

COBALT --- The Nipissing Title is Assailed by a Cobalt Contractor --- COBALT

STRIKE AT WHITE BEAR IS HIGHLY PROMISING

And the Great Le Roi's Neighbor is Expected to Ship Ore Shortly.

Persistence, particularly in mining, is a valuable adjunct to success, and this virtue can certainly be claimed by the large shareholders of White Bear stock, who for ten years have steadily worked to unearth the wealth which they are confident is carried in their property, as fully as in this mine's neighbor, the great Le Roi. The latest information from the property is most encouraging, and more evidence than ever is now felt that the White Bear will be shipping good-paying ore early in the new year. A large amount of money has been spent on this claim in development and equipment, but it is only now that real results are showing, and the shareholders are entitled to rich returns for the courage they have shown.

The mine superintendent's reports of the new finds of ore bodies are conservative, but in writing to his principals at Toronto on Nov. 29, he says: "I have some results to-night which will make you happy. The large body of ore struck is on the 800-foot level, but the full dimensions cannot be determined till the edge of access is by drifts and cross-cuts, as it is not known whether the drift penetrated the ore body parallel with the edge of access. Besides this and, the wealth of which will later be revealed, the superintendent reports also as follows on the 700-foot level: "At a distance of 20 feet from the north drift we encountered some ore. For the last 15 feet the cross-cut has been in shipping ore. Four samples taken from these 15 feet averaged gold 5075, silver 2,525, copper 4.05, or \$24.47 per ton. And this Superintendent Demuth says: "This place looks very good." The shareholders are to be congratulated on the immediate outlook for their property, and will no doubt receive further encouraging information on further development.

Jap Allegiance a Sham.

New York, Dec. 12.—Japanese immigration was bitterly denounced in a speech to-night by Congressman Julius Kahn of San Francisco, at a dinner of the New York Creditors' Association. The people of the Pacific coast, said Mr. Kahn, were satisfied that the Japanese would always remain loyal to the Mikado, and that the oath of naturalization taken by American would always be to them a hollow mockery, signifying nothing.

Rev. Dr. King Resigns.

Galt, Dec. 12.—(Special).—Rev. Dr. King's resignation as pastor of the United Presbyterian Church was reluctantly accepted by the presbytery to-day.

Awful Agony of Piles

Positively Relieved by The Pyramid Pile Cure.

There is no reason—surely no good reason—why any man or woman should continue to suffer with piles when a reputable company of druggists has placed in every high-grade pharmacy a positive and unfailing cure for this dread disease at a price within the reach of the poorest. They have done more. They offer to relieve you temporarily and start him well on the way to recovery, by giving to any patient who sends his name and address, a free trial package of the wonderful Pyramid Pile Cure in a plain sealed wrapper. There are

Where Most Piles Sufferers End. Act Before Too Late.

enough of the curative elements in this trial package to greatly reduce the swelling of the piles, to relieve the pain, to soothe the soreness and ulceration. After the sample is gone, your druggist will supply you with a box of Pyramid Pile Cure for 50 cents.

Read Mrs. Bond's letter, which tells how she suffered and was relieved, if not positively cured, after using one 50-cent box.

"I have tried your pile cure and find that it is the best I have ever used. I am very thankful to you for ever putting me within my reach, for I have had one box and I feel like a new woman to-day, and I tell everybody about them. When I started them I could not walk across the floor, but now I can do my work all right. My work burden to me before I started with you, but I can tell you that I can work much better now. You can rely on me. I will tell everybody about the Pyramid Pile Cure. Yours sincerely, Mrs. J. Bond, Toronto, Canada, 33 West-avenue."

There is positively no risk or danger in using the Pyramid Pile Cure, for there is nothing but curatives in the preparation. They are suppositories which, when inserted, act as a soothing, ointment, working upon the infected and ulcerated tissues, giving the new life and stimulating a stronger circulation of the blood. By the use of the Pyramid Pile Cure the patient is cured at home without leaving a day's work, no matter what his occupation. The cure may be accomplished in absolute privacy. We use no names for advertising purposes without the voluntary consent of the patient.

The Pyramid Pile cure is quick, permanent and pleasant. Do not delay, but send your name and address to the druggist, and we will furnish you a trial package, free of charge. Pyramid Drug Co., 73 Pyramid Building, Marshall, Mich. The 50-cent size packages are for sale at all druggists.

SILVER QUEEN DIRECTORS

Declare an 8 Per Cent. Dividend Payable in January.

