

T. EATON CO. Canada's Greatest Store T. EATON CO. LIMITED

Thursday Will Be Bargain Day This Week.

The holiday—Good Friday—necessitates a change in our Bargain Day this week. So we make it a day earlier than usual by having it on Thursday. In the selection of our bargain offerings we were mindful of the things required for the holiday and for Easter, and many of our best bargains for Thursday are in keeping with the occasion. But enough said. This is the list. The goods are exactly as we represent them to be. Thursday morning:

- Basement Bargains.**

THE DEAL A THORO MONOPOLY.
The Globe's article of yesterday naturally presents the most plausible construction possible on the Spanish River pulp agreement. Even if we admit The Globe's construction of the agreement as correct, the deal is a very bad one for the Province. The World's chief objection to the agreement is the extent and indefiniteness of the territory ceded to the company. The Globe tells us what the territory does not include, what the Legislature and the people ought to know is what the territory does include. The description of the territory is altogether too indefinite. The length of some of the three rivers covered in the agreement is given, nor are we told how many branches are included, or the length of these branches. The Government occupies the position of trustees for the people. The people have a right to demand of their trustees that any part of the public domain which they give away shall be described with some degree of accuracy. Now, it would not have been a difficult matter for the Government to have ascertained the mileage of the Vermilion, Spanish and Onaping rivers and their branches. Each mile of stream, whether of the main river or branches, gives the company 10 square miles of territory. What is the mileage? The Government either does not know, or if it does know it refuses to disclose the same. The Globe tells us that the demand of the Government shall be dissolved by reason of its indefiniteness. The vagueness of the description is a matter which has not been described in the past. Before the Legislature passes the agreement, let the Government state how many square miles of territory are involved in the deal, whether it is 500 or 5000, or how many.

The next point The Globe has failed to explain is the reason for the insertion of the clauses 7 and 8 in the agreement. These clauses are to the effect that the company shall have the right to take up to two blocks, one containing 50 square miles, and the other the balance of the concession, which may be, and probably is, 5000 square miles. No member of the Government and no member of the Legislature has explained the reason for the insertion of these clauses. As yet, offered one word of explanation of the division of the concession into one definite portion of 50 square miles, and another of the indefinite balance. Only information can be drawn from the clauses is that they were inserted purposely to delude and hoodwink the public into the belief that 50 square miles is the amount of territory the company has probably asked for its lands. If it didn't suffice, then it could resort to the rest of the territory. If these clauses are not intended to hoodwink the public, we would like to know their purpose.

Another argument of The Globe is that no monopoly is given, because "if there is more timber than is necessary to supply the company's mill or mills, the Government can dispose of it to other manufacturers." The fact is, however, that the concession, if the company were limited to operating one mill or two or even three mills, but such is not the case. No limit is set to the number of mills the company may operate, nor is there any limit to the number of mills it may have anywhere, and supply its logs from the territory in question. The statement that the company has no monopoly is not true. It is given a "pure monopoly" in the pulpwood of the whole limit. If, at the end of that time, any pulpwood remains in the limit, the Government may sell it to others. But the company has an absolutely free hand in removing the pulpwood as it sees fit, either in mills owned by itself or leased from others, or in mills which the company may license.

The contention that no monopoly is given, on the company's part, because it can sell its pulpwood to other manufacturers, is a weak argument. The Government's case really is, in the first place, the intending settlement of the territory. The Government is a matter of right. The Government gives its consent, the whole limit is monopolized by the company. In any event, the company has taken up by settlers would be practically at the mercy of the company, because it would be impossible for him to take up any more land. The company would be practically at the mercy of the company, because it would be impossible for him to take up any more land. The company would be practically at the mercy of the company, because it would be impossible for him to take up any more land.

17TH APRIL, FOR
NEW COLLEGE TERM.
And a term in this college with its complete equipment and staff of teachers means success in business.

something that is of the greatest value to the agriculturist.
A HAYPOCK GAME TO BE SURE.
The hay fork clauses of the Spanish River pulp agreement are having their effect. They are being interpreted just as the promoters of the deal and the Government anticipated they would be interpreted. Two important facts are victims of the hay fork clauses. Even the astute editor of The Hamilton Times has been hoodwinked. He labors under the impression that the company's concession amounts to only 50 square miles, whereas the agreement covers one hundred times that area. The following extract from The Times of last night is documentary evidence that the editor has been fooled:
"Briefly summed up," says The Times, "the agreement gives the company certain rights to cut pulp timber on the Vermilion, Spanish and Onaping Rivers. It does not give proprietary rights in either timber or land, but may cut over 50 square miles for a period of 21 years such timber as is required to keep its mills running."
Another paper that has been deceived by the hay-fork language of the agreement is The Algoma Conservator of Gore Bay. Like The Times, it, too, imagines that only 50 square miles is conveyed to the Spanish River company. We quote from the issue just to hand:
"The Hon. Mr. Davis, Commissioner of Crown Lands, introduced into the House on the 29th ult., and asked for the ratification of an agreement between the Hon. Spanish and Onaping Rivers. The company contracting to employ so many hundred men to cut pulp timber, which they wanted a limit of pulp timber lands 50 square miles in extent, to be chosen from the whole timber limit of Manitoulin Island, the Vermilion, Spanish and Onaping Rivers, and to have 21 years to remove the timber."
"Now let it be distinctly understood by readers that this company, which has the right to choose lots, up to the beds of those rivers, to have the choice of territory of 50 square miles, and to hold them for 21 years, is the company that has been deceived by the hay-fork language of the agreement is The Algoma Conservator of Gore Bay. Like The Times, it, too, imagines that only 50 square miles is conveyed to the Spanish River company. We quote from the issue just to hand:
"The Hon. Mr. Davis, Commissioner of Crown Lands, introduced into the House on the 29th ult., and asked for the ratification of an agreement between the Hon. Spanish and Onaping Rivers. The company contracting to employ so many hundred men to cut pulp timber, which they wanted a limit of pulp timber lands 50 square miles in extent, to be chosen from the whole timber limit of Manitoulin Island, the Vermilion, Spanish and Onaping Rivers, and to have 21 years to remove the timber."

