248-260 King Street, West End, and 267 King St., West.

### MORNING NEWS OVER THE WIRE

Favorable responses are understood to have been received today from all but one of the powers to which the United States suggested a conference on reduction of armaments and related questions. Harry G. Hawley, who, in May, 1919, was rescued from the Atlantic ocean in an attempt to fly from Newfoundland to Ireland, was killed on the Hendon flying field yesterday.

An encounter took place recently between United States officers and liquor smugglers at Whiting, directly across from Grand Manan. Liquor was being landed into cars from the boat when the officers appeared on the scene. All but one of the men fled for the woods. The officers opened fire and one man, T. Cameron, was struck in the hip. He, together with John Cannon of Eastport, was arrested, and a large quantity of liquor was seized.

Several persons were injured yesterday as a result of a battle between strike breakers and persons sympathizing with the strike of the employees of the Berlin mills of the International Paper Co., at Berlin, N. H. It was finally necessary for the manager to send the strike breakers out of town. They were struck and rotten eggs on their way to the station. The company are unable to operate their mills unless the strikers return the plant will be closed down for five months.

Mrs. Ada Park, of Brockton, former of St. John, was murdered at her home Sunday last by a lodger named How-

ley, who later turned the revolver on himself and died from the effects of the bullets. Mrs. Park has one daughter, Frances, aged ten, living with an aunt in this city, besides three other children. The youngest child is six years old and the eldest twelve. Howley had proposed to Mrs. Park, a widow, on several occasions and she had rejected him. Finally on Sunday night he shot her and then fired on himself. He was later discovered in a weak condition from loss of blood and taken to a hospital where he died soon after.

**THE LONGSHOREMEN OF NEWFOUNDLAND RESUME**  
St. John's, Nfld., July 13.—The Longshoremen's strike was temporarily adjusted yesterday and work resumed. The men and their employers agreed to effect a permanent settlement before the end of the month.

**BLACKHAND IN ONTARIO.**  
Hamilton, Ont., July 13.—A black-hand letter has been received by Mrs. W. Filigi, demanding the delivery of \$1,000 on pain of death. The police are protecting the home because of recent attempts to dynamite homes of Italians by blackhanders.

**TO GET PRIZE MONEY.**  
St. John's, Nfld., July 13.—Payment of the prize money demanded by naval reservists who served with the British navy during the war was recommended yesterday by a special committee appointed by the government to investigate the men's claims.

### NEWS NOTES ABOUT PROMINENT BAPTISTS

(Maritime Baptist)  
The Rev. J. H. Jenner has returned after his outing in New England and is preaching to his own congregation, Charlotte Street church, West St. John. During the absence from St. John of the Rev. G. D. Hudson and family on vacation during the month of July, the Rev. R. Osmond Morse is the supply at the Victoria Street church.

The Rev. P. C. Clark has become pastor of the United Baptist church at Mars Hill, Maine, in succession to the Rev. George B. MacDonald, now of the West End church, Halifax, N. S. A public reception was given the pastor and Mrs. Clark on June 21.

The Rev. Neil MacLean has accepted a call to the church at West Medway, Mass., and will close his work at Plaster Rock on Sunday August 7. He has been on the Tobique more than six years.

### THE CELEBRATION OF "THE GLORIOUS TWELFTH"

About five thousand Orangemen visited Moncton yesterday to attend the annual celebration of the battle of the Boyne. Orangemen were present from St. John, Fredericton, Sackville, Pettitcodiac, Sackville and many other points. A long procession headed by the provincial grand master, S. B. Bustin, of St. John, marched through the principal streets of the city attended by several bands. At a meeting following the procession several resolutions were passed expressing unwavering allegiance to the principles of the Orange association, extending sympathy to their brethren in Ireland in their fight against the Sinn Fein; against separate schools; against bi-lingualism except in the province of Quebec, and against the Self-determination for Ireland League.

Celebrations were also held yesterday at Woodstock, Truro, St. Andrews, Nashua Park and Lorneville. More than 1,000 people attended the Nashua Park celebration and about 400 were at Lorneville.

**HOT WEATHER AFFECTS GLACIERS OF THE ALPS.**  
Bern, July 13.—The glaciers on the Swiss Alps are said to be receding, on account of the extraordinarily hot weather. This change is making ascent of the mountains dangerous and more difficult.

### THE WATER SUPPLY.

Members of the Board of Health, accompanied by city officials, inspected the lakes from which the city draws its water supply yesterday afternoon. The party included Chairman John Kelly, George Blake, Mrs. R. J. Hooper, W. H. Golding, Secretary T. M. Burns and Dr. Wm. Warwick of the health board, Commissioner John B. Jones and Superintendent S. A. Sewell of the water department, and Dr. H. J. Abramson, provincial pathologist. The party found that the sluice-way on the stream that flows from Loch Lomond into the reservoir was exposed, thus affording opportunity for pollution. All along the roadway stretches of the big lake, lumber shacks, cottages with privies near the shore, evidence of cattle wading in the water, and trucks denoting the watering and bathing of horses were discernible.

**MANY FINED FOR SPEEDING.**  
Provincial Constable R. Crawford last night arrested American automobilists, one from New York and one from Massachusetts, for speeding on the Rotsey road. The driver of the New York car, who was an American police officer, pleaded guilty before Magistrate Anderson and was fined \$10 with costs. The driver of the Massachusetts car was fined \$25, as his case was considered more serious. Magistrate Anderson also fined a Moncton man \$10 for speeding and two Main drivers \$10 and \$5 respectively, for the same offense. Magistrate Allingham imposed fines ranging from \$5 to \$10 on four men arraigned on speeding charges.

### TWO FROZEN IN TYROL.

First Fatalities of the Mountain-Climbing Season in That Area.  
Berne, July 13.—The first fatalities of the mountain-climbing season in Northern Austria Tyrol were reported today, when news came that a party of nine persons had been caught by a snow storm at a high elevation and forced to spend the night there, two of them being frozen to death and the others having their hands and feet frozen.

A rescue party brought the dead and the injured survivors to a nearby village the following morning.  
**W. G. FITZGERALD DEAD.**  
London, Ont., July 13.—Wm. G. Fitzgerald, aged forty-seven, actuary of the Northern Life Assurance Company, and one of the best known financial men in the province, died unexpectedly at his home here last night. He was born in Toronto and was the eldest son of the late Wm. Fitzgerald, for many years superintendent of the insurance at Ottawa.

### EPIDEMIC OF SUICIDE.

Rome, June 28.—(A. P., by Mail).—A wave of love tragedies is sweeping through Italy. Not a day passes without a suicide or murder, generally because of jealousy. Some cases have been noted lately where girls have attempted to end their lives when they discovered that their sweet hearts were married men.

### THE SEAL INDUSTRY

Large Catch by Indians Expected This Year—Half a Million Dollars for Canada.

Victoria, B. C., July 13.—Fur-sealing is coming back, and on the west coast of Vancouver Island alone the Indians this summer will probably capture two thousand fur seals. Pelagic sealing in British Columbia and Alaskan waters, at one time was woven around with the romance of adventure, wealth and international strife. The, through greed and indiscriminate methods of slaughter practised by the sealers and a lack of international understanding upon the question of conservation, the industry is all but dead. The seal, which once contained as many as 2,000,000 animals, is bound to increase rapidly. There is every probability that as many as one hundred thousand animals may be taken each year, made up wholly of surplus males selected with reference to their economic value, and Canada may ultimately be expected to receive half a million dollars annually from this business.
