

Pale and Dejected

THE TRYING CONDITION OF MANY WOMEN—SUBJECT TO HEADACHES, DIZZINESS AND HEART PALPITATION. THEY GROW DISCOURAGED AND PREMATURELY OLD.

From the *Review*, Windsor, Ont.

"Dr. Williams' Pink Pills is the only medicine that ever gave me any real benefit," said Mrs. R. K. Harris, a well known resident of Windsor, to a representative of the *Review* recently. "I do not know exactly what my trouble was; doctors seemed unable to tell me, though I thought myself it was consumption. I had a racking cough, and a constant feeling of languidness. My blood seemed to have turned to water, and I was very pale. I had a feeling in my chest as though some foreign substance was lodged there. The slightest noise made me nervous; I was dejected all the time and could scarcely do any household work. Doctors did not seem able to help me or tell me what ailed me, although their bills increased with alarming rapidity. I grew so weak and so despondent, that finally I decided to take a trip to Colorado to see if a change of climate would benefit me. While contemplating this trip I read in a paper one day the testimonial of a person whose symptoms were almost identical with my own, who was cured by Dr. Williams' Pink Pills. I decided to give them a trial and purchased a box. When that box was done I got another, and found gradually that the pills were helping me. The trip to Colorado was abandoned, and I continued using the pills until I had taken eight or nine boxes, when I felt like an altogether different person. From a pale, thin, listless person, I became the picture of health, and felt it too. It is several years since I used the pills, and I have not had any return of the trouble. I am positive Dr. Williams' Pink Pills saved me from an early grave, and I cannot recommend them too highly to those who are afflicted as I was."

Mrs. Jas. Patterson, Chilliwack, B.C., writes: "My daughter was in poor health and her system badly run down, when we decided to give her Dr. Williams' Pink Pills. Six boxes have made her a strong, healthy girl, and I gladly recommend them in similar cases."

Mrs. Thos. Kennedy, Tonoka, N.W.T., writes: "Before beginning the use of Dr. Williams' Pink Pills I was a great sufferer from rheumatism and palpitation of the heart. I secured a supply of the pills, and after using them a short time all traces of my former troubles left me, and I am now enjoying the best of good health."

Mrs. Neil H. McDonald, Estmere, N.B., writes: "I am glad to be able to say I have found Dr. Williams' Pink Pills a great medicine, and all that you claim for them. I was completely run down; my appetite was poor and I suffered much from severe headaches. Doctor's medicine gave me no relief, so I decided to try your Dr. Williams' Pink Pills. I had only used a few boxes when my former health returned, and now I feel like a new man."

Weak and Easily Tired

Miss Dora Lonsbury, Windsor, Ont., says: "For several years I was troubled with female weakness. My appetite was poor, I was very pale and the least exertion would leave me breathless. At times I felt so tired and worn out that when I went to bed I could not sleep. I used several medicines, some of which did me absolutely no good, while others gave me some relief while taking them, but as soon as I stopped them I relapsed to my former condition. Finally through reading about Dr. Williams' Pink Pills in the newspapers I decided to try them, and had not taken them long before I discovered that they were unlike all other medicines I had tried. I steadily gained in health and strength, got new color, and the feeling of weariness that had oppressed me disappeared. It is now some time since I stopped taking the pills, but I have had no return of the trouble, and I feel that the cure is permanent."

Mrs. J. T. Carter, Sarnia, writes: "I used your Dr. Williams' Pink Pills for nerve and stomach troubles and found them a great medicine."
