# UNIVERSITY 'PACKED' FOR POLITICAL PURPOSES

### Gordon Waldron, at Alumni Meeting, Charges That "Alien" Professors Are Being Brought From England to Introduce Political Atmosphere of Oxford.

"Is the professional staff of Toronto University being surreptitiously and insidiously 'packed' with teachers from alien institutions with the clear object of perverting the political attitude of the whole?"

Dr. Gordon Waldron, however, who introduced the subject, was determined that the whole matter should have the light of publicity. He felt that he was merely quoting the feelings of the people of the province, who were daily growing more rebellious at the number of Oxford graduates being appointed to the exclusion of home students.

Producing a tabulated list of the staff at present, he showed that ten of the twenty-eight in one instance and a total of twenty-eight were men of "alien culture." Local graduates were absolutely left out.

"It is unfair and unjust to the people of Ontario," he declared, "it is a grave situation and no possible excuse can be offered for such a large percentage of these men. They are appointed surreptitiously and insidiously with the clear design to pervert the political attitude of the university."

Dr. R. A. Reeve sprang to his feet to state that in view of the presence of newspaper men such statements should not be made.

Honorary Chairman Gibson again interposed to state that if there were even a suggestion of appointments being made on political grounds they should be examined. Speaking from his own experience he could say that never while in the legislature or the government had political considerations influenced him.

# Germany Takes Olive Branch

WASHINGTON, June 5.—(Can. Press)—Secretary Bryan today announced that Germany, Bolivia and Argentina had so far approved his proposal for universal peace as to ask for tentative drafts of the treaties. With these additions the list of nations that have undertaken to consider the proposal favorably reaches 13.

# "ANTARCTIC HEROES" GUILD IS FORMED

Toronto Women Band Together to Promote Interests of British Jack Tar.

Meeting at the home of Sir John Willison, Elmsteyn place, yesterday, a number of Toronto women organized the "Antarctic Heroes" Ladies' Guild for Sailors. The purpose of the guild is to promote the interests of British sailors throughout the world, and it has been formed in commemoration of the death of Capt. Robert E. Scott in his journey homeward from the South Pole, January, 1912.

# GERMANS CAN'T COME THIS YEAR

Balkan War Brings Postponement of Proposed Business Men's Trip to Canada.

Word has been received at the department of agriculture that the proposed excursion of German business men through Ontario has been postponed for a year. The trip which was organized by M. G. Weber of The Illustrated Zeitung, was to have brought 200 men, but the Balkan war situation necessitated business attention at home. The list was oversubscribed, and a large party will likely come over in 1914.

# JAPS ARE FLOCKING TO SOUTH AMERICA

Brazilian Government Sets Aside Agricultural Area to Encourage Influx.

SEATTLE, Wash., June 5.—(Can. Press)—Japan is finding an outlet for her surplus population in South America, according to information brought today by the liner Senzaki Maru. Fifteen hundred Japanese were landed at Santos, Brazil, May 15, to be the first members of a permanent Japanese colony under an agreement between Brazil and Japan.

STOP, LOOK, LISTEN AND AVOID DANGER

Campaign Is Under Way to Prevent Increase in Street Accidents.

In view of the deplorable number of accidents which have occurred throughout the larger cities of the province within the last year, the Ontario Railway Board is planning an extensive scheme of educating the public to avoid danger.

The board, however, hope to create an enthusiasm for the project among the school children of the larger cities, and with this end in view have approached the respective boards of education. A date has been set at which the ideal will be placed before the Toronto educational authorities and hope is entertained of its adoption.

The system, which is carried out to some extent in the United States, involves the display in public places, especially in those adjacent to railway crossings, of "stop, look, listen" signs, and illustrations of the consequences following carelessness. It is also described that pamphlets be issued by the railway companies and motor associations explaining the different signals in use for the public to understand.

# WASHINGTON NO PARADISE FOR LOBBYISTS

Attempts to Influence Senators on Sugar, Wool and Other Tariff Issues Will Be Thoroughly Investigated—Subpoenas in Large Numbers Will Be Issued.

WASHINGTON, June 5.—(Can. Press)—The senate "lobby" investigating committee decided tonight to extend its present enquiry into a sweeping investigation of all organized efforts that have been made to influence action upon legislation of any kind now pending before congress, or under consideration in the recent past.

This action was determined upon at the end of the afternoon session, after several senators had added to the testimony already given tending to show that well organized and vigorous work is being done by commercial interests, upon the sugar, wool and other tariff issues. The committee decided to subpoena practically all persons thus far mentioned by senators as amongst their tariff callers, and to learn the exact nature of all organized work that is being directed toward influencing any member of congress on any subject.

