HEALTH BOARDS WARN OF  
NEW INFLUENZA DANGER

Ask People To Be Careful, Use Proper  
Preventive Treatment  
Promptly—What To Do.

To be prepared for any recurrence of the serious outbreak of Influenza and Pneumonia that last winter swept over the entire country, taking their toll in thousands of human lives, public health boards everywhere are issuing cautions and instructions to the public, not to neglect treatment at the first symptom of a cold and to co-operate with health boards and physicians in stamping out the spread of the disease.

Be on guard, they say, against the first suspicious sign. No disease develops so quickly or spreads so rapidly. The first symptom usually is a sharp rise in temperature to 103 or 104 degrees, headache, pain in the back, throat feeling dry or sore. Unless promptly checked by proper treatment, the best plan is to go to bed and stay there for at least a week, keeping warm to avoid pneumonia, and let the minor ailment run its course and also prevent the spread of the disease to others.

Most of us, in these busy days, cannot afford, if it can be avoided, to lose a week or more of work so it is all the more necessary that at the very first sign of cold, gripe or influenza a counter-acting treatment should be taken.

Probably no better or more effective treatment could be followed at such a time than to get from the nearest drug store a complete Hyomei outfit, consisting of a bottle of the pure Oil of Hyomei and a little vial of Hyomei powder, and inhaling device into which a few drops of the oil are poured.

Put the inhaler in your mouth and breathe its air deep into the passages of your nose, throat and lungs. Every particle of air that enters your breathing organs will thus be charged with an antiseptic, healing balsam.

You can't do this too often. The Hyomei Inhaler is small and can be conveniently carried in a handbag or in your vestpocket. Every half hour or so, throughout the day, take it out and draw a few breaths of its pure healing air into your nose and throat. Relief should come almost instantly as the congestion ceases, fever disappears and throat conditions become normal. The outfit is not at all expensive for the rubber inhaler will last a lifetime, while the Oil of Hyomei can be obtained at little cost from any reliable druggist. Lots of people already have a Hyomei Inhaler. Take it out, charge it and use it without delay. If you haven't one, get it today.

A few cents spent now may easily prevent serious illness and save you many dollars and help stamp out the spread of the disease.—Advt.

Dentist's Recipe For  
Pyorrhoea, Bleeding  
Gums or Loose Teeth

If your teeth are loose or if your gums are receding and tender, or inflamed, if they bleed easily, are spongy, flabby or colorless and discharge pus, go to your druggist and get one ounce jar of Epsom salt and gently rub a little over the gums with your finger-tips each night and morning.

This is a famous dentist's prescription for such serious gum diseases as Pyorrhoea or Riggs Disease, which make the teeth loosen and fall out and usually brings prompt relief from all the dangerous symptoms. Loose teeth should be tightened and gums grow sound and healthy in a short time. Epsom salt is easy and pleasant to use, and is as effective as any once used for many weeks. Anyone suffering from Pyorrhoea or Riggs Disease or any other gum trouble should give this remedy a trial.—Advt.

If the spout is open the salt runs out.

The Way "Richard Second" Received Dicky's Gift.

"Richard Graham!"  
My mother-in-law was the first one to say, "Please, children, I'm starving to death." Lillian interposed. Then her utterance to the astonishment which she cried, "What do you know about lous incongruity of the present which we followed her glance and pointing Dicky had bought for his year-old son to where the baby, whose attention he held the imperative notion had been suddenly attracted by the which marks extreme exasperation with Dicky's shuffling and wriggling in his her, and I saw Dicky snarl his shoulders toward it and wriggling in his which he knew was inevitable.

"Nothing's too good for Richard Second," Dicky said, adroitly playing upon both her grandmotherly pride and that of the name she had chosen for her idolized grandson.  
"I didn't need you to tell me that," let's have dinner. Go along, get seated anyway. I'd probably have a time separating of things which might be too sad for my son from my gift, which I for him, and this is decidedly one of hope you are ready to acknowledge is them.

Although my sentiments coincided exactly with those of my mother-in-law, yet I found myself illogically championing Dicky's cause, resenting her criticism of him. "Tinker Bob"  
Stories  
by Carlisle H. Holcomb

MR. RABBIT IS CLEVER.

