T. BRADBURY.	D. SAUL.

## THE TORONTO ENGINEERS' CLUB.

The first meeting of the above club following the summer vacation, was held in the club rooms, King street west, on the evening of the 3rd inst. In the absence of the president, the chair was occupied by Major Gray.

Several new members were elected and other business transacted.

A letter was read from the secretary of the Canadian Society of Civil Engineers, stating that the proposed summer meeting at Buffalo had been abandoned owing to the few favorable replies received to the circular sent out to members.

Owing to the unavoidable absence of the author, the paper announced to be given by Mr. Cecil B. Smith, on "Parks, Squares, and Drives for the City of Toronto," and the anticipated discussion thereon, was not forthcoming, but will probably form the chief feature of the programme of the next meeting to be held on the 1st of October.

Part III of Engineering Studies by Charles Evan Fowler, M. Am. Soc. C. E., published by the Engineering News Publishing Co. of New York, is devoted to descriptions and illustrations of some of the most celebrated stone arched bridges of England.

# If you are looking for a high grade Finish for Floors

## Granitine Floor Finish

Is unsurpassed in Durability and Beauty of Finish for Natural Wood and Parquette Floors, Linoleums, Oil Cloth, Cork Matting, &c.

Its transparency reveals the grain of the wood, and its preserving qualities increase the life of the floor.

Its sanitary properties are highly commended, as it closes thoroughly the pores of the wood against disease germs, and permits the floor to be kept thoroughly clean.

It is easier applied, more durable, makes better finish than wax preparations, and is free from all-unpleasant slipperiness.

Moving furniture or boot heels do not leave white marks; nor does soap, mud or water destroy its fine appearance.

Manufactured only by

The Imperial Varnish & Color Co., Limited  
TORONTO, ONTARIO, CANADA.
