WILL NOT BE LORD GLENCOE.

Perhaps Lord Montreal or

OR POSSIBLY INCLUDE BOTH.

Sir Donald Smith Has Not Yet De-

The New Peer, Mr. Wm. McKenzie, Mr. Jas.  
Ross and other wealthy Canadians will,  
it is rumored, join Peter, Tait &  
Co. in the East Line Project. Another  
Miracle Reported From Ste. Anne—  
General News From Montreal.

Montreal, July 20.—(Special.)—A patch  
of interesting news was received here to-  
day from London by private letter. In the  
first place, the Canadian High Commission  
will not be called Lord Glencoe. That is  
decided, and Sir Donald is thinking about  
assuming the titles of Lord Montreal or St.  
Lawrence, or perhaps Lord St. Lawrence,  
combined, with a liking on the part of the  
new peer for the latter name.  
It is also rumored that Sir Donald  
Smith, William McKenzie, James Ross and  
other wealthy Canadians will, it is rumored,  
join Peter, Tait & Co. in the East Line  
scheme, notwithstanding the report that  
Sir Charles Tupper is in London working  
against the Petersen scheme and in favor  
of the Allan.

Another Miracle.  
Another alleged miracle has been operated  
at Ste. Anne de Beaupre. On Sunday last  
some 3000 pilgrims from different parts  
of the province repaired to the famous shrine  
and amongst them was a fisherman named  
Aslin, from Gaspe. He had been suffering  
for two years with ulcers in the throat, and  
no medical treatment was of any avail. Two  
days ago he went to the shrine, and after  
performing the accustomed exercises  
of piety he felt that he was cured.  
The ulcers had in fact completely disap-  
peared, and the believing man returned in  
his home rejoicing.

To Have Two New Boats.  
The preliminary arrangements for the con-  
struction of two new and very fast steam-  
ers were discussed at a special meeting of  
the Montreal & Ontario Navigation Com-  
pany directors this morning. The plans and  
specifications are being prepared by a noted  
designer of inland craft at Detroit. The  
idea is to run these steamers, which are to  
be modern and up-to-date in all respects,  
between Toronto and Prescott. Though not  
decided upon as yet, the turbine system is  
favored as regards power, and the chances  
are that it will be adopted.

Baltimore City Ashore.  
Messrs. D. Torrance & Co. received a tele-  
gram from Halifax announcing the report  
that the steamship Baltimore City has been  
sunk off Cape Cod, on the Labrador coast,  
in the Straits of Belle Isle, about  
forty miles this side of Point Amour.

The Baltimore City is a 1700-ton vessel,  
belonging to the P. & O. line, of which  
Messrs. D. Torrance & Co. are the agents.  
She left Montreal for Manchester with a  
general cargo, including live stock, on July  
12 and passed onward at Quebec on the  
14th.

## SAFE CRACKERS GO DOWN.

Long Sentences Given by the  
Barrie Magistrate

## TO TWO DESPERATE THUGS

Maloney Will Do Seven Years and  
Clark Gets Ten Long Years.

The Hand of McLean, Who Escaped  
From Toronto Police in Broad  
Daylight, Was Shown All Through the  
Evidence—The Bad Gang and Their  
Work in This Province—Maloney of  
Toronto Junction Said to Be Only a  
"Pick-Up."

Barrie, July 20.—(Special to The World.)—  
The trial of Maloney and Clark, the des-  
peradoes who cracked safes and burglarized  
stores and houses in Bradford, Mark-  
ham, Victoria Harbor, Oro, Penetanguishene  
and other places, took place here to-day. The  
Magistrate Ross. These are the worst  
criminals who have been in the hands of  
the local police for years, and their re-  
putation attracted a large crowd to the trial.  
The court room was completely filled, and  
the spectators being many ladies. The  
prosecution was represented by Mr.  
Attorney Cotter. The prisoners defended  
themselves. Clark proved himself a clever  
cross-examiner, and exhibited considerable  
knowledge of criminal law.

The charges against the prisoners were  
as follows:  
1. Breaking into Thomas Caldwell's house  
at Oro on July 7 and stealing therefrom.  
2. Breaking into Charles Dick's store at  
Penetanguishene on July 2 and stealing there-  
from.  
3. Breaking open William Hodgkin's safe  
at Victoria Harbor on July 3.  
4. Breaking into the G.T.R. station at  
Waukegan on July 5 and stealing therefrom.

