

Our record is 43 years' experience in dressing skins and fashioning them into furs and fur garments. Our furs are honest through and through. There is no skimping of quality and no question as to style.

The reduction of 25 per cent. on all new furs sold in August is a bona-fide offer. On September first all our furs advance to their normal value again. The dull season ends then.

We store furs bought in August free of charge until required.

**MOOR SULTAN AWAKENS TO SERIOUSNESS OF ACT**

Smooth, But Weak Ruler, Trying to Reneg After Assassination.

TANGIER, Aug. 15.—The European victims of the original massacre at Casablanca were buried yesterday with impressive ceremonies. The foreign consuls, Gen. Drude, commander of the French expeditionary force; a detachment of troops, and Europeans to the number of 500 followed the hearses to the graves. The funeral oration was delivered by the French vice-consul.

The bombardment of Casablanca has produced a deep impression at Fez. The government received the news well, and at once prepared guards for all European residents in the city, and to leave the city, where it guarantees their security.

Advises received here from Fez say that the grand council called by the sultan to consider the situation at Casablanca has agreed that he shall use all his influence in the direction of peace.

The sultan's proclamation counselling universal calm, in the country's great crisis, is earnestly supported, so far as Shereef El Gulsan, who is a notorious fanatic and hater of Europeans. The sultan has begged the Europeans not to leave Fez, as he would not be responsible for their safety if they depart from the capital.

Reports from Casablanca to-day indicate that the Kabyles are gathering reinforcements, as if preparing for a final effort to capture Gen. Drude's camp outside that city.

PARIS, Aug. 15.—The Casablanca correspondent of the *Figaro* telegraphs that Muley Amin, the military governor of Casablanca, has received a letter from the sultan, urging him to march for his inaction, which the sultan says was partially responsible for the trouble, and blaming him for not having foreseen and repressed the disturbances.

Vice-Admiral Philbert, telegraphing Wednesday, reported isolated attacks on Casablanca, which the troops easily defeated, being assisted by the shell fire of the French cruiser, *Gloire*.

The cruisers *Porbin*, *Galilee*, *Cassini* and two torpedo boat destroyers are now used in a systematic patrol of the coast of Morocco.

**RAILWAY QUESTION CONTINUES TO TROUBLE**

Rev. Dr. Pidgeon May Go to Forest City—Saturday Will See Great Lacrosse—Items.

Material developments in the proposed Swansea route of the Toronto Suburban Railway cannot be expected till the franchise agreements are discussed by the Junction and York Township councils, and the railway company. Interesting controversies are anticipated when these matters are discussed officially, as the terms of the franchise demand that the railway company pay \$125 per annum for each mile of tracks in operation within the town limits, and that the town keep the roads in proper repair over which the tracks run, obligations which have been neglected by both parties to the contract. The railway management is anxious to have the franchise agreements ratified as soon as possible, so that the work might be near completion before the frost is in the ground, but are unwilling to commence active operations without a clear understanding with the municipal authorities, lest the work be held up when only partially completed.

One of the largest congregational meetings in the history of Victoria Presbyterian Church will be held on Monday evening next on the lawn of A. J. Gillies' residence, 111 Law-street. Through the courtesy of Brigades Taylor, the Lisgar Silver Band of the Salvation Army will play selections during the evening. If the weather be unfavorable, the reception will be held in the church basement.

General regret is expressed in the fact that Rev. Dr. Pidgeon of Victoria-street Presbyterian Church may leave the Junction in the near future, to labor in London. During the time Dr. Pidgeon has been in the Junction he has endeavored himself to many even outside his own congregation, and the loss that Victoria Church will sustain by his departure is manifest.

Early this morning a fire alarm was sent in from the C.P.R. yards, which the brigade quickly responded. Some chests that had been left in the yards over night caught fire, and the blaze ignited a nearby fence, which was partially destroyed. The damage was considerable.

A fast game is anticipated on Saturday next at the new athletic grounds when the return match will be played between the Brampton team and the Junction Shamrocks (C.I.L.). Just after yesterday's game at Brampton, Ben R. Law, manager of the Shamrocks, was assured by "Kit" Irvine, man-

ager of the Brampton team, that his men would be on deck on Saturday without fail. The manager stated that the Brampton team had never yet allowed a game to go by without expressing the hope that on Saturday previous defeats received at the hands of the Shamrocks. As this is probably the last game of the season that will be played on the home grounds a very large attendance is anticipated.

Wm. George Taylor, who resided with his sister at 416 Weston-road, died in the General Hospital to-day of pneumonia. The body was brought in Saturday from his late place on St. Mark's Church, and thence to Prospect Cemetery.

Benjamin Cates, who, with his wife and three children, resided at the Hayden House on the Weston-road, left home on Saturday last without giving any indications as to his whereabouts. Family troubles are believed to be the cause of his departure.

**MAGISTRATE HOLDS COURT.**

At Police Magistrate Ellis' court yesterday the magistrate asked the press as a favor to tart an agitation in view of getting more comfortable quarters with fair seating accommodation.

The first case called was that of the York Railroad Co. against two boys, Arthur Spence and David Woods, 18 and 19 years of age, for stealing copper, of the value of \$15. Roadmaster Pardee, of the Montreal division, explained that these copper bands are admitted to connect the rails. Woods admitted his wrong-doing to the roadmaster and consented to tell the story in court, which he did, and has a certificate of pardon and injury. Woods' Spence was fined \$2 and costs. Woods \$2 without costs on the charge of instigating the wrong-doing. The magistrate sentenced on the charge of theft, Alexander Bertolozzi was charged with stealing tools from the Canada Foundry Co. **Young Englishman Throws Off Coat and Drowns in the Credit.**

PORT CREDIT, Aug. 15.—(Special.)—V. N. Elderkin, an Englishman, 35 years of age, who had only recently come over from the old country, jumped into the Credit this morning and was drowned.

Elderkin hired a boat this morning and, together with Nelson Trounce, an 8-year-old boy, set out for a fishing trip up the Credit. Young Trounce was in Elderkin's company only because the boy was a son of the Englishman's landlady.

The lad, who had only been to the Credit a few days, was reported to have been rowing, and throwing off his coat, jumped into the river.

**Cried Good-By.**  
As Elderkin jumped into the river he cried "Good-by" to the lad. The boy saw his middle-aged friend

sink and made desperate efforts to get the boat near him. He was finally compelled to return to the town and report the affair.

Elderkin had been employed for the past six weeks by the Port Credit Brick Co., but for the past three days had not appeared for duty. His name as inclusive as ever. A certain school of critics will never concede him a foremost place in the world of letters, as his literary style is too bold.

**TOO LUCID.**
