# HOBO KING IS IN VANCOUVER

J. J. Roche Arrives There With Bride-Loses \$30,-000 Wager-Speaks Eleven Languages.

Victoria, B. C., Oct. 17(By Canadian Press)—Many strange people have come to Victoria in the course of worldwide perambulations, but there is now on the island a more than remarkeble wanderer in the person of Captain J. J. Roche, who brought his bride here recently.

Roche, who brought his bride here recently.

The name of J. J. Roche will convey little, but as H. B. (Hobo) King, with the familiar arrow pointing to the cardinal points of the compass, many people have come across his sign manual in add places of the world.

Mr. Roche has been receiving a great deal of newspaper space owing to his romantic marriage in Seattle, having accidently disclosed his identity, and thereby earning a handsome bonus for the discoverer, although it loses him his latest wager.

He has gladly sacrificed the wager and he has spent a considerable sum fixing up a home for Mrs. Roche, while he hies hinself to Alaska to mush across the Barren Lands back to civilization. He is said to have bet a New Yorker \$30,000 that he could tramp the country from one end to the other, earning his living as he went along, and without disclosing his identity.

Money is no immediate object to him; he's a hobo from choice. He sporks eleven languages, acquired, he laughingly states, in securing food in two to the laughingly states.

foreign lands.

Was in Great War.

His experience would fill volumes. He lost two fingers in the war, having gone overseas with a Canadian battalion, being a native of Canada, and has the marks of several snakesbites on his wrists and hands. The latest was an attack at Yuma, Arizona, by a rattle-snake which had coiled up in his clothing while he was bathing in a creek. argument was begun in the supreme court, where it afforded much amuse-

WAS WRITING THE HISTORY OF THE

Two Volumes.

Sir Julian Corbett Dead in England—Had Completed

London, Sept. 22.—(By mail.)—The leath of Sir Julian Stafford Corbett, he official naval historian of the war, ook place at Stopham, near Pulboraugh, yesterday morning. He had been pending a holiday with his family at Stopham, and had appeared to be extensely well in health. Yesterday morning his relatives in London were informed that he had been taken ill the night before, and this was quickly ollowed by the news that he had died. Sir Julian Corbett, Director of the Historical Section, Committee of Imperial Defence, had completed the first two volumes of the official naval history of the war. Able as were his earlier works, it is by the plan he laid down for telling the story of the war at sea, as well as by the manner in which he carried out the first portion of his great task, that he will be ultimately judged. There can be little loubt that the verdict of posterity will be not less favorable than that of his contemporaries. In him the nation has ost a naval historian of remarkable rifts, who combined a profound and letailed knowledge of sea power with breadth of view worthy to be compared with that of Mahan.

PLAN TO FOUND EGG CITY.

Ontario Seeks to Win Hen-Laying Championship of World.

Toronto, Oct. 17—An "Egg City" which eventually will accommodate 100,000 layers is to be established north of Toronto. The community will be 500 acres in extent and will be subdivided into seventy-five poultry plants, each owned independently, but worked on a semi-co-operative basis. One hundred cases of eggs a day, it is estimated, will be produced when the city is fully developed.

The plan of the promoters is to develop the community along the lines used in establishing the City of Pataluma, Cal., which was organized and built on the production of white leg-

### FIFTY YEARS HE SERVED AS VICAR

Prebendary Harvey's Father Held Same Charge for 26

London, Sept. 20.—(By mail.)—
Prebendary Francis Clyde Harvey,
Vicar of Hailsham, East Sussex, died
on Monday night, in his seventy-ninth
year. Only last June he celebrated his
jubilee as vicar of the parish, and before him his father held the living
from 1846 to 1872.

Prebendary Harvey, who, beside
Hailsham, had held only one appointment, that of New Radford, Nottingham, from 1868 to 1872, was a wellknown figure throughout Sussex. Educated at Trinity College, Cambridge,
he distinguished himself on the river
and the cricket-field, rowing in the
Trial Eights, and being a Quidnunc.
Later he played cricket for the Gentlemen of Sussex. Throughout his
long connection with Hailsham he
played a prominent part in the public
life of the town and county. On the
formation of the parish councils in
1894 he became chairman of the Hailsham
and Council and held that position until his retirement in 1919. Mr. Harvey
was also a member of the Hailsham
and District Group of Council School
Managers, and was one of the original
members of the East Sussex County
Education Authority, being co-opted in
1903 and retiring from the office last

year. He was appointed a Prebend-ary of Chichester Cathedral in 1914, and had been a member of the Bishop of Chichester's Finance Board since its establishment, Prebendary Harvey

had ten children, five sons and five daughters. All his sons served during the tour of the Prince of Wales in the war, and two were killed. Of the surviving sons, one is curate-in-charge at Polegate, Major C. O. Harvey acted

Mother, it can't be done; Ive tried all the varieties of Strictly Fresh. 'New Laid, etc, etc, but I cannot depend on them at all."

THE old story, and repeated daily in thousands of Canadian homes. The egg of quality, for which there is a natural demand and eager desire, is hard to obtain.

There is a solution and it rests with the consumer to demand eggs that are graded according to the Government standard grades.

# A Universal Food

Few people realize how large a share of the world's food supply is provided by the hen. Eggs serve as human food the world over, and the variety of dishes in which eggs are included is well-nigh infinite. In Europe, Asia, darkest Africa, America-among civilized nations and barbarous people alike-eggs have been an important item in the food of mankind since history began. Their

value as nourishment ranks even ahead of milk. They contain all the elements needed by the human body for energy, growth and repair. Eggs contain the vitamines necessary to life and health.

Eggs are easy to digest, easy to cook and prepare. Use more eggs—eggs on the table, eggs in puddings, cake and custards, but make sure that you ask for graded eggs.

Ask for 'Specials,' 'Extras,' 'Firsts' or 'Seconds'

Eggs displayed for sale in containers which are marked or labelled with the name of any Government grade, must be equal to or better than such class or grade. This is your guarantee that the eggs you buy, if so marked, are according to Government standard grades.