Heavy Sentences Imposed.  
The charges of assault upon Jailer Sisson  
and Tammy Caldwell on the night of July 10  
were not gone into, as convictions were  
secured in the other cases. The prisoners  
were found guilty on each of the five  
charges. Maloney was sentenced to seven  
years in Kingston Penitentiary, and Clark  
to ten years in the same institution, on each  
of the charges, the sentences to run suc-  
cessively.

Hand on the Toronto Police.  
In sentencing the prisoners, Magistrate  
Ross remarked that McLean was a notori-  
ous criminal, and that he had been in the  
hands of the police for years. He was  
sentenced to seven years in Kingston Peni-  
tentiary, and Clark to ten years in the same  
institution, on each of the charges, the sen-  
tences to run successively.

The Gang and Their Work.  
The arrest and conviction of Maloney and  
Clark has resulted in the breaking up of  
one of the most desperate gangs of safe-  
crackers and burglars that have operated  
in Ontario for years. The leader of the  
gang was Jack McLean, who was arrested  
at Mrs. Maloney's house, Toronto Junction,  
on Saturday night, July 10, by Detective  
Davis, and whose escape from the latter  
Station in broad daylight on the following  
Monday caused such a panic in the police  
and resulted in an official investigation and the  
arresting of hundreds of men for their com-  
plicity in allowing crooks to be left  
near the cells.

The gang operated principally along the  
Midland and Northern Railways. They  
burglarized a store at Holland Landing on  
June 27, and on the same date blew up the  
safe in the G.T.R. Station at Bradford, ob-  
taining about \$18. From Bradford Landing  
they came to Maloney's house at Toronto  
Junction with some booty they had ac-  
quired at these places, and on the following  
Tuesday night went to Markham, where  
they robbed the safe at the G.T.R. Station.  
They went to Black Creek, where they com-  
mitted various robberies, and on Saturday,  
July 3, they shipped goods from the latter  
place by express to Toronto, and on the  
same night cracked the safe at Victoria  
Harbor Station. They then drifted to Bar-  
rie, where the officers ran them down and  
heavily lost their lives.

Desperate Men.  
Not only was Clark effected at great risk  
of life, but on Saturday night, July 10,  
the very night that McLean was arrested  
in Toronto Junction, the prisoners  
made a desperate attempt to break jail.  
They secured the keys from the jailer,  
left in the cells, and made a violent attack  
upon Jailer Sisson and Detective Caldwell.  
They were overcome, but not until the  
officers covered them with their revolvers  
and shot Clark in the leg.

Maloney was evidently one of the gang's  
"pick-ups." He lived in Toronto, and in  
his evidence to-day his wife swore that  
he left home to go with Clark and

McLean on Tuesday, although she tried to  
persuade him not to go. Maloney swore  
that he was travelling around looking for  
work, but maintained that he knew nothing  
of the robberies at Penetanguishene or else-  
where.

Some Strong Points.  
The hand of McLean was shown all  
through the evidence, and proof of the fact  
that he is a professional safe-blower was  
that the piece of fuse used in blowing open  
the safe at Victoria Harbor was the exact  
counterpart of the fuse found on McLean  
when arrested by Detective Davis at To-  
ronto Junction.

When Clark and Maloney were arrested  
they threw a lot of burglars' tools into the  
bay, and a diver was procured, who fished  
up a drill which fitted the hole in the safe  
at Victoria Harbor. Detective Davis' evi-  
dence was given from the standpoint of a  
practical machinist and engineer, and he  
showed the peculiarity of the drill used by  
these desperadoes.

The magistrate was profuse in his com-  
mendations of Detective Davis, Cockburn  
and Cassidy.  
Maloney had a bad record. He had been  
convicted seven times previously and had  
served 15 years, 4 months and 5 days in  
prison.  
Clark is a noted criminal, and is well  
known in Detroit.  
Detective Davis returned last night from  
his trip, and he attended the trial of Ma-  
loney and Clark.

## THREE YEARS FOR BAUER.

The Ex-Hotel Clerk Took His Sentence for  
Raising a Cheque for \$5 to \$500  
Without Emotion.

