**Claims Welland Canal Beats Georgian Project.**  
 Thomas Conlon Declares That There Are Many Serious Obstacles to Be Considered.

**ST. CATHARINES, May 11.**—(Special.)—Thomas Conlon of this city made a decided slap at the proposed Georgian Bay Canal scheme before the Toronto Board of Trade yesterday. He claimed that the report of the government engineer would kill the whole project.  
 Mr. Conlon compared the projected Georgian Bay Canal with the proposed Improved Welland, and claimed that the latter is the most feasible scheme, as it would reduce the length of the canal by 26 to 23 miles, and seven locks, 800 feet long by 75 feet wide, would do the work now being done by 45 locks. The cost of the Georgian Bay route would be much longer. He disputed the statement of the engineer that six miles an hour speed could be made, claiming that averages would not exceed two miles on the whole 42 miles of proposed canal. He also claimed that there is no source for the necessary water supply for the canal.

He said that the trip from Fort William to Montreal could be made via the Improved Welland Canal in 10 days, whereas the Georgian Bay route the trip would take at least 11 days, and contended that steamers plying thru the Georgian Bay would have to either carry double crews or tie up at times to rest their men, as all hands must be on deck going thru the canals. The insurance also would be quite heavy. Vessels are now compelled to pay a rate of one cent per bushel while passing thru the 37 miles of the canals on the St. Lawrence route. He urged that the government consult vessel owners and mariners before committing itself to the scheme.  
 No duty on goods coming to this country from England was urged as a means of increasing the grain trade via the St. Lawrence. The freedom of English goods would return cargo for Canadian ships which, if all improvements were made to the St. Lawrence route from Fort William to Montreal, could ply steadily between Port William and Liverpool. England would appreciate the admittance of her manufactured goods free of duty, rather than the present of a dozen Dreadnoughts.

**M. E. Whillans, principal of the Toronto Cathedral School, Weston, speaking to The World yesterday, said that while the amalgamation of the Cathedral School and the school conducted by Rev. T. W. Powell at Eglington had been discussed, no decision had been reached, because it was found that the project would be impracticable. If anything is done in Eglington it is very likely it will be in the form of an enlargement of Mr. Powell's own school. Mr. Matthews was very firm in his statement that the Cathedral School would remain**

### SIX THOUSAND NEED HELP

Meeting of Associated Charities to Wind Up Winter's Work.

At a meeting of the Associated Charities at the home of Prof. Goldwin Smith, "The Grange," the secretary presented a statement showing that there are on record about 6000 persons appealing for help.  
 The Free Labor Bureau has been a great factor in the work of the organization this winter. 5117 men have registered. 4812 secured temporary work and 100 permanent employment.  
 A motion is on foot to have the association take over the Women's Work Bureau.

**THE KINRADE CASE**  
 No Action by Ontario Cabinet at Yesterday's Meeting.  
 After the cabinet meeting yesterday Sir James Whitney said, in reply to a question whether the Kinrade case had been under consideration: "We have not reached the amount of money which an insurance company may expend annually for new business, the Shubert National Life Insurance Co. of Boston, Mass., has been granted a licence, which was refused when the returns of 1900 showed this section voided. In the meantime an injunction has restrained the state from excluding the company."  
 A plan that measures only 5 feet 4 inches in length, and 4 feet 3 inches wide, is not very great in size to compare with the classification of a grand piano. All the same these figures tell correctly the size of the "Miniature Grand Piano" manufactured by the Ontario Piano and Organ Co. Limited, 115-117 King-street West, Toronto. It is a wonderful little instrument. In size it is suitable for the average parlor or drawing room. The case is after the best art models. Musically it possesses all the powers and possibilities of a Concert Grand Piano. The price is moderate.

**Wanted Church in Cochrane.**  
 A deputation is in the city for the purpose of inducing Capt. Vennell, who was the first preacher in Cochrane, to return to the mission work there. The Anglicans of that rapidly growing town have limited the bishop to establish a church there, but nothing has been heard from the synod office.

**Coughs, Colds, "LA GRIPPE"**  
 Every one is familiar with the distressing symptoms of the above-named ailments—although they do not seem serious enough to justify the employment of a physician—remember "a stitch in time saves nine" and that if these ailments are allowed to run on unchecked they may terminate in diseases most destructive in their results, such as Bronchitis, Pneumonia, Lung Troubles, and Tuberculosis.

### "WOMEN" "Are You Nervous?"

The results of modern civilization are evidenced in an increase of nervous disorders. It could not be otherwise with the way we eat, drink, lose sleep, and keep up a continual round of excitement. The work, the worry, the excitement, all tell upon the nerves till they cry out in revolt, and will not be placated till a remedy such as

### MILBURN'S HEART AND NERVE PILLS

is had for several years been tried in nervousness, and, like many others, speak lots of money on medicine that did me no good. I was so bad that the last noise would make me jump and my heart would thump so you could hear it plainly and I could not lie on my left side at night. I saw a few testimonials of others and decided to try Milburn's Heart and Nerve Pills, and to my great joy and surprise they completely cured me and it only took six boxes to do it. I have a neighbor, Mrs. Rickett, and I induced her to try them and she effected a cure. I can endorse their use for anyone afflicted as I was.

Price, 50 cents a box, 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### DOCTOR OF LAWS DEGREE FOR LIEN.-GOVERNOR

Many Honors to Be Conferred at McMaster Convocation To-Night—Prize List.

McMaster University results were announced yesterday. The high marks taken by a large number of the students speaks well of the standard of scholarship required by Chancellor McKay and his colleagues.

**BAD LEG FOR 60 YEARS.**  
 Zam-Buk Works a Complete Cure.

Mrs. J. Minett of 192 Thurbers-avenue, Providence, Rhode Island, has been cured by Zam-Buk of a bad leg, which had defied all remedies for sixty long years. She says: "When a child of eight I was bitten on the leg by a dog. A doctor cauterized the place, but it never healed up soundly, and I have suffered with an ulcerated leg for over sixty years. This occurred in England, and many English doctors tried in vain to heal the sore. At one time I was an in-patient at the East Suffolk Hospital for a long period and for three years I was in and out of hospitals. I was continually in pain, and the sore would not heal, but continued to discharge. Twelve months ago I came out here to my daughter, which had defied all remedies for sixty long years. She says: 'When a child of eight I was bitten on the leg by a dog. A doctor cauterized the place, but it never healed up soundly, and I have suffered with an ulcerated leg for over sixty years. I was continually in pain, and the sore would not heal, but continued to discharge. Twelve months ago I came out here to my daughter, which had defied all remedies for sixty long years. She says: 'When a child of eight I was bitten on the leg by a dog. A doctor cauterized the place, but it never healed up soundly, and I have suffered with an ulcerated leg for over sixty years. This occurred in England, and many English doctors tried in vain to heal the sore. At one time I was an in-patient at the East Suffolk Hospital for a long period and for three years I was in and out of hospitals.
