HISTOGENETIC SYSTEM OF MEDICINE

A MODERN MECCA

All diseases successfully treated by the new system of pure and tasteless medicine. So-called incurable cases preferred.

THEORY—Rebuilding the diseased cells and tissues of the body with the same proximate principles and so on, which are normally prepared in the body by the glands.

Hundreds of invalids with wasting diseases, nervous debility, consumption, and in fact "all the ills which flesh is heir to," all over the Dominion are being cured at this Dispensary, Yonge and Gerrard Sts., Toronto, and also at the Albion Block, London, Ont. This system is really, as Dr. J. Eugene Jordan expresses it, "the entire revolution in medicine." Thousands of enquiries are being made at both these centres from all parts of the continent of America. The medical men of Canada are especially looking into it, and as soon as

Histogenetic Medicines are placed in the drug stores no doubt scores of physicians will abandon poisonous drug compounds. Several of the leading physicians of Canada prescribe them exclusively already. They will cure disease at a later stage than allopathic medicine. All wishing to study the great theory of disease advanced by the great Virchow send for the "Entire Revolution in Medicine." We send it to all invalids free of charge. Read the following from a well-known and estimable lady who was doomed to be a cripple for life:—

I grew worse and worse in spite of all I had done for me. The joints in my hand became "chalky," and bones in my hand and wrist misplaced. I lost all power of one hand and arm, and could do nothing for six months. I had to be waited upon at table like a child. General debility followed, with insomnia and nervousness. My friends at last were convinced I would be a cripple for life. A lady in Toronto advised me to try the Histogenetic System of Treatment. I consulted Dr. Rear, corner of Yonge and Gerrard Streets, who commenced treating me at once. The first application of medicine helped me, and I continued steadily to improve. I only took one and a half month's medicine, and had only two or three consultations, and by June 20th was nearly well. I commenced the treatment near the middle of May. I am grateful to the Histogenetic Medicine Association for their simple, energetic and effectual remedies. I can use my hand as formerly, and it looks natural again. I will answer enquiries.

Truly,
MRS. HARKY.

NEWMARKET, June 20, 1892.
Mrs. Harky called on us yesterday. I asked her, "Do you ever give it any treatment now?" "Yes, plenty of work," she said; "that agrees with it best."
ADDRESS,
HISTOGENETIC MEDICINE ASSOCIATION - GERRARD ARCADE, TORONTO
Or 2 and 3 Albion Block, London, Ontario
Mention "Grip" when writing.
