A bill to authorize the construction of a railroad bridge across Sault St. Maire river, between Lake Superior and Lake Huron has been passed. The purpose is to connect with the Canadian railways. In the senate the army appropriation bill was taken up. The committee's amendments as far as the compulsory retirement clause were agreed to. The clause makes the re-tirement of an officer who served 40 years discretionary with himself, but obligatory to one 62 years of age. The clause evoked a warm discussion and the senate without action on it adjourned.

Toronto:
To the Catholic Electors of Ontario.
The important consequences to us, as
Catholics, which will follow the result of the approaching general election, is my apology for this address. The population of Ontario is 1,924,000, and is about to elect 12 representatives to the house of commons. Of this population we are 321,000, or more than a sixth, and are so entitled—population_clication_tion_giving the right to representatives. Those 15 should rightly be of our choice; should represent us in the house of commons; and be amenable to our opinion. Thus only would we truly be representative government be maintained.

he demands legislative freedom for the land of his fathers! In the name of Ontario Hon. Edward Blake to-day invites our suffrage; by vot-ing for him we assure his triumph, and that of just representation; we aid in rescuing the country from outrage by an obsequious house of commons, and an ap-pointed senate; we declare for the principle of parliament; and for a house of commons which shall reflect the whole people of the country, and not the partizans of a faction. The Catholic who votes for Sir John Macdonald tramples country and honor in the dust; votes for ten more years of Catholic disfranchigement; countenances the fraud of Catholic representation by the appointment of hirelings and renegades to office; stigmatizes Catholic intellect as in-ferior and debased; votes himself a serf; his children aliens. deprived of the right to elect one representative in a single constituency in Ontario; politically, we are a mere heap of Helots, without voice or part in the affairs of the country; permitted, indeed, to vote for the epresentatives of others, but ourselves excluded from representation. This humiliating condition is discreditable alike to the government which maintains and to us who submit to it.

In recently arranging 54 new constitu-encies, affecting the electoral rights of 1,170,000 of the people of Ontario, includ-ing 147,000 Catholics, and not assigning to the latter one constituency wherein to elect a representative, though their num-bers entitled them to seven, Sir John Mac-donald has determined for ten years to come what he deems the proper political status of Catholic, representation by the appointment of hirelings and renegades to office ; stigmatizes Catholic intellect as in-ferior and debased ; votes himself a serf ; his children aliens. I have given the reason and the motives for the course I adopt ; they apply equally to you. Let us vote unitedly for Hon. Edward Blake, and earn the gratitude of the country and our own good conscience. JOSEPH A. DONOVAN. Toronto, June I, 1882. POLITICAL POINTERS.

CHICAGO, June 1 .- The great strike of iron workers in the western mills, ordered. for to-day, has been postponed until June 15. There are many reasons for believing that an arrangement with the manufacturers will be made and the movement postnoned indefinitely.

Twelve hundred men at the Irondale mills are out on strike. There is no disturbance. Representatives of the manufacturers and men are consulting. The impression is that the men will be ordered to work on the arrival of Jarret, president of

The mill has a last night. This is calculated to weaken the lesser manufacturers. The mill has a capacity of 35,000 tons a year. The steel mills are running as usual. Most of them signed the scale. They do not employ many puddlers, and it is not thought their running will affect the situation. It is ex-pected that most of the shot mills will sign in a few days. It is generally believed that the strike will be long. The labor situation is unchanged. When the Pittsburg manufactories are in full blast they consume 150,000 bushels of coal daily. As this is supplied mainly by railroad mines a protracted strike in the iron interests will suspend hostilities among the coal miners. The railroads are reducing their force of laborers on account
