The Waterloo Food Boiler

Used chiefly by Farmers,
Stock Feeders, and Butcher-
ers for Cooking Feed for
Stock and Poultry, for
Boiling Sap, Scalding
Hogs, etc., etc.

You save fifty per cent. of the feed, and produce double the growth and fat, when feeding boiled feed than when fed dry and raw.

The Waterloo Food Boiler is the simplest, cheapest, most convenient, and most economical boiler in the market. Every farmer should have one.

An eminent British scientist said, after reading the editorials and editorial comments in The Globe for several weeks while visiting in this country, that they were masterpieces of English diction, and for scope of theme and subjects discussed were equal to the best papers at home. In fact, he said, in many respects The Globe rivaled any of the British papers as a NEWS paper.

The variety of subjects, the completeness of its news gathering organization, its freedom from sensationalism, and its fair and impartial reports have been time and time again favorably commented upon.

Why ? Because

in these hard times
is there such a great
demand for this All
Steel Flexible Har-
row

Parties wishing a first-class Harrow will do well to write us direct, or apply to the local agent.

The flexibility of the Harrow enables it to adapt itself as readily to rough and uneven ground as to smooth, and the oscillating motion produced by its flexibility pulverizes the ground, and leaves it in a loose and more porous condition than any other Harrow, and it is made of the very best material money can buy for the purpose. The bars are made of

HARD SPRING STEEL

very stiff and strong, the hinges and teeth being of solid steel, all of which are of a higher grade than is possible to use in any other make of Harrows. We can guarantee more than double the strength and wear in this Harrow than there is in any other make.

Our Motto, "Not how Cheap, but how Good."
