Colon Sheep to Island From Idaho

RAISING PERSIAN LAMB

Iran Karakule Sheep From Desert of Bokhara Now on Farm near Charlottetown — There are 318 Animals in Lot From Idaho

(Canadian Press) Toronto, Oct. 22.—There passed up Toronto yesterday on their way to the island of St. John's, a ship of 818 Lincoln sheep which will be used in extending the famous fur farming industry of the island province. The shipment was made by J. W. Jones, B. S. A., of Charlottetown, whose report to the commission on fur farming in Idaho has made him a recognized authority on the breeding and raising of scarlet animals in captivity. Jones, in an interview last night, said the basis of the recent, and seemed likely to be the most successful of the fur raising industry in Idaho is that of raising Persian lambs. "We have now on a farm near Charlottetown, a herd of eleven pure bred skule sheep, which were brought from the Desert of Bokhara to us here. These animals are used in the native country to produce Persian, astachan, krimmer and broadtail, shawl fur. These different kinds of fur come from the offspring of the skule sheep, the very best Persian fur being secured from the young animals soon after birth as possible.

MONTEREAL DECISION IN A MARRIAGE CASE

Judge Charbonneau Grants Annulment to Woman—Two Grounds Cited

Montreal, Oct. 22.—Annulment of the marriage celebration between Miss L. A. J. and Joseph Audrin on August 20 in the Isle of Jersey, was granted yesterday by Judge Charbonneau on petition of the former. The judge's decision on the grounds of "falsity and because the defendant is a minor." The judge further said that, according to French law, publication of the marriage must be made by an officer of the state of the domicile of the parties in the city hall, and the surnames, profession, domicile and residence of the future spouses, as well as of their parents and, further, this publication, from which no objection can be obtained, must precede the marriage contracted in a foreign country between French subjects, or between a French subject and a foreigner. The marriage in the present case, was not conducted by the publications mentioned, therefore the marriage could be annulled by the parties themselves, according to the Napoleonic code, considering the parties are at the present time domiciled in Montreal.

MEN SLAIN FOR GOLD IN TEETH

Refugees Bring Shocking Tales From Mexico

GRAVES DESECRATED

Nuns Driven From Convent Under Fire — Hospital, Filled With Sick and Wounded, Put to The Torch

Galveston, Texas, Oct. 22.—Three hundred and sixty-one refugees from Mexico, most of them destitute and some of them victims of the long, disastrous siege and subsequent capture of Torreon by the Constitutionalists, have reached Galveston by steamer from Tampico. They told stories of guerrilla warfare between the Mexican factions, of robbery and cruelty. And thirty-three Catholic nuns, who were among the refugees, told of being driven at midnight, under fire, from their convent, of hospitals put to the torch, and men killed for the gold in their teeth. Mother Mary Vincent of the Order of the Incarnate Word was in charge of the party of nuns, who left Torreon valued at \$75,000 in gold. Their convent is near Torreon, at Gomez Palacios, which was taken by the Constitutionalists on July 22 as a base for their siege of the larger city. The nuns fled from the convent when the fighting threatened its destruction, and they were sheltered at the British consulate for seven weeks. "The warring factions apparently have no mercy for each other," said Mother Vincent. "At Gomez Palacios we witnessed many scenes of bloodshed and crime. Hospitals filled with sick and wounded were put to the torch and men were killed for the gold in their teeth. Our party was fired upon as we fled from our academy to the British consulate. We witnessed many indignities to church property, and even graves of departed bishops and rich personages are being despoiled."

OTHER OUTRAGES

San Diego, Cal., Oct. 21.—Tales of alleged outrages in the state and city of Durango, Mexico, were related today at Red Cross headquarters by refugees who arrived yesterday from Gulf of California ports. "One of the worst outrages" said Mrs. Mary Towelton of Durango, "was that inflicted on a young American and his wife at Durango. The revolutionists of General Carranza seized them in their home. They raped the husband and tied his wife to a bed, where they finally killed her. "Twenty-seven Americans were lined up against a building in Durango to be shot by the rebels, but just as the first man was to be executed a Mexican maid rushed in front of him and pleaded for his life. Other Mexican girls joined in the plea for mercy, and the Americans were spared."