A PLEA FOR POWER BRAKES.
In the equipment of a trolley car nothing is more important from the standpoint of the public safety than the style of brakes used. An efficient fender is a necessary adjunct to any electric car, but it is not of greater service in life-saving than a system of power brakes. With danger constantly threatening him, the motorist ought to be able to bring his car to a stop in the shortest possible space. A plea in favor of power brakes on trolley cars has been made out by The Electrical Review. It says: "The modern forty-foot trolley car full of people weighs a good many tons. To start it with any reasonable degree of swiftness requires the expenditure of a great deal of power. Naturally it will require the same power. To start it powerful motors and heavy gearing are employed; to stop it, a brake handle under the control of the driver is used. The consequence of this arrangement is that the newspapers keep standing in type headlines like 'Another Trolley Disaster.' 'The Deadly Juggernaut' etc. Is there not a lesson to be learned from these well-known facts? It is not as if there were no power brakes to be had, for there are several varieties, all good and all tested by experience."

THE HANGING OF WILLIAMS.
Justice Department at Ottawa Deluged With Letters Asking for a Postponement.
BUT IT IS OUT OF THEIR HANDS.
Judge Who Passed Sentence Can Deal With It, Says the Head of the Executive.
Ottawa, April 10.—(Special.)—The Williams murder case has caused the Justice Department no end of trouble. The application for a new trial was dismissed, and recently, the Department was deluged with letters from citizens in Toronto, praying that a respite of sentence be given, so that Good Friday will not be profaned.
Those who write thus do not appreciate the situation. Really, the matter has come out of the purview of the Executive Council. The trial judge in Toronto has the common law and statutory right to grant a respite of the sentence. It is not solely with him whether Williams will be hanged on Good Friday. The matter is now in the hands of the Justice Department and it is a matter of right for the Justice Department to interfere in such matters, and the Hon. Justice is a stickler for custom.
Now that the sentence is already in the hands of the Department, it is not to be made this time, for if the hanging had been made on Good Friday it would be the first time in the history of the Dominion that a man had been hanged on a public holiday. It is just probable that the trial judge would have granted a respite of sentence, and in turning over his diary he concluded that three months' waiting would not be a hardship on the condemned man. He did not think of its being Good Friday, and now that it has fixed upon the date, it is too late to change it. It is a matter of right for the Justice Department to change it. However, a change would please the Justice Department.

Was Williams Hypnotized?
The Deputy Minister of Justice received a letter from a convict of the Kingston Penitentiary, in which it is claimed that "Mr. Williams" was under the hypnotic influence of "Mr. McIntosh" when he mixed himself up with the murder. The writer further claims that Good Friday is the best time for Williams to get his quietus, illustrating this by a reference to the Thief on the Cross, mentioned in Holy Writ.
There is no record of hanging on Good Friday. It is recalled by Mayor Macdonald's telegram, received by Mr. Mills from the penitentiary. Last year, Judge Dugas of the Yukon caused a man to be hanged on Good Friday. His action it is said, caused Torontonians to raise a row.
S. Ackerman, commercial traveler, Belleville, writes: "Some years ago, Dr. Thomas McIntosh, of Kingston, Ontario, was afflicted with Rheumatism, and three bottles of Vapo-Cresolene cured him. He was the whole of one summer unable to move without crutches, and every movement caused excruciating pain. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I have a bottle of Dr. Thomas' Vapo-Cresolene on hand, and I always recommend it to others, as it did so much for me."

M'Kendry & Co. MILLINERY SPECIALISTS.

THIRTY-TWO cases opened yesterday—the condensed essence of all that is new and beautiful in the New York market. We've hundreds of ready trimmed Hats to suit all pocketbooks, from \$1.50 to \$25.00, and not a mean or shoddy one in the lot. We've never been so busy—never. It will be the part of wisdom to make your selection of an Easter Hat in the forenoon—later these days there is sure to be a crush.

SKIRTS AND BLOUSES.