A meeting of the directors of the Cobalt Silver Queen was held at the company's office, West King-street, yesterday afternoon, and an initial dividend of 8 per cent. declared. The dividend will be paid on Jan. 15 to shareholders of record on Dec. 27. A dividend on Silver Queen has been expected for some time, but its announcement was delayed until complete returns had been received from the smelter. The directors considered the payment of a regular quarterly dividend, and desire in the future to make it 10 per cent. The regular quarterly payment is expected to be supplemented by bonuses according as the mine developed and shipping facilities. It was announced at the meeting that the mine has been handicapped because machinery could not readily be procured, and it is believed that shareholders will have every reason to congratulate themselves on the wealth of ore that will be dispensed as development proceeds.

CONSTABLE DISMISSED.

Tried to Induce Reward After Arrest of Firebug.

Woodstock, Dec. 12.—(Special).—As a result of an investigation into police affairs by a bench of magistrates, County Constable Fred S. Hill was this afternoon dismissed from the force. The specific charge against Hill was that he endeavored to get the trustees of Bond's Corners School-house to give a reward for the arrest of the man who burned down the school, while at the same time the guilty man was under arrest. Hill denied that he had approached the trustees on the subject, declaring that he had only endeavored to get his expenses from them.

A charge against High Constable Geo. Cox of interfering with the chief of police in the discharge of his duties was dismissed and Cox exonerated. At the county court to-day Judge Finkle and a jury heard the appeal of Mrs. William Leburis, who was prosecuted by the Ontario Medical Council and convicted by the magistrates for practicing medicine without a license. The judge and jury allowed the appeal and quashed the conviction. Mrs. Leburis does a big business over the country selling an herb medicine, and the Ontario Medical Council has endeavored to prove that she diagnoses and prescribes as well as sells.

LAST THRU WELLAND CANAL

Robert Wallace Two Days Breaking Passage Thru Ice.

Port Dalhousie, Dec. 12.—The steamer Robert Wallace passed down to-night with a cargo of wheat and oats from Chicago to Ogdensburg. This will probably be the last east-bound boat to pass thru this season. She had great difficulty in getting thru the ice in the canal. It took her two days to pass thru, and she had eight extra men engaged to clear the ice from the head of the lock before she could enter.

AN ALLEGED HORSE THIEF.

Harry Evoy, who lives in the east end of the city, was arrested yesterday by the police on the charge of stealing a horse and buggy from Griffin, the West King-street liveryman. It happened on Dec. 14, from St. John's road, Scarborough Junction for \$40, went to Buffalo and spent the money having a good time.

DRINKS POISON, WILL DIE.

Detroit, Mich., Dec. 12.—May Fitzell, 19 years of age, whose home is near Kincardine, Ont., is dying at St. Mary's Hospital. On Dec. 4, after a quarrel with her lover, during which it is alleged that he struck her, she took a dose of corrosive sublimate. Her recovery is not looked for.

Christmas in England.

The C.P.R. Atlantic service will despatch their S.S. Empress of Ireland from St. John, N.B., to Liverpool, Friday, Nov. 30, and the R.M.S. Empress of Britain, Dec. 14, from St. John, N. B., as the Christmas steamer. The latter will land passengers in England four days before Christmas Day. These steamers are now conceded to be the fastest and finest operating on the North Atlantic, and those contemplating a few weeks in England should arrange to go and return on an "Empress," thereby having the shortest sea voyage and maximum length of time with their friends at home. Apply to S. J. Sharp, W.E.A., 80 Yonge-street, for full particulars.

Four Vacant Churches.

Rev. W. E. Norton, superintendent of Baptist home missions, returned yesterday from a tour thru Owen Sound and North Bruce districts in an endeavor to secure some readjustment of fields and settlement of pastors in some vacant churches. He reports the condition of the work in home mission churches as more promising than any previous year at this season. There are four vacant churches in the districts visited, for which there are men already under consideration.

Sunday School Conventions.

H. W. Brown, B. A., the newly appointed secretary of the Ontario Sunday School Association, in succession to E. A. Hardy, B. A., will enter upon his duties Jan. 1. Already there are a long list of conventions which he will be required to attend during January, up to Jan. 9. Others will be held in Markham Township and Peel County.

Plaintiff Wins.

In the action of William George Wilkes against W. A. Brown, Justice Mabee decided that judgment be entered in favor of the plaintiff, declaring that the defendant took the lands in 1856, as trustee for John Wilkes, since deceased, and is liable to account to the plaintiff for the rents and profits received. Defendant is to pay plaintiff's costs of the action.

Jaunt of Grand Jury.

The sessions grand jury went to Newmarket yesterday to inspect the Industrial Home.

"THEOLOGIANS" AT FAULT REGARDING NIPISSING

Assertions as to Keewatin Formation Wholly Disproved in the Workings at This Mine.

