"Go out into the open market and buy coal."

This advice by Deputy Fuel Controller Harris, Toronto, is creating quite a bit of interest in London these days, where there is considerable suffering from the cold snap.

Mr. Harris told the utilities commission that the highly-paid, highly-organized fuel controller's department could do nothing at all to relieve the situation in this city.

Mr. McCue, the expert, is being paid \$25,000 per annum out of the pockets of the people of Canada, many others are given salaries well up into the thousands, but the people are canada, many others are given salaries well up into the thousands. They have tried to go out into the open market and buy fuel.

They have the money, but where is the coal? They would like to know.

VOICE OF THE PEOPLE

WOMAN IN PUBLIC LIFE.

To the Editor of The Advertiser:

I, Mrs. Burgess, beg The Advertiser to correct the statement issued in Friday's paper regarding the fracas at the Lyceum. It was not on account of politics that the quarrel arose. It was on account of this temale approaching me and calling me a name which cannot be repeated. I struck her with mymuff, and said I would slap her face, and she stood at the back and side of my chair and undertook to pound me on the head, and as I arose to defend myself she knocked my bat off and caught hold of my hair with both hands. Then I handed her one or two good ones. What has a woman but her reputation?
