STORMS AS FRIENDSHIP-MAKERS.

LIZZARDS, like war, are wonderfully effective in breaking down barriers of class, convention and custom. They appear to bring to nearly all minds a spontaneous desire for comradeship with those nearest at hand, and whether known as acquaintances or met for the first time.

Spoken in 1845 by one of the greatest of Americans, how splendidly have President Wilson and the American nation met his expectations! They have proved to the world that they are disciples of Sumner's views, that they believe the true grandeur of the United States is unselfish devotion to the brotherhood of man, is in a participation in the European war as an act of "justice and humanity."

Canada when the war is over will have probiems to face very similar to those faced by the United States in Sumner's time and since. Canada has had men of the Sumner type in its publie life. Men, high-minded, noble men, of great ability. It has had its Thompsons and Abbotts, Macdonalds and Tuppers, Browns, Mackenzies, Blakes, Lauriers, Fieldings, Mills, Cartwrights, Mowats, Merediths, Rosses, Pard'es, Baldwins, Howes, Davies and Huntingdons, and it would be unfair to leave out Papineau and Lyon Mac-Kenzie. The work of Canada's statesmen in the past has been very good, but the future will tax men more. There are good men in the House of Commons today. The war franchise act, with all its injustice, will soon disappear. A parliament elected under it, the majority of whom do not like to be unjust, will remove it from the statute book. Perhaps "the recording angel will drop a tear" upon the whole page "and blot it out forever." The generosity of the Liberal chief may see some of the old boys afar off. Then they may run to him and carry out his program, perfected by over forty years' experience, which

is exactly the policy Canada needs for the future. READ THE MAYOR'S ADDRESS.

Heroic is the story told in the London Gazette of an officer who hugged a burning bomb till it exploded and killed him rather than throw it aside and risk the lives of other men.

Linked with it is the announcement that the king has awarded the Albert Medal in Gold, "in recognition of the conspicuous gallantry and self-sacrifice of Second-Lieut. Grey de Leche Leach, late of the 1st Battalion of the Guards."

Lieut Leach was examining bombs in a building in France on September 3, 1916, when the fuse of one of them ignited. Two non-commissioned officers were also at work in the building.

Shouting a warning, he made for the door, carrying the bomb pressed close to his body. When he reached the door he found other men outside, so that he could not throw the bomb away without endangering them.
