RECOMMENDATIONS WERE WITHDRAWN

(Continued from page 1.)

road engineer and the mayor then suggested that another resolution, rescinding the last arrangement might be in order.

Commissioner Fisher suggested that it might be better to let the matter of this grade lie over until the duties of the engineer were defined and this suggestion was adopted.

Market Square Plans

The improvements for Market square were then taken up by Com. Fisher, who moved that the plans previously submitted be adopted. The only question at issue was the advisability of closing the section between the street car tracks and the north side of the flower bed, and reserving it for a safety station. Com. Fisher favored leaving it open, but remarked that he did not know that he would have a second.

Commissioner McLellan said that he did not think it necessary to raise questions about support and seconders; he was satisfied that each commissioner was anxious to do his duty and pass on each matter according to his best judgment and the public interest. He explained the danger of allowing this narrow space to be used by both pedestrians and vehicles.

Com. Fisher said he was not convinced on this matter, but he could not conscientiously recommend anything else. It was suggested that the matter be brought up again in council for action, and this was agreed to. Co. Fisher meanwhile asking for suggestions regarding the proposed enclosure.

Conflicting Authority

The by-law relating to sidewalk obstructions, which had been referred back, was brought up by Com. Fisher, who reported that he found no necessity for any change in its wording. The matter at issue was the right given to the commissioner of public works to grant permits for obstructions without reference to the commissioner of public safety.

Com. Wignore asked what would be the good of the commissioner granting a permit for a gasoline stand on the sidewalk if the department of public safety would not grant a permit for a tank. Com. McLellan said that, while it was the duty of the department of public

LIEUT. CARTER WAS IN THICK OF IT

Tells of Most Strenuous Time in Trenches

MANY BEST FRIENDS GONE

Explains in Letter How His Cable Home Came to Be Dated in England - Resting in Quiet Village

E. S. Carter, of Fair Vale, received a letter from his son, Lieut. Arthur Carter, of the York and Lancaster Regiment, dated July 7, in France, in which he explains why his cable of July 12 was dated from England. He had sent it by mail to a friend there to forward. His letter, if not wealthy in detail, is interesting. He writes:

"I am having a wire sent you by _____, to say I am quite safe and resting after a most strenuous time in the trenches. We attacked as you have read, and as is invariably the case, our losses were considerable, how considerable I may not say. I was in the trenches with a section of machine guns for five and a half days of our bombardment and in our second line doing overhead fire during the actual attack. The shell fire was heavy and everyone who came out of the scrap in whatever capacity he may have acted, was exceedingly fortunate.

I have lost many of my best friends, but the honor of their loss has as yet failed to come home to us, except at rare moments. The chief effect is a settled depression; the result of distressing sights, loss of sleep—five hours in three nights—and the reaction.

I can say little more as secrecy is all important.

We are resting in a little country village, where it is as quiet and peaceful as Fair Vale, a most delightful and refreshing change after our experiences of a few days ago.

I am due for leave shortly—July 22—but leave is not certain.

We shall be resting for some time, I think, so do not worry about me for a long while now.

PTE. KUHRING HAS VERY CLOSE CALL

Three Times Buried By Shells During Hot Fire

ESCAPE MIRACULOUS

Shells Falling Every Ten Seconds— Re-assuring Letter to Mother Comes From Miss Margaret Hare, Nurse at Clearing Station

Word has just reached Mrs. G. A. Kuhring, wife of Rev. (Capt.) Kuhring, that her son, Pte. Gustave Kuhring, who is a member of a well-known artillery unit, escaped miraculously at the front under heavy fire, on June 10. The unit, with which he was serving, was under a very heavy shell fire, shells falling at the rate of one every ten seconds. One exploded near where Pte. Kuhring was standing, burying him completely, except for his head. With presence of mind he had held himself rigid at the shock came and so was in such a position that he could breathe. The officers and men set to work like Trojans to dig him out. He was just about free from his perilous position when another shell burst near him and again he was buried. Again he was dug out, only to suffer for a third time a like experience. He was removed to No. 9 Clearing Hospital, where he was looked after by a St. John nurse, Miss Margaret Hare. It was found that as a result of his awful experience he fortunately suffered only bruises and abrasions and was rendered lame. He was forwarded to a base hospital.

It is worthy of note that the nurses at the front must be busy indeed during days of heavy fighting, and in the time in the midst of their trying and arduous labors to write to parents of their loved ones, and to assure them as to the state of their injuries.

LOCAL NEWS

LOCAL SHIPPING

The schooner Vineyard, Captain Bunker, arrived in port last evening with a cargo of coal.

DAMAGED IN STORM

It is estimated that more than \$1,000 damage was done to the wharves of Seaside Park and Duck Cove during the storm of last Friday night. The wind and seas badly battered the wharves, and the nets were torn from the poles.

TIME EXTENDED

The Board of Trade has been advised that the period for filing objections to the proposed changes in Canadian Freight Classification No. 17 and Supplement No. 1, has been extended from thirty days to three months.