# GERMANY CAN'T FINANCE LONG WAR FRANCE IN FEAR OF SUDDEN ATTACK

PARIS, June 5.—(Can. Press)—Some startling figures were given by Deputy Andre Lereve as to the financial position of the triple alliance, composed of Germany, Austria-Hungary and Italy, and of the triple entente, composed of Great Britain, France and Russia, in the course of a speech in favor of three years' service in the active army for Frenchmen, delivered in the chamber of deputies today. He said:

"Germany is unable to afford a long war. The banks of the countries forming the triple alliance possess only \$741,600,000 in gold, with \$1,600,000,000 in circulation, while those of the triple entente possess \$1,587,200,000 in their vaults, and \$2,800,000,000 in circulation.

"Everything points to Germany relying on a sudden overwhelming attack should war be declared. Therefore, France must always have a large army on the frontier."

# TOBACCO BARONS PRINCE ALBERT TO PAY TRIBUTE

Bill Which Has Support of Attorney-General Hits Hard Blow at Trusts.

WASHINGTON, June 5.—(Can. Press)—In accordance with suggestions of Attorney-General McReynolds, Senator Hitchcock of Nebraska introduced today an anti-trust amendment to the Underwood tariff bill which would levy a special additional excise tax on a sliding scale upon manufacturers of tobacco, cigars, cigarettes and snuff. The amendment, coming from a Democratic member, will receive thorough consideration from the finance committee.

# SKIRT ENTANGLED TWO LIVES LOST

Woman Passenger Brought Death to French Aviator and Herself.

BUG, France, June 5.—(Can. Press)—The French aviator Auguste Bernard and a passenger, Mrs. Rose Amice, were killed today under unusual circumstances while making a flight at the aerodrome here. When the aeroplane was at a considerable altitude Mrs. Amice's skirt became entangled in the lever connecting the engine to the propeller, and the machine plunged to the earth and was shattered.

# WOMEN OF MISSIONS

Dare a man write about women? About their ladyships of the Women's Foreign Missionary Society, now assembling in Toronto at the Hotel James' Square Church? We have not been asked to officiate and voluntary service of this kind, they know how to speak. But here goes, anyhow, with our best compliments.

Women! and what manner of man would not be interested? Women of the manes and the missions. The mothers and daughters also of Presbyterian Canada. A meeting of women for women. And they are a-gathering for their work.

But we have no idea who's who in this place. Probably it is just as well. We would expect, however, to find the moderator—great sitting high onto the pulpit, with moderators of every other grade, wearing well their honors. Who could guess which has the silver tongue, who has the eye for points of order, and where is the head for finance. While we scan the faces we seem to see one who is evidently high up in degrees, who has discovered a man. The only one of that sex in the house.

But all's well so far! The moderator—that is the president—rises to constitute the court. There is a tiny bell, but it takes some time for order. There are "virgins who still come late," and hinges which need a dose of oil. At length the chaplain's voice floats clearly and reverently in the opening prayer, the Scripture reader gives a nice exhortation to be of good cheer like Joshua and go in and possess the land.

And then we had a pretty little incident which was sufficient to take a man quite a road to witness. It was of the same city rose to explain that the western cities failed to respond to her name. There was some confusion and it looked like a blockade. At that moment a neat little woman from a manse of the same city rose to explain that the much-desired officer had been unavoidably detained. "Will you not take her place, then?" and the president leaned forward, entreatingly. Friends nearby whispered encouragement. Then at length she quietly stepped into the pulpit. Her commission was to offer the prayer for the women of other lands. And ye bishops and ministers give attention to her spontaneous petition.

Deborah Decision Today  
Judge Morson will deliver his judgment on the appeal against the decision of Magistrate Denison in connection with "Deborah" this morning. # CANADIANS NOT FOND OF ADVICE

Downing Street Rule Resented, Says Sir Robert Perks—Found Money Decidedly Tight.

LONDON, June 5.—(C. A. P.)—"The Canadian people want to be left to deal with their own internal affairs in their own way, with minimum advice from Downing street," said Sir Robert Perks, in an interview on his Canadian tour. "What the attitude of Canada would be were the Japanese to appear in Vancouver, is quite a different matter."

"How did you find the economic outlook?"  
"Well, it isn't all that can be desired. Notwithstanding the vast sums Canada has been able to secure from foreign investors, especially Great Britain, there is undoubtedly a decided stringency in the money market. Canadian banks, in fact, can't lend the money that the industries of the country require."

Can't Blame Tariff  
Sir Robert denies that the tariff has unduly raised the cost of living in Canada, but it has undoubtedly had the effect of raising wages, he said. "The tariff has little to do with the question of living," he added. "What the spending classes have most to fear is rather the danger of trade combinations, which will raise prices to abnormal rates."

In conclusion, Sir Robert regretted the fact that the Methodist Church in Canada now takes second rank numerically in the Dominion. He partly accounted for this by the amazing failure of Canadian Methodism to make use of the lay preacher.

Carvell's Compromise  
Shortly after this morning, when the item in the railway estimates appropriation of one and half million dollars for aid to highways under the Highways Act, was killed in the senate, came up for discussion the bill, Mr. Carvell moved that this sum be granted to the provinces as a
