their camp and cooking fires as serious forest fires have occurred after the hunting season opened in similar dry autumns. Hunters holding licenses are not required to register to enter the forest.

Mr. Gagnon spoke of the hunting accidents which occur from carelessness during the hunting season and drew attention to the comparatively small number of accidents which have occurred in this Province during the past two autumns. "We sincerely hope that the records established in our Province during the past two years in connection with the small number of casualties in the woods during the open season will be lived up to by our people as well as by non-resident hunters during the coming open season," said Mr. Gagnon. "It can be done if all are careful and do not shoot before they know what they are shooting at and stop to think that they will regret it, if through their carelessness, they become responsible for a human life or for a maimed body." He also expressed the hope that all hunters would co-operate with the Department and the Officials charged with the enforcement of the Game and Fire Laws, so that the season would be successful in every respect.

## WEDDINGS

Giroux-Levesque.

A very pretty wedding was solemnized at the St. Benoit Church, Balneario, when Mr. Amelie Giroux, eldest son of Mr. and Mrs. Alexander Giroux of Charlottetown, and Miss Alina Levesque, youngest daughter of Mr. and Mrs. Antoine Levesque, were united in marriage. The marriage was performed in the Sanctuary of the church was solemnized by Rev. Fr. Lefebvre.

The bride wore a black costume with red fox fur hat and shoes to match and carried a nice bouquet. After the ceremony the party motored to the home of the bride's parents where a dainty luncheon was served. Mr. and Mrs. Giroux left on the Ocean Limited for a honeymoon trip to Newcastle and Moncton and on their return had a very nice supper and dance at the home of the groom's parents.

The happy couple received many beautiful presents including cut glass, silver and linen.

They will reside in Charlottetown.

McIntyre-Goulette.

A pretty but quiet wedding took place at the St. C. Church, Upper Charlottetown, when Miss Gertrude Goulette, eldest daughter of Mr. and Mrs. James J. Goulette, became the bride of Mr. Wilfred McIntyre, second son of Mr. and Mrs. Joseph E. McIntyre. The bride wore a costume of navy blue pointed tulle with hat and shoes to match. After the ceremony the party motored to the home of the groom's parents where a dainty luncheon was served.

Mr. and Mrs. McIntyre left on the Ocean Limited for a honeymoon trip to Moncton and on their return had a very nice supper and dance at the home of the bride's parents. The young couple received many beautiful presents including silver, cut glass, and linen. They will reside in Charlottetown.

300,000 CARS ENTER CANADA

AT ONE PORT  
Toronto, Aug. 26. That 800,000 motor cars from the United States entered Canada at Niagara Falls during the month of August is the estimate made. Influx of United States tourists is reported to be the largest in the history of the year, particularly at Windsor, Ont.

## ONE MANUFACTURER POINTS OUT NEED FOR A LOW TARIFF OF GOOD ROADS

Management of Toronto Factory Opposes Increase in the Tariff.

Toronto, Sept. 12.—Canadian manufacturers do not, as a rule, oppose increases in the tariff. The following "election notice" posted in a large Toronto factory yesterday, is therefore interesting, because it is different.

"We have no desire to dictate to our employees how they shall vote in the coming election, but we want them to vote intelligently.

"The increase in the tariff will increase the cost of the materials used in our goods, and will compel us to raise our prices.

"This will restrict their sale and so reduce either the number of employees or their hours of labor, or both. Increase in the tariff is increase in taxation and is followed by increase in cost of goods, increase in cost of labor and in lower demand for labor.

"Will that make Canada prosper?"

MAIL ORDER ECONOMICS

Down in a certain town a man went

into a store to buy an article and

asked the price. It was \$3.20 the

dealer said.

"Good gracious," said the man. I

can get the same thing from a mail

order house for \$2.82."

"That's less than it costs me," said

the dealer, "but I'll sell it on the same

terms as the mail order house just the

same."

"All right," said the customer. "You

can send it along and charge it to my

account."

"Not on your life," replied the

dealer. "No charge accounts. You

can't do business with the mail order

house that way. Fork over the cash."

The customer handed over the cash.

"Now 2 cents for postage and 5

cents for money order."

The customer, inwardly raving kept

to his agreement and paid the 7 cents.

"Now 35 cents expressage."

