It would be a mistake to infer from the Mayor's arbitrary refusal to proclaim a half holiday during the Governor-General's visit that His Worship is not truly loyal, but we predict that it will be so construed abroad. To correct any such impression let it be remembered that the Mayor is interly opposed to the use, sale and manufacture of strong waters, and that a few hours before he was the manufacture of strong waters, and that a few hours before he was the first and that a few hours before he was the first and that a few hours before he was the first and that a few hours before he was the first and that a few hours before he was the first and that a few hours before he was the first and that a few hours before he was the first and that a few hours before he was the first and the first an

much surprise Lord Lansdowne had visited the big distillery at the East End, and Baving tasted the seven years old so much affected by bon vivants about town, pronounced it good—"aiqual," as a countryman of his puts it, "to the finest Kerry mountain dew that niver paid a copper of taxes to the Government, bad luck to thim." Putting the above facts together the resultant refusal becomes understandable. The baseball idea is merely a coincidental side issue. In the words of the temperance ovators "Whisky did it! It is an awful warning."

The trish Nulsance.

Once again is Canada to have a visitation of the Irish nuisance. We have had it in the Ontario Legislature, in the Ottawa House, and acow we are in the midst of the O'Brien business. What have Canadians—Canadians who are not Irish—done that they must be thus in flicted? Nearly every week, in some shape or form does this Irish business crop out, never failing to create discord and bad feeling among a portion of our people.

It is high time that the nuisance was abated. If you examine into the thing you will find the professional agitator at the bottom of it. The great bulk of Irishmen in this

A Sevel Ricycle Race.

Everybody knows that a big man rides a big wheel and small man a small wheel and that it is difficult for a short-legged man to ride a long wheel and more difficult for a long-legged man to get his legs under the handle har of a small machine. In a local city club house the other night a 56-inchar was blowing about what he could do on any wheel, and he especially rubbed at into one of the club "kids" who rides a £kinch. This young gentleman resented being picked on, and made an offer to bet the best cigars for all present that he could best the 56-inches on a ride from the house to the Don Bridge and back, he to ride the big wheel and the fall man to ride his. The offer was promptly accepted, and, notwithstanding the lateness of the hour. If Jun., they adiourned to the wheel-house, and got out their bikes. With a friendly boost the kid was loisted into the saddle of the "55, and the "85" was straddled by the lengthy rider. Off they started, the kid shead and just harely reaching the pedals with his toes, while the other rider with legs bowed out on either side of the landle bar ondeavored to catch him. The bridge was safely reached by both hit on the return trip, with the aid of the strong east wind, the "kid" rolled in over five minutes ahead of the now thoroughly cramped and tired 56-inch manipulstor.

—When you go to buy dry goods go to a dry goods store. When you go to buy a pair of boots go to a boot and shoe store. When you go to leave your order for a good fitting suit certainly go in tailors who understand that branch of business. Reason teaches that no man can be perfect in many trades. Gibson & Coulter are practical tailors. They keep a full stock of woollens to select from; their prices are mederate, and their fit, style and workmanship are right. You will find them at 249 Yonge-street, and only there. Call and see them.

To assist nature most effectually in her efforts to throw off or resist serious disease, it is essential that an impulse should be given to functions which growing ill-health suspends or weakens, namely, the action of the bowels, bilious secretion and digestion. Often times, though this is impracticable by the use of ordinary remedies, it proves an easy task when Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure is resorted to.
