Improved Vertical Sinking Pumps

Outside Packed Double Plunger Pattern.

We lay particular stress upon the durability and general service qualities of this Pump. It is solidly constructed of the best materials and will pump either clear or gritty water with perfect satisfaction. It is fitted with convenient suspending hooks, and the absence of any projecting gear is a valuable feature in avoiding breakages. The Pump being outside packed admits of re-packing being simply and readily attended to. We know of no make of Pump of this description that has given such all-round satisfaction in the performance of its duties.

We manufacture Pumping Machinery for every conceivable duty and have given special attention to the various types required for Mine Work. We manufacture Pumps for Special Duties — Pumps actuated by Compressed Air — Pumps for bad mine water — Station Pumps, etc., etc.
