The Beath of Hugh Hutchinson.

In the issue of The World of Dec. 28 last was published under the heading "Hugh Hutchinson's death," a communication reflecting somewhat severely upon three respected citizens of the town of old Niagara, Messrs, James Alkens and W. H. J. Evans, who hold the offices of justices of the peace, and Mr. James McMillan, hotel proprietor, residing there. The World has investigated the facts in connection with the unfortunate event commented upon in the communication, and regrets that a great injustice has unwittingly been done these gentlemen by the publication referred to.

The Patent Whatisit!

It looks like sarsaparilla, smells like sarsaparilla, tastes like sarsaparilla, it is sarsa...... Stop! What is the name on the bottle? Is it Ayer? Then it is sarsaparilla; the best that is made. But the other kind, that looks and smells and tastes like sarsaparilla. What is it? That's it. It's whatisit. It's a conundrum. Give it up! Ayer's Sarsaparilla, alone, is made exclusively from the imported Honduran sarsaparilla plant, the variety richest in medicinal value and healing power. Possibly, this is why one bottle of Ayer's does as much work as three bottles of any other kind. At least, that is what people say who've tried others, and then tried Ayer's. Some go farther. There's GEORGE SMITH, Druggist, of Seymour, Conn., for example, who writes: "I will guarantee more benefit from one bottle of Ayer's Sarsaparilla than by using half a dozen bottles of any other kind." That's the sort of record Ayer's Sarsaparilla is living up to. Others imitate the remedy; they can't imitate the record—50 years of cures.
