World's Work (July, 1912)—"Kill That Fly," by Frank Parker Stockbridge.

REVIEWS AND ACKNOWLEDGEMENTS

[Any book reviewed in this department may be obtained direct from the publishers, or from leading booksellers, or through *The Public Health Journal*]

"Problems of Boy Life."

The fact that the writers of this book have personally worked at the problems with which they deal and have thus acquired a first-hand knowledge of both the

needs and difficulties which confront us in relation to this subject and its bearing on slum populations and other questions of public health, greatly enhances the value of this work in the mind of the reader. In