Three years in Kingston Penitentiary was  
the sentence meted out to former Carl  
Bauer by Magistrate Kingsford yesterday.  
In passing the sentence His Worship re-  
marked that the prisoner was guilty of a  
grave offence, having succeeded by means  
of crime in obtaining a large amount of  
money for which no restitution had been  
made. The crime was that he had raised a  
cheque, and if committed with im-  
punity was a most dangerous one. There-  
fore there was no alternative, and an ex-  
emplary punishment had to be given.

The ex-hotel clerk showed no sign of  
emotion when he was led back to the cells.  
His appearance in the dock was careworn  
and his intimate acquaintances would have  
noticed a great change. He betrayed no  
sign of regret, and he seemed to be resting  
his chin on the palm of his hand.  
Bauer raised a \$5 cheque on the Bank of  
Hamilton to \$500 after he had cashed it at  
the Imperial Bank.

RAILWAY TRAINMEN.  
The Big Four Had a Most Delightful Trip  
to Niagara Falls Yesterday, Which  
They Thoroughly Enjoyed.

The United Brotherhood of Railway  
Trainmen, known as the "Big Four," held  
their annual outing to Niagara Falls yester-  
day.  
Although the attendance was not as large  
as in former years, there was a fair rep-  
resentation of the different bodies. The  
day was an ideal one for such an affair,  
and the very efficient committee did every-  
thing that was possible for the comfort  
and enjoyment of their patrons. They were accom-  
panied by the Grand Toronto and York  
regiment of 20 members, which disconcerted  
made liberally both on the outgoing and  
return trip.

The greater number went by the Chip-  
ewa, which left at 7 o'clock in the morn-  
ing, returning at 10 o'clock by the Chi-  
pewa.  
Upon arrival at Queenston the party  
were immediately transferred to the Ni-  
agara Falls Electric Railway and enjoyed  
a delightful ride along the Canadian  
shore to the Falls, where they dispersed  
to view the many beautiful sights.  
Many of the trainmen were accompanied  
by their families, some of whom enjoyed  
their holiday meal in the delightful park,  
while others took dinner at the Hotel  
Cafe, where arrangements had previously  
been made.  
All were free to enjoy themselves as  
they pleased, and this they appeared to  
do to their hearts' content.

The following committee had charge of  
the affair:  
J. Cleverdon, chairman; J. Kilgannon, sec-  
retary; W. Walker, treasurer; A. McLean,  
H. Doyle, P. Garry, W. Hutchinson, J. Bry-  
an, J. Curran, G. Marshall, J. McNeil,  
McNab, W. Curtis, G. Prescott and J.  
Arbuthnot.

FRANK HOLLMAN BADLY HURT.  
His Team Ran Away and Threw Him Out  
on the Hard Pavement.

Chatham, Ont., July 20.—To-day,  
while Frank Hollman was sitting in a  
wagon in front of the Belleville Hotel,  
his horses became frightened at some  
object and dashed down the street. Hol-  
man was thrown violently to the ground,  
and his horse ran on for some distance.  
The man was picked up in an unconscious  
state and carried into a drug store,  
where he lay for some time. On examina-  
tion it was found that three ribs had been  
fractured.

Yesterday's severe thunderstorm trav-  
elled in well-defined belts. A C. P. R.  
conductor, reaching Chatham from the  
West yesterday at 5 p.m., reported no  
rain till he reached the city limits, then  
two hours after Bull's' barn, not far off,  
had been burnt. Crops have been beat-  
en down and large areas of grain de-  
stroyed in Chatham and Raleigh townships.  
The same lightning wrecked the  
top of the Methodist steeple in Dres-  
den.

Cancer Can be Cured.  
For six years I suffered from cancer,  
and got no relief until I used Burdock

dried up and finally disappeared. I am  
now entirely well and rejoice that by us-  
ing B.B.P. I have escaped death after the  
surgery of the knife or the cancer itself.

ago to avoid publicity, and has since been  
very comfortably and happily at the  
place. She is taking treatment and is  
improving greatly.

It is whispered that the late and port-

## HIGH PARK IMPROVEMENTS.

The Patchwork System Is a  
Very Poor One.

