Continuance of the western section as formerly will depend, however, entirely upon the attitude of Acadia, U. N. B.'s age-long football rival, which will not be definitely known until the regular intercollogiate football meeting which follows the opening of the last of the Maritime Universities, early in October. There is a feeling that Acadia may consider its action in withdrawing from the section and the probability that the western section may function again this year.

Liberal Pledge to Adopt Radical Recommedations re Freight Rates Helps All -Switches Coal Trade Also From Portland to Here.

"Saint John and other Maritime industries are bound to get a great boost now," said George McAvity Blaard today in commenting on the good news of the Maritime Probe Report and Recommendations, laid before the Government yesterday. The President of the new Eastern Coal Docks, Ltd., finds the advance summary of the re-port fulfils our highest hopes for Winterport trade improvement. "We see that freight rate reduc-

tions are advised," he said further, "and don't let us forget that the Right Hon. Mackensie King has been telling us that whatever is advised in this report will be car-ried out. So that's that. This is bound to mean a better chance for Maritime industries—and we have a few of them here in Saint John-to reach middle and western Canada markets. It is going to help Saint John in other ways, toonotably in shipping. It is going to give an important advantage to the firm of which I am the President, for we will have more than one advantage over Portland and other Maine routes in shipping coal through to Upper Canada. are getting cheaper land freight rates. We can also ship coal through Saint John cheaper than they can by reason of the cheaper shipping facilities now being built here by our company. These fa-cilities are without equal in Port-

"There is more good news yet to come and we look forward to the publication of this Duncan report in full with pleasure. The Montreal Gazette says the recommenda-tions are radical—let us note that and let us also note the results of the Liberal move to nationalize this port, as well as the decision of Sir Henry Thornton to develop more intensively the traffic facili-ties owned and to be owned by the Government Railways in the har-bor proper."

Letters to the Editor
