### School Children Out on Strike

Owing to insults to Hebrew Race by Lady Teacher, Two Hundred Pupils Quit.

MONTREAL, March 1.—Pending an investigation into the insults which are alleged to have been offered the Hebrew race by a lady teacher at the Aberdeen School, 200 pupils of that institution who went out on strike Monday morning. There were several conferences yesterday among Hebrew leaders, and as a result it is likely that the trouble will receive an airing before the school commission. Principal Cookfield, of Aberdeen School, it is said, will ask the expulsion of some of the strike leaders.

The striking children lined the sidewalks near the school yesterday and cheered lustily. A solitary foot policeman and one mounted officer paraded up and down the road trying to disperse the crowd, but as soon as the youthful strikers were moved from one part of the square they gathered at another.

To investigate into the causes of the clash the legislative committee of the Baron De Hirsch Institute met at the offices of Mr. Jacoby yesterday afternoon. They discussed the attitude taken by the boys, and thought it justifiable if the alleged insults had really been offered.

It was decided, however, that the boys must return to school on Monday morning, and the matter will be taken up with the school commission.

### Quarter of Billion For German Military

Huge Sum to Be Spent on Army and Building Forts on Eastern Frontier.

BERLIN, March 1.—According to The Lokal Anzeiger the new German military bill involves an expenditure of nearly a billion marks (about \$250,000,000), spread over three or four years, and thereafter there will be an annual increase in the army budget of from 200,000,000 to 220,000,000 marks. The newspaper says a large part of the billion marks will be devoted to building forts on the eastern frontier, and that 150,000,000 marks will be used for new barracks. The budget has not yet taken up the question of raising the necessary revenues.

The Vorwaerts covers its front page this morning with a protest to the German and French Socialist parliamentarians against the heavy burdens of taxation proposed in Germany and France for military purposes.

**THIS YEAR'S "OVERLAND."**

By increasing the power, reducing the weight and reducing the price, the makers of the "Overland" have met the requirements of motor car users.

The cleansing of the bottom of an ocean-going vessel is now accomplished by a machine without leaving the water.

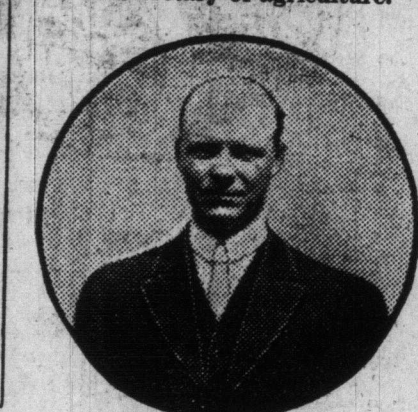

### Alleged Bank Robber Arrested at Atlanta

J. M. Harris, Thought to Be Connected With Bank of Montreal Robbery, in Charge.

ATLANTA, Ga., March 1.—J. M. Harris, alias J. P. Montague, was identified here last night by private detectives as one of the men reputed to have been connected with the robbery of the Bank of Montreal at New Westminster, B.C., of \$272,000. Harris also is believed to be one of the men who attacked Police Lieut. Bernard J. Burns in a Chicago saloon last September, the authorities say. Identification of the accused man here was made by photographs and Bertillon measurements. Harris was being held by the police in connection with the attempted robbery of a bank at Dalton, Ga., recently.

## The "Auburn" Line

guarantees "the most for the money"—in every particular. No improvement has been adopted without one entire year of testing. No complicated mechanism is included in the construction. Among popular-priced cars, the "Auburn" is a triumph—absolutely.

### 38 Years of Knowing How

—that's why the "Auburn" has established a standard of motor-car value.

It is 38 years since the Company now making the "Auburn" started in business. They have won a reputation as the most careful of manufacturers, and they insist on the last degree of perfection in any product before it is marketed.

Every "Auburn" feature is bound to satisfy. And no other car made, selling at the same money, gives you so many features that are truly practical and necessary to the present-day conception of automobile construction.

### A Model for Every Pocket

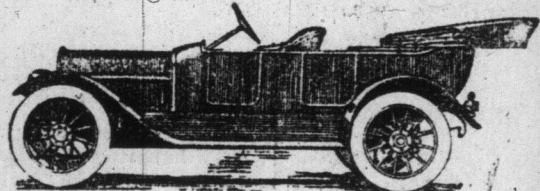

"Auburn" automobiles comprise fourteen different types, from the business man's roadster to the luxurious limousine. Engines of both four and six cylinders.

There can be no distinction, however, as to quality. Each model gives maximum power—maximum service. Each is a handsome up-to-the-season car, ready to carry you over roads and hills of the worst nature—just as ready to race along a modern highway at express-train speed or glide along a boulevard with the motor scarcely purring.

Ask us to-day to prove what we say about the "Auburn" line.
