

No. 1,229—*Mr. Dinsdale*—April 23

1. How many Indian families have benefitted under the Off-Reserve Housing Program since it was inaugurated?
2. How much has been expended under the Program?
3. What cities and communities have been involved in the Program and how many houses have been located in each of these centres?

No. 1,230—*Mr. MacLean* (Queens)—April 23

1. Is Canada taking part in the five-year International Biological Program?
2. If so, what is the amount of the contribution of the Canadian Government to this important project, and in what fields will Canada be making its main contribution?

No. 1,231—*Mr. MacLean* (Queens)—April 23

1. Has it been established that any species of migratory or non-migratory birds native to Canada, have undergone a serious decline in population in the last twenty years in part or all of their range in Canada?
2. If so, what are the populations most seriously affected?
3. Have the causes of any population decline been established and, if so, what are they in some of the most serious cases?
4. Is there any evidence that bird populations are being reduced, because their eggs are being rendered infertile by residues of DDT?
5. Is there any evidence that any populations of Canadian birds are becoming extinct due to an accumulation of DDT in the natural food chain, as is the case with the peregrine falcon in the Eastern United States, and with the Bermuda petrel?

No. 1,232—*Mr. MacLean* (Queens)—April 23

1. Do positions exist in the Public Service in Ottawa for departmental advisers on bilingualism, and if so, how many?
2. How are these positions allocated among the various departments of government?
3. What is the salary range of these positions?
4. How many of these positions are filled at the present time?
