## TOWNSHIPS NEED CENTRAL SCHOOL

Rev. Mr. Carmichael of Scarborough Addressed Meeting at Agincourt.

## TRUSTEES' ASSOCIATION

New Organization May Be Formed at Woburn on Monday.

"Problems" in connection with rural schools was the subject of an interesting address delivered by Rev. Mr. Carmichael at the meeting of the Scarborough Township Trustees Association at Agincourt, held last evening.

Mr. Carmichael dealt mainly with the lack of opportunity afforded country children to continue their education after passing the entrance examinations, pointing out that the majority of children between the ages of 13 and 16 who remained on the farm and did not go to the city for further education, had no opportunity to carry their studies further.

He thought conditions might be improved by a large central school taking the place of a number of small schools, and arrangements made for conveyance of those children who live at a distance. Such an arrangement, he thought, would result in greater efficiency, as the larger schools could be more completely equipped, and provision could be made for a more advanced course.

A general discussion followed, some of the speakers being John Kennedy, William Robinson, Robert Lowe, and Rev. Mr. Carmichael. The meeting closed with a prayer by Rev. Mr. Carmichael.

## DEEP MUD ON DANFORTH ANNOYS CAR PASSENGERS

The mud of crossings over Gerrard street from Greenwood Avenue, near the Danforth station, is causing much annoyance to the car passengers. The mud is so deep that it is impossible to get out of the car without getting one's feet and clothes dirty.

Two ladies, who wanted to board a car yesterday, found it impossible to do so, as the mud was so deep that they could not get out of the car. The ladies were forced to walk to the car and get out of the mud.

A large number of the commuters are complaining of the mud, and are asking the city to have it removed. The city has been asked to have the mud removed, but has not yet done so.

Changes Needed to Bring the Regulations Up to Standard.

Special to The Toronto World. HAMILTON, March 13.—Three more girls, two from Brantford and one from Toronto were subpoenaed yesterday morning to appear at the Mackay-Gow case, which will have its first hearing in the police court before Magistrate Jells tomorrow morning.

The magistrate made the announcement that the reporters as well as the public would not be allowed to be present in the court room during the hearing of the case. He stated that Crown Attorney Wagoner asked that the press be excluded from the hearing, because the police have secured their evidence on the understanding that the press was not allowed to be present.

Word was received from Ottawa yesterday to the effect that the map of Ontario, which has been prepared and which states any change proposed in the alignment of electoral divisions, contains no reference to Hamilton.

At the board meeting yesterday morning a deputation of voters asked that a number of changes be made to the present plumbing bylaw. A number of changes were recommended and the board will take up the matter in the near future. One of the changes of the deputation stated that fully nine per cent of the plumbing in the City of Hamilton is not up to the standard of other cities, which was the fact of the bylaw.

The board of control sold an additional \$200,000 worth of debentures to the Wood-Gundy Company of Toronto. A short time ago the city sold \$800,000 worth of debentures to this company.

THURICE FAILED TO GET DIVORCE

Bank Manager's Petition Thrown Out on Tie Vote in Senate.

## CHARGE OF LOBBYING

Several Roman Catholic Senators Declined to Take Part in Voting.

OTTAWA, March 13.—(Can. Press).—For the third successive year the senate has refused to grant the application of Andrew Lorne Hanlon, bank manager, of Quebec, for divorce from his wife. Three times the divorce should be granted, and has been advised the senate has found the decision of the committee reversed by the committee as a whole. The application is now a cause celebre.

Each year a division has been taken and the decision secured by a narrow majority of votes. Today, with Speaker Landry voting, the result was a tie vote, which has failed of adoption.

This year, although witnesses had been brought to Ottawa and both the petitioner and respondent, who was formerly Miss Church, member of a prominent Toronto and Ottawa family, were present, no evidence was taken, and the senate, stating this, and recommending the divorce be given.

Following the discussion today, several senators of Roman Catholic faith abstained from voting. Senator Belcourt himself to follow their lead. In giving his reason, Senator Belcourt, who did not vote, said that when a judge was prejudiced in a case it was his duty to excuse himself and decline to try it. Therefore, as the Roman Catholic Church was against divorce, he agreed with Senator Belcourt, who said that church should not vote on divorce cases. Several senators, however, were in collision between the committee in bringing the case before the senate, which had twice rejected it, without new evidence. Senator Davis said there had been too much lobbying in this Hamilton case.

The motion to adopt the report of the committee was declared lost on the following division, 13 to 18.

Yes—Hon. Mr. Loughheed, Senators Kirchhoff, Sir Mackenzie Bowell, Mitchell, Thorne, Corby, Pope, Taylor.

No—Hon. Mr. Loughheed, Senators Kirchhoff, Sir Mackenzie Bowell, Mitchell, Thorne, Corby, Pope, Taylor.