"Well I'll be —," he said, but paid

it saying "Now hand it and I'll take it

home for myself and be rid of this

foolery."

"Hand it to you? Where do you

think you are? You're not in Winni-

peg, and you'll have to wait a week."

Whereupon he placed the article on

the shelf and put the money in his

cash drawer.

"That makes \$3.26," he said. "It has

cost you 6 cents more and taken you

a week longer to get it than if you had

paid my price in the first place."

LESS LIQUOR FOR LIZZ

Garage Man (to Ford owner):

"How much gas do you want?"

Driver: "A gallon."

Garage Man: "Got the idea

winning it?"

VERY NECESSARY

"Should wives be paid wages?"

Editorial: "That is a question

of our age."

"That is you

think I send my wife out to work

for?"

Prominent Quebec Clergyman  
Feels That Gov. Should  
Improve The Gaspe  
Highways.

(Quebec Chronicle)

Quebec, Sept. 12.—The Venerable Archdeacon Sedt returned yesterday from Port Daniel in the Gaspe district where he inducted the Rev. J. F. Brewer as incumbent of that parish. During the course of his visits to the various parishes in his archdeaconate during the past few months Archdeacon Sedt has travelled some three thousand miles which includes his recent visit to the Anglican Missions on the Labrador Coast.

Speaking to the Chronicle-Telegraph last evening Archdeacon Sedt said that the scenery in the Gaspe Peninsula is very beautiful and well worth a visit. He was of opinion, however, that the Government should take over the Gaspe highways and construct it in similar manner to the main roads between Quebec and Montreal and other points in the Province, and by doing so this portion of the country would, he believed, become a most popular resort for tourists. The road at the present time is kept up by farmers who lack the necessary material and implements to make a really good job of it, though, with those at their disposal, they have done very well indeed but not sufficiently so to permit of automobile travel in any sort of comfort. If the Government would only undertake this work the place would prove an ideal one for those who delight in natural beauty with which the Gaspe region is replete.

AGE LIMITS

(Cleveland Plain Dealer)

There is an arbitrariness about age limits which permits plenty of discussion but no argument. The head of the largest lumber company in Canada, is ninety-eight, and every day he does a full day's work superintending the business of his concern. He has no intention either of retiring or of dying, though the doctors told him when he was forty that he had but a few months to live. John R. Booth is an exception to the general rule.

Then there is the question of the minimum age at which a citizen may arrogate to himself the rights and privileges of being an "old man." An interesting recent instance is that of John Philip Sousa, who, at seventy, was asked why he did not take up golf. He replied that he was fast too young for golf, and that he would think of the great Caledonian pastime when he became too old to do anything else. An unfair aspersions on golf, of course, but an excellent indication of the bandsman's indomitable will.

Men of a certain phlegmatic temperament may retire at sixty and greatly enjoy the remaining years of their lives. Others endowed with greater restiveness and nervous energy, would find retirement either fatal or a condition of discomfort and unhappiness.

For a man who is blessed with a competency the best rule is to work as long as he finds work enjoyable.

ADVERTISED ARTICLES SURELY

DO SELL BEST

If you doubt that advertising pays these figures sent out by the National Retailers' Association, should help convince you that it really does—

Two similar articles were placed on sale at the same price, one was advertised.

87.6 times the customer bought the advertised article.

3.6 times the customer bought the unadvertised article.

8.8 times the customer had no preference.

Two similar articles were placed on sale at another time, one was advertised and sold at a higher price than the other.

60.6 times the customer bought the advertised article.

24.2 times the customer bought the unadvertised article.

15.2 times the customer had no preference.

This test was not made in one community alone, but in representative communities and by reputable grocers throughout the country.

The figures furnish pretty conclusive proof.

Sellersville

A very enjoyable evening was spent on Labor Day at the home of Mr. and Mrs. Hudson Adams, Sellersville, P. Q. Supper was served from 5 to 9 p. m. and a few hours dancing completed a pleasant evening. The sum of \$65.75 was realized which has been handed to the Secretary of the School. Credit is due to the people of Flatlands, Broadlands, and Metapedia for assisting the people of Sellersville in making the evening a success.