Tinker Bob, King of the Forest, was awake bright and early in the morning. Jerry the saucy Jay bird over- slept, as usual, when he had a duty to perform. So the King went forth to call him. There he was, sound asleep with his head under his wing. "Come on, Jerry," cried Tinker at the top of his voice. "It is now time to call the forest dwellers together."  
Jerry took his head from under his wing and stretched his neck in wonder- ment. "I nearly forgot," he said, as he stretched his wings and prepared to fly.

"But you wouldn't have forgotten," said Tinker, "if it had been some- thing about some of the forest dwellers." Jerry the Jay bird knew this to be the truth, so he flew away without making any reply to the King's re- mark.

Easily Erases Wrinkles

Thousands have reported great success with the famous sallowite wrinkle-removing formula. One ounce of pure powdered sallowite is dissolved in half-pint of witch hazel and the solution used as a face wash. The effect is almost magical. The deepest wrinkles and crow's feet, as well as the finest lines—whether due to age, illness, weather or worry—are immediately affected. No one need hesitate to try this simple lotion, as it will not harm any skin. Any druggist, of course, can supply the ingredients.

When you have that tired, careworn look and you want to freshen up for the afternoon evening, bathing the face in the sallowite lotion will produce a wonderful transformation. You will find this more refreshing than an hour's rest.—Advt.

"What's your great hurry this morn- ing?" asked the King, as Chief Porky drew near.

"If he comes near where Mr. Rabbit's family lives, let me stand in his path and I will put a thousand needles in his mouth!" vowed Chief Porky.  
Before Chief Porky could tell any more of his plan, the sound of the Hunter's hound, barking loudly, came to their ears. It came from the direction of Mr. Rabbit's home. In an instant more, they saw Jack the Rabbit coming at top speed down the path, and close upon his heels was the hound. Mr. Rabbit was leading the hound away from his home and directly toward the river.

Close to the water's edge Jack made quick turn up the river, but the hound went straight ahead and plunged headlong into the water. This was just what Mr. Rabbit wanted him to do. Up the river he turned again and made a complete circle and was soon back to his home and little ones. The hound, when he came out of the water, was confused and knew not which way to go.

"You see," said Tinker to the forest dwellers that had gathered to plan for the Rabbits' protection, "the Great Spirit has given Jack the Rabbit power to protect himself; this will also be given to his children without our assistance." The forest dwellers were happy in realizing this.

Temiskaming Votes 'No'  
On Three Questions,  
'Yes' On the Fourth

CORALIT, Oct. 28.—"No" majorities of 1,567, 887 and 1,256 respectively on questions one, two and three, and a "yes" majority of 270 on the fourth question is the result of the referendum in the town of Temiskaming, held last night. The results, according to the official figures of J. D. Mackay, returning officer, decided to ask for a recount of the election, and will make application to Judge Hartman tomorrow.

When They Went Away Singing  
"Tipperary"

In those brave days of '14 and '15, they were indeed the idols of the Nation. To their support Canada brought all that the weight of money could bring.

And when they came to the furnace of their testing, we acclaimed them proudly as of no common clay.

"Tipperary" is forgotten, swept like a butterfly caught in a tornado or a catch of song in the throat of death. But Ypres, St. Eloi, Vimy, Hill 70, Passchaendale, Cambrai and Mons have placed its singers among the Immortals.

In these brave days—that to some of us are still but of yesterday—Canada proclaimed herself in the fight to the last man and to the last dollar.

Well has man played his fighting part. It is our Dollar that must now redeem the pledge.

To make the Victory Loan a success is a National obligation.

If the fighting were still raging you wouldn't hesitate to invest.

Be thankful then that it is ended, and be glad that your part now is but to lend money to pay the Debts of Honour.

The spirit that moved you to buy Victory Bonds one year ago and two years ago should impel you to buy them again.

But even if you suppress that spirit—grant that you may not—the material advantage of the investment cannot fail to appeal to your good common sense.

Think of it. The peerless security of a mighty nation—a nation at peace—the great uncertainty of war past—and 5% interest. Where can you find its equal?

Whichever way you look at it, if you are true to yourself you must

to undertake any important journeys or to undertake radical changes or removals. The health also requires some attention, as Saturn is wielding an adverse influence.  
Those whose birthday it is may be successful if they give unusual care to their business and also guard the health. They should avoid change or removals of journeys of importance. A child born on this day will be artistic and affectionate, but changeable.
