SUMMARY OF THE REPORT.

The following shows the progress made by the ÆTNA LIFE INSURANCE COM-PANY, of Hartford, Conn., the past year, in its several departments: 1.317.845.00 3,156,435.00 ... \$28,102,886,79 

SURPLUS Jan. 1, 1883. By Conn. and Mass Standard...... By New York and Canada Stan«ard

The enormous surplus which the ÆTNA LIFE has accumulated enables it to furnish insurance at lower rates than it is possible for the majority of companies to do. Estimated by the most rigid standard, the surplus now exceeds four and a half millions. This large surplus fund, it will be seen, not only insures absolute protection to policyholders, but it is a continued source of profit to them. The officers of the ÆTNA are to be commended for their successful management as evidenced by each recurring year.—

The Age.

THE ATNA commences the new year with brilliant prospects. Its investments are of a most satisfactory character. Its stocks and bonds rank high in value, and exceed their cost a larger percentage than in any previous year. Its forces are well organized, and the company will continue increasing its business and usefulness. The friends, patrons, and management of the ÆTNA LIFE may well feel proud of it.—Hartford Evening

"THE ATNA"

Is the name of a very handsome quarterly journal published by the Company and mailed to each Policy-holder throughout the world. The number for April, 1883, contains the Company's 33rd Annual Report in full, and also a complete list of all Death Claims of \$1000 or over paid during 1882. A copy of "THE ETNA" will be sent free of expense to any one asking for it.
