Tearney, of one half of all sums of money received or to be received as commissions from the Aylmer Shoe Co., the Murray Shoe Co., the Cook-Fitzgeraid Co., Limited, and others arising out of sales of contracts to the Dominion government. The charge was brought by Col. Sherwood, chief of the Dominion police. The judge, however, believed that the government had made the investigation merely to clear up the situation in Ottawa to find out if any one was getting graft on the inside.

WHEAT CLOSE FIRM SUPPLY REDUCED

Grain Has Gone From Farmer to Exporter at Record Rate.

Canadian Press Despatch.

CHICAGO, Nov. 18.—Assertions that exporters had already reduced the available wheat supply in the United States to within about 1,000,000 bushels of the total a year ago, had much to do today with giving prices a decided lift. The market closed firm at 7-8c to 1c above last night. Corn gained 4c to 3-8c net, and oats 3-8c to 4c. In provisions the outcome was 5c to 35c decline.

One of the best known authorities

one of the best known authorities in the wheat trade pointed out that the wheat now at the seaboard, at Buffalo and on the lakes, virtually represents wheat bought for export, and that the amount at western points, where the figures for the most part mean actual available supplies; has dwindled to 52,154,000 bushels, as against 51,301,000 bushels 12 months back, notwithstanding that farm desents wheat bought for export, and that the amount at western points, where the figures for the most part mean actual available supplies; has dwindled to 52,154,000 bushels, as against 51,801,000 bushels 12 months back, notwithstanding that farm deliveries since July 1 show an increase of 79,347,000 bushels. It was added that the wheat has passed from the farmer to the exporter at a rate never before equaled, and as yet not appreciated by the majority of dealers.

Bulls Confident.

Wet weather spoiling the Argentine harvest tended today to make the wheat bulls confident from the start, and so did also adverse conditions in western Kansas, where the latest yield was of record size. Exporters showed eagerness for all rall shipments from here to the seaboard. In addition, to day's prices for cash wheat in Liverpool were said to be the highest on the

ool were said to be the highest on the

crop.

Corn rallied when the bulge in the wheat market became pronounced. Previously cold clear weather that seemed to promise larger receipts had seemed to promise larger receipts had somewhat eased off the price of corn. Oats showed from the outset sympathy with the wheat strength. Consignment notices were meagre. Unexpectedly generous receipts for hogs thruout the west made provisions heavy. Many stop-loss orders were uncovered on the ensuing break.