## A COMPLETE PLAN WANTED.

Tussock Moths Have Again Attacked  
the Trees in the City.

Those Who Value Their Trees Should  
Attend to Them at Once—A Soldier  
Who Is Looking For His Sister—The Old  
Drill Shed to Be Sold by Auction—The  
Dovercourt Road Pavement Muddle—  
General City Hall Notes.

High Park is unquestionably Toronto's  
finest recreation ground, and it is not un-  
natural that several of the city's most ar-  
dent recreationists are now improving  
schemes of their own for improving  
parts of it at least, but if this park is  
ever to be made really beautiful and at-  
tractive, one that will compare with any  
other in the continent, an entire  
recreation ground for the park must be  
put to the present patchwork sys-  
tem of improvement, and a complete plan  
for beautifying this park must be adopted  
and worked up to carry out the whole  
scheme.

The suggestion, for instance, that Catfish  
Pond should be filled in and transformed into  
a playground, is one that no land-  
scape gardener in America would recom-  
mend. Instead of being filled in, Catfish  
Pond should be deepened and made a fine  
sheet of pure water, connected with the  
lake by a broad culvert under the railway  
tracks, a culvert through which rowboats  
might pass, making a direct connection  
with the lake. There is a small stream  
running down through the park into Catfish  
Pond, and your landscape gardener would  
make the best possible use of this to add  
to the beauty of the place. The park is  
taking a deep interest in all park matters  
nowadays, and it is hinted that he will  
shortly ask the Council to adopt a sensible  
plan for improving this park. It is also  
hinted that his plan will include the im-  
provement of the services of a first-class land-  
scape gardener to supervise the work, and  
for beautifying this park. The Parks and  
Gardens Committee could then appropriate  
a certain amount of money each year for  
this work until the whole is completed, and  
then Toronto would have one of the best  
parks in America.

At the meeting of the Parks and Gardens  
Committee yesterday, this matter was re-  
ferred to the Park Commissioners. The  
Committee promised to submit its ideas on im-  
provements at an early date. The matter is a  
very important one, and it is hoped that  
the members of the committee, and every  
member of Council.

Chief Constable Giesert wrote asking  
that notices be placed in the various parks  
acquainting bicyclists and the public gen-  
erally with the fact that the city is en-  
forcing the laws relating to the use of  
bicycles in the parks, and that the city  
will not tolerate the use of bicycles in the  
parks.

The destructive tussock moth has again  
put in an appearance. Some of the trees  
on Jarvis-street and Sherbourne-street have  
been injured by the very serious pest. The  
elder Chambers is taking steps to put a  
stop to their ravages. He complains that,  
while the city's trees are attacked, pri-  
vate owners neglect theirs. Those who  
value their trees should attend to them  
at once.

Seeking His Sister.  
Private Henry Frost of the 1st Brigade,  
Bedford Regiment, which is now stationed  
at Umbagog, has written to the City En-  
gineer asking that he be allowed to visit  
his sister, who is in the city, and who is  
a former living near Toronto.

City Hall Notes.  
The City Engineer Rust has written to  
the Street Railway Commission, request-  
ing that a service be started immediately on  
the Dovercourt road pavement muddle.

The old Drill Shed will be sold by auc-  
tion next month.  
The Council of Revision heard appeals  
from Ward 6, Division 2, yesterday. Sev-  
eral small roads were mentioned. The  
municipal pavement on the east side  
of Queen's Park-crescent has been com-  
pleted.

The City Clerk has received a suffi-  
ciently signed petition for a brick pavement  
on Berkeley-street, between Wilton-avenue and  
Gerrard-street.

Residents of Huron-street are complain-  
ing of the noise made by traffic on the  
brick pavement.

the foot of Berkeley-street, and from Good-  
rich-street, to carry boys to a bathing place  
east of the city work.

## Value IN GOODS Value IN BARGAINS

Store Open 8 a.m. to 6 p.m.

THE TWIN ADVANTAGE of value in the goods  
and value in bargains you get here. Wisdom will  
be shown in not allowing even the midsummer vaca-  
tion to interfere in your participation of the very extra-  
ordinary bargains that will prevail in all departments for the  
next few weeks. We keep this big store busy in the pro-  
verbially duldest time of the year by the many specials in all  
sections of the house. The story to-day of items in which