Cobalt, Dec. 12.—(Special).—A trip to the Nipissing Mine discloses the fact that at this much-talked-of property work is being energetically pushed forward. Two hundred men are on the pay-roll and 100 of them are miners. Work is kept going day and night in 30-hour shifts, and Vins Nos. 19, 26, 27 and 49 are being opened up. On Vins 10, 19, 25 and 49 shaft houses have been built, and the shafts on these vins will extend 500 feet. Vin No. 10 is only about 50 feet from Vin 26, and the intention is to drift at the 100-foot level by means of a tunnel, and the present level on 27 towards 19, which is now in rich ore. The distance from 19 to 27 is 100 yards, northeasterly. The shaft at 19 is now down 70 feet. The shaft at 27 is only down 40 feet, and at No. 40 about the same depth has been reached. The intention is to go down to the 100-foot level, and there cross-cut into No. 26, which is only 50 feet to the west. Vin No. 29 is now 55 feet deep and 150 feet long. They have a very rich ore body at the end and in the middle of this vein, and to date \$200,000 worth of ore has been taken out of it. At the south end of this vein they struck a 16-foot and 8-foot fault, but found the vein again at the same width as when it was lost. THE VEIN IS WHOLLY IN THE KEEWATIN, WHICH THE EXPERTS AT THE BEGINNING OF THIS YEAR SAID WAS NOT A NIPISSING. THE "THEOLOGIANS," AS THE PROSPECTORS AND MINERS FREQUENTLY CALL THEM, WERE QUIETLY AT FAULT IN MAKING THIS ASSERTION.

At No. 40 they will go down before drifting on the bonanza vein. Forty feet from the richest ore is now lying ready for shipment, and will be brought across the lake and shipped. The ore on the bonanza vein is a zone or 15 blasts will bring down from \$75,000 to \$125,000 worth of ore, so that in a few hours they can barrel up and rush out a carload of the bonanza ore. At this mine they have four grades of ore: 1. The bonanza or barrel ore. It is so rich it cannot be put thru the sampler or crusher. 2. No. 1 or high-grade ore, which can be crushed and run as high as \$500 per ton, the \$2000 is a high percentage. 3. No. 2, or low-grade, which runs to \$500 per ton. 4. No. 3, or grade ore, which runs as low as \$120 per ton.

Startling developments at the Wab and the Silver Lake mines are being reported. The Wab consists of the northeast corner of Lot 4 in the 11th Concession of Lorrain, and the Silver Lake mine is owned by G. G. Gouffier. Both properties have been sold to the former to a New York syndicate, and Messrs. Leavitt & Brown are now clearing the sale; and the Silver Lake sale is being put thru in the name of G. G. Gouffier. Stockholders in these companies will receive large profits, as these deals are consummated, as expected. Frank Burr Moore.

JEWIS WILL OWN "THE WARD"

CROWDING ALLOTTEDS OUT

Conditions Found by Dr. Sheard's Inspectors—Would-Be Voters Disappointed.

Is the population of St. John's Ward destined in process of time, to become almost exclusively Jewish? Dr. Sheard is decidedly of opinion that such a condition of affairs is being distinctly shaped. From the reports that are brought into his office by his staff of inspectors touching the housing of people in "the ward," he has formed the conclusion that the evil of overcrowding so often complained of is less acute than it was a year ago. And the reason, as he gives it, is that the population of Toronto's "Latin quarter" is passing that, and is being replaced by the Jews and weekly gaining in power and dominance. The Italian, Swedish and the poly-glot nationalities are being ousted with persistent steadiness outside the confines of old St. John's, so says the doctor, thru no typical outbreak in appearance, but by the quiet buying and selling of their other foreigners over their heads, and as landlords they are exacting their full pound of flesh. A case is cited where rent was jumped at a bound from \$14 to \$22 a month.

DRINKS POISON, WILL DIE.

Detroit, Mich., Dec. 12.—May Fitzell, 19 years of age, whose home is near Kincardine, Ont., is dying at St. Mary's Hospital. On Dec. 4, after a quarrel with her lover, during which it is alleged that he struck her, she took a dose of corrosive sublimate. Her recovery is not looked for.

Christmas in England.

GOVERNMENT SMELTER DESIRE OF COBALTERS

Mining Men Would Prefer Government to Run Smelter Instead of Mining.

Cobalt, Dec. 12.—(Special).—"What does the provincial government propose to do in the way of providing New Ontario with proper smelting facilities?" is a frequent query in the camp. It has shown a willingness to smelt in prospecting and opening a large tract of land to satisfy old Ontario. Is it willing to spend a couple of million dollars and build and properly equip a smelter for the treatment of the ore of this and other camps that are bound to come into existence? It is a frequent query in the camp. It has shown a willingness to smelt in prospecting and opening a large tract of land to satisfy old Ontario. Is it willing to spend a couple of million dollars and build and properly equip a smelter for the treatment of the ore of this and other camps that are bound to come into existence?
