PREMIER AT DESK AGAIN UNTIL FALL
Ottawa, Aug. 14.—Sir Robert Borden was again at his desk this morning. He

WASH one of your fine lace collars with Ivory Soap. Notice how clear it is in color. How much it feels like a brand new piece. How fresh and unworn it looks in every thread. That shows the quality of Ivory Soap—its mildness, purity and freedom from uncombined alkali.

To Wash Real Lace Collars and Other Fine Laces

Place the lace to a piece of clean white muslin so that each point and picot is held firmly in place. Make a good lather of Ivory Soap and warm water and let the lace soak for thirty minutes. Then alternately press between hands and dip in the water until clean. Do not rub. If necessary, use a second clean sud of Ivory Soap. Then rinse in clear water, next in blue water and lastly in a thin starch. Tack on a board, stretching the muslin evenly. When nearly dry, remove from the board and press thoroughly through the muslin. Do not put iron on the lace. When dry, cut the basting threads and you will find the lace like new.

Removes Hairy Growths Without Pain or Bother

(Modes of Today.)
It is not necessary to use a painful process to remove hairy growths, for with a little delatone handy you can keep the skin entirely free from these beauty destroyers. To remove hair, make a stiff paste with a little powdered delatone and water. Spread this on the hairy surface and in about two minutes rub off, wash the skin and the hairs are gone. To guard against disappointment, be careful to get real delatone.

How a Mouse Sold a Hoosier Kitchen Cabinet

A well known doctor in a neighboring town had an occasion to go out into the kitchen one morning, and just as he went in the girl was getting ready to make a cake. So as she put the bowl down in the sack to take out some flour, out jumped a mouse and ran across the floor. He made believe that he did not see it, just to see what the girl would do, and she went right on and was going to make the cake out of the flour just as if nothing happened. The doctor said: "My Lord! Are you going to use that our! Did you not see that mouse jump out of that sack! You throw every bit of that flour away. Who knows where that mouse has been, what disease germs he might have on his body. Why, we might all have died from that pecky little mouse. I am going to put a Hoosier Kitchen Cabinet in now.