GOOD FRUIT CROP

New Brunswick's fruit crops are now reaching the best showing in years. Apples are the main portion of this crop. The set of this fruit is splendid and the prospect is that there will be one of the largest crops on record. So far the weather has been ideal, and the only fear is that wet weather later in the summer may cause scab.

VACCINATION

Many children are taking advantage of the free vaccination in the Board of Health rooms, begun today, and Dr. G. G. Melvin, medical health officer, was kept quite busy attending to them. Parents seem to be realising more than ever that every precaution is necessary. Vaccination is now one of the requisites before a child is permitted to start his career in the public schools.

DOCTORING MOLASSES

Molasses at the present time is demanding a very high price, so much so, that it is almost being considered a luxury. But to buy it and then not to get one's money worth is the experience of certain families in this city. It is understood on good authority that certain people in certain vicinities are selling molasses that is being watered or otherwise doctoring. Very little is known of the real facts as yet, but it is understood that the matter is receiving the attention of the proper authorities, and will be thoroughly investigated. Complaints have reached those who ought to know.

NO PASSPORTS NECESSARY

A Hartford, Conn., gentleman with a German name, but who says he is a native born American, has written the St. John Board of Trade for information as to the need of passports. He is desirous of spending a few weeks in New Brunswick with his wife, who has friends here, but he has been informed by the British vice-consul that a passport will be required of him.

The secretary has written him that no passports are necessary. Secretary W. D. Scott, of the Department of Interior, Ottawa, has issued a circular which is very specific on this point.

For general information the following extracts from this circular are appended:

"Passports are entirely unnecessary; they have never been called for in the past, are not now, and are not likely to be so, as far as travel between the United States and Canada is concerned."

"All United States citizens, whether by birth or naturalization, are accorded the same treatment. Persons born in Germany, Austro-Hungary, Bulgaria or Turkey, and who still remain citizens of one or other of these countries, should not visit Canada at this time. Persons born in one or other of the countries named, but who have been naturalized in the United States, may visit Canada if they so desire, but they should carry their United States naturalization papers as a means of identification. Persons who are citizens of friendly or neutral countries may visit Canada with the same freedom accorded to United States citizens."

THE SOARING PRICES OF THE THINGS WE EAT

The prices of commodities have steadily climbed since the first of the year and are continuing to do so. Canned beef and sugar have taken the lead, beef having advanced in price to the wholesaler one dollar a dozen. Last year canned beef was being bought by the wholesaler at \$2.50 now it costs \$4.50, thus costing the consumer about forty cents a pound. Sugar, which cost at the beginning of the year \$6.70 a hundred, now costs \$8.25. Beans, which have been doing airplane stunts, have now struck \$6.25 a bushel, an increase of \$2.25 since the beginning of the year, and in some cases they cannot be produced any price. Canned corn has followed suit and have kept advancing until they have reached the \$1.75 a dozen mark to the wholesaler, and the consumer in the vicinity of twenty cents a can. Jams are also on the climb and have jumped from \$1.15 a case to \$1.85. Marmalades are gradually coming and have finally reached an advance of fifty cents a case to the wholesaler. Other lines of canned goods including tomatoes, corn and peas have advanced from \$2.10 a case to \$2.75. Pickles are not being left behind as they have also advanced from \$2 a case to \$2.85.

Canned milk, which has been stationary for several years, has advanced from \$5.60 a case to \$6. All lines of teas have advanced ten cents a pound and thirty cent teas have been taken off the market.

ELLEN MONTHS IN JAIL

Last evening Detective Barrett found Edith Belding in the vicinity of St. Patrick street and brought her to central station, where she spent the night. This morning she was arraigned before the court on charge of luring and luring. This woman was just allowed out of jail a few weeks ago with the understanding that she would leave the city. When asked why she did not go, she replied that she was waiting for her children and she would get them as soon as they were sent to Stendal, Germany. Her husband is at the front, and her three children are at present in the care of the Children's Aid Society.

PRISONERS IN GERMANY

Private John T. Saunders, son of Mrs. Charles Saunders of St. Mary's, who was taken prisoner by the Germans early in June, is now at Stendal, Germany. John G. Boyd of Fredericton, has received word that his son, Private Fred W. Boyd, is now a prisoner at Dalmen. Both soldiers were in the 4th Mounted Rifles.

Money-Saving Days In Our Men's Custom Tailoring Department

\$25.00 CUSTOM-MADE SUITS For \$20.00 Each

\$26.00 CUSTOM-MADE SUITS

This is our annual summer offer, and because of the increased cost of woolsens it is greater in value-giving than ever before. If we had to go into the market and buy these woolsens at present prices we couldn't begin to offer this remarkable chance, and it will be your loss if you fail to take advantage of it.

The fabrics are tweeds and worsteds and represent the latest spring patterns and color effects.

The tailoring is guaranteed, of course—if the fit doesn't satisfy you, you needn't accept the suit.

We have in addition to the above offer, a few suit lengths of the celebrated hand-woven Irish Homespun—directly imported by ourselves—which we have been tailoring for \$28 per suit. We will make these now to clear for \$22.50.