## TOBACCO OF VERY HIGH QUALITY GREAT BENEFIT TO CANADIAN TRADE

New Brunswick Can Produce Tobacco Which Ranks With Best Quebec Product

British Empire Exhibition More Profitable From Dominion Point of View.

H. A. Freeman, tobacco expert from the Central Dominion Experimental Farm, Ottawa, who arrived in the city on Tuesday made an inspection of the tobacco crop grown by Arthur T. Thorne at his farm at Golden Grove, and pronounced the tobacco of a very high quality. Samples of the tobacco will be taken over from the 1923 pack. It has helped for points up river where he will inspect the crops of tobacco grown by T. H. E. Brooks and W. W. Hubbard, who along with Mr. Thorne, were induced through the efforts of the local Board of Trade to experiment with tobacco this year.

Mr. Freeman stated that the variety of tobacco grown in the province was similar to the grades used extensively in England and on the continent for pipe tobacco and chewing and added that Canadian export of rubber goods until a few years ago. As a direct outcome of the success of the Canadian rubber exhibits at Wembley, one Canadian firm has formed a branch company in London and another has booked orders for thirty-five thousand pairs of rubber boots.

Canada was importer rather than exporter of rubber goods until a few years ago. As a direct outcome of the success of the Canadian rubber exhibits at Wembley, one Canadian firm has formed a branch company in London and another has booked orders for thirty-five thousand pairs of rubber boots. The Dominion had been known as a supplier of raw furs. Now one Canadian firm alone had sold at the Canadian pavilion nearly a hundred thousand dollars worth of made-up furs. Canadian agricultural implements have long enjoyed a world-wide reputation. Additional advertisement made possible by the Empire Exhibition, however, has resulted in negotiations by one of the governments represented at Wembley for the purchase of seventy-five thousand Canadian ploughs.

NEW ROAD MAP OF

NEW BRUNSWICK

"I was most delighted with the condition of the roads down in New Brunswick." This was the way an enthusiastic Ontario motorist expressed his appreciation of the touring conditions in the province of the sea. New Brunswick has good roads—they are the result of long-time construction and of efficient upkeep. They are practically all hard gravel roads, of which material New Brunswick has an ample supply; the result is that even after a wet period, the drainage provided soon dries up the surface.

The fact that these good motor roads are available has very materially increased their use. Touring parties from other portions of Canada and the neighboring states are visiting the province in increasing numbers, to the benefit of both residents and visitors.

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa, recognizing this intensity of motoring in the province, has just issued a most useful map, known as the "New Brunswick Motor Roads and Recreational Map". The map shows at a glance the motor roads of the province, segregating in colors the trunk roads, secondary roads and other roads. Tourist camps and other points of interest are also shown with hotel accommodation. An interesting feature of the map is the indication of the accessible points to hunting and fishing resorts, while the areas where game and fish are to be found are shown in color. The map is on an easy scale and will fill a pressing need among those residents in the province and others, who have in mind a visit thereto. Copies of the map may be obtained from the Director, Natural Resources Intelligence Service of the Department of the Interior at Ottawa.

NEW CARLISLE NOTES

Mr. Robert Astels passed away, at his home here in New Carlisle, at the advanced age of 82 years. About one year ago he underwent an operation at the Soldiers' Memorial Hospital at Campbellton, but owing to his age it did not appear to be of any benefit. He leaves to mourn his loss his sorrowing widow and a grown up family of sons and daughters. Interment took place in the Anglican Cemetery. Rev. W. DeGrouchy officiating. Our sympathy goes out to the bereaved family.

Mr. James Thompson and Mr. Robert Craig have returned to their homes from Pennsylvania, where they spent the last four months. Miss Gertrude Robinson, Miss Alice Ross and Miss Mary Smollett left on Tuesday's train for McDonald College, where they are training for the Intermediate Diploma. We wish them every success.

Our sympathy is extended to Mr. and Mrs. Angus Astles in the loss of their little son, Garfield.

Mr. John Thompson Sr. is leaving on Tuesday for Vancouver, where he intends spending the winter with his daughter Mrs. R. W. McNeill.

NO SUBSTITUTE

"Why are you so late?" inquired the teacher of one of her pupils.

"Father wanted me at home," was the reply.

"Wouldn't someone else have done?" she inquired.

"No," said the boy, shaking his head emphatically, "cos he was giving me a spanking."