We're putting particular emphasis on the fact that we take the same care in the manufacture of our Blouses and Skirts as we do in Millinery, and most Toronto women know what that means. It means we make each garment as well as the best dressmakers we can find know how to make them. Here are some garments worth while looking at:

Fine Silk Blouse. \$3.98. **Black and Navy Serge Skirt, special at \$3.50.** **Fine Silken Lingerie Blouse.** \$2.48.

Silk Blouses, made from the very latest New York models, with corded vest and revers, French back, in black, reds and blues, special at \$3.98. Paisley Silk Blouses, New York craze, \$7.50. Sebechester Silk Open Work Blouses, very new, \$8.50. Washing Silk Blouses in blue, pink and heliotrope, like coral \$2.49. Imported Tweed Check Dress Skirts; other stores ask \$7.50, our price \$5.50. Navy and Black All-wool Dress Skirts, excellent value at \$3.50.

All our Skirts and Blouses are made by experienced dressmakers, and as good as are turned out to order by any other firm at a saving of 25 to 50 per cent. To-day we sell 800 bunches Flowers, including the new shades in chrysanthemums, large roses and foliage, regular price 39c to 57c, your choice for 25c. Twelve dozen Ladies' Fine Straw Sailors, in black and navy, regular value 89c, for 50c.

Have you seen our Pink Window?

NOT COVERED BY HAWG TREATY.
British Regard Boer War as in the Nature of a Rebellion—Can's Bluff Rejected.
London, April 10.—The officials of the Foreign Office here ridicule the statement from St. Petersburg that the Czar was "extremely agitated" over the Anglo-Boer war arrangement in regard to landing British troops and supplies at Helms, and that he intended to issue a proclamation protesting against it.
The Foreign Office here is being in the nature of a rebellion, and quite outside the category of what was provided for in the Hague conference, so intervention of any kind under The Hague convention is regarded as impossible.

RELIEVING FORCE ON THE WAY.
One Hundred Hussars Have Started For Commanche to Help the British.
Accra, British Gold Coast Colony, April 9.—A relieving force of 100 Hussars started for Commanche to-day. As this body of troops is considered insufficient, a larger force is being concentrated in the hinterland. Commanche is evidently invested. The Ashanti have captured several native teachers and their families. The rising is spreading.

Navigation Notes.
The ping hat given by the Harbourmaster to the first vessel entering the harbour of Toronto harbor this season has been awarded to Capt. Gorman of the tugboat St. Joseph. This boat has already made two trips to Toronto from Oswego Lake and back.
The cold weather yesterday interfered with the sailing of the tugboat St. Joseph. Only a few people ventured across the lake and those who did remained inside the harbour.
When the steamer Tilly makes her appearance she will look like a new boat. At Polson's yards, where she has been all winter, she is receiving new decks and other alterations. She will be completed in a few weeks.
The Ferry Company commenced their season yesterday with the Island Queen running from Yonge-street wharf to Halls Point.

Want Money for Research.
A donation from the Ontario Historical Society will wait upon the Government to-day at 1.30 to urge upon them the giving of an increased grant to the society for the purpose of research and publication.
Asthma.
You've tried almost everything for it, haven't you? And we presume you are discouraged. Now what do you think of our idea of breathing-in the medicine, bringing it right up to the diseased part? It looks reasonable, doesn't it? And it's successful, too. When you inhale Vapo-Cresolene your breathing becomes easy, the wheezing ceases, and you drop to sleep. For a quick cure.

An Everyday Bargain--
The Daycycle at \$35.
GEN. BOOTH'S BIRTHDAY GIFT.
The Salvation Army People Give Their Aged Leader a Present of \$200,000.
London, April 10.—The birthday of the Rev. William Booth, General of the Salvation Army, (who was born at Nottingham, England, April 10, 1829), was signaled to gratulations from all parts of the world, and the presentation of a purse of \$200,000, as the result of the collections made during the centennial week of the army, just concluded.
Manchester Forging Ahead.
Owing to the immense traffic at the Manchester docks, brought about largely by the large cargoes from Canada and the States, the House of Lords on March 30 authorized the Canal Company to purchase about 140 acres of land, part of which forms the Manchester race course, and the presentation of a purse of \$200,000, as the result of the collections made during the centennial week of the army, just concluded.
This plot will be converted as soon as possible into a large dock, with good provision for railways and sidings. The Canadian service now consists of a fleet of eight steamers, all large and modern, specially suitable for all kinds of Canadian produce, and built to accommodate live stock of all kinds. Very flattering letters have been received by the Steamship Company from the Admiralty and officers commanding, in which special mention is made of the sea-going capacities of the three steamers engaged as transports. On each steamer large numbers of horses were carried, and owing to the uniform steadiness of the ships these were landed in first-class condition. These steamers averaged 22 days in their run from London to Cape Town, via-via, which compares favorably with the trips of the cable liners.
The Atlantic R.R.C. will hold a meeting at Toronto, which conducts branches at Montreal and Port-au-Prince, to-night at 8 o'clock. The all members are requested to attend, as the team to play the Wide-Awakes Golf Friday will be selected.