STOLEN LIQUOR WAS BURIED IN THE SAND

C. P. R. Station at Caribou Broken Into—Suspect is Arrested

The C. P. R. station at Caribou was broken into on Sunday and two barrels of liquor were stolen. Special Police Officer A. R. Foster was sent on the case. A man living near the station was suspected, and on investigation the liquor was found buried in sand in the cellar of the suspect's home. The arrest of Elmer Cochran followed. He was brought before Trial Justice Robertson on Monday and was bound over to appear before the circuit court in Houlton on the second Tuesday of November. The door of the station was smashed in and two barrels of liquor, including ale, porter and whiskey, were stolen. The prisoner was suspected by Foster as soon as he took the case. He secured a search warrant and went through his house. After a diligent search, he found the bottles of liquor buried in the sand, which makes the floor of the cellar. The liquor had been taken from the barrels and packed in sacks. Mr. Foster arrived in the city this morning on the Boston train, and will remain here a few days.

"You Don't Think They'll Shoot Me Before I Get Out of Town?" He Says to Reporter—Meeting With Board of Trade President This Afternoon

(Canadian Press) New York, Oct. 22.—William Sulzer opened headquarters in a Broadway Hotel today for his campaign to re-establish himself at the state capital. Informally, he plunged into the fight as soon as he stepped from a late train from Albany last night, but from today on, until election on November 4, he planned to conduct an organized campaign with his private secretary, Chester C. Flatt, acting as manager for election to the state assembly. His friends in the sixth assembly district, who succeeded in making him the nominee on the Progressive party ticket, almost immediately after he was deposed as governor, shared his confidence of success. The entry of the deposed governor into the political campaign which is already at a high pitch of excitement over the majority contest with charges and retortings flying everywhere, promises to make the next two weeks at hand, most stirring in a political way. The Fusionists, seeking the election of John Purroy Mitchell as mayor, are guarded in expressing enthusiasm over

THAW STILL HAS HIS EYE ON CANADA

Minister at Ottawa, Asked as to Attitude Should He Win Present Fight and Come to Dominion

Ottawa, Oct. 22.—Harry K. Thaw, fighting at Concord, N. H., against extradition to the state of New York, which would mean his reincarceration in Matteawan asylum as an insane criminal, still cherishes the hope of reaching sanctuary by the Canadian route. His counsel has addressed to the minister of interior a request to be informed whether, in the event of his winning in the present proceedings, he would be allowed to enter Canada, as a through passenger for a foreign country. So far as can be learned, the letter yet remains unanswered; but the probability is that the reply of Hon. Dr. Roche will be a refusal to supply information based upon a hypothetical case. Unofficially it is learned that the view at least would prevail that Thaw would occupy a position altogether different from that in which he was placed himself by the manner of his entry into Canada in the first instance. The communication from Concord indicates that Thaw regards the Canadian route as his only avenue of escape.

UTILITIES COMMISSIONERS IN SESSION HERE TODAY

The monthly meeting of the New Brunswick Public Utilities Commission was held this afternoon at 2:30 o'clock in the provincial government rooms, Prince William street. The chairman, G. O. Dickson Otty, presided with Commissioners A. B. Campbell, K. C. Woodstock and Felix McDonald of Baie Verte. Secretary F. P. Robinson, of Fredericton, present. Only routine business was transacted. The meeting was made for hearing argument in the application of the New Brunswick Telephone Company for permission to abolish the discount to subscribers on tolls between Sackville and Port Elgin, against which the people of Sackville have appealed. The arguments will be heard at the November meeting, but it is probable that the decision will not be given until later.

BROTHERS BUT THE NAMES NOT ALIKE

It is rather perplexing that two brothers should have the same names, but this was the case in the police court this morning, when two men appeared on charge of causing a disturbance in the public street by quarrelling over the possession of a horse. The men are Samuel Katusky and Charles Gallant. The former said that Gallant had bargained to cure his brother's horse of a spavin. He treated the horse, but the witness said the animal was worse than ever. A few days ago he started to remove the horse from the barn and take it somewhere else. The witness met him on the way up the street, and he admitted he did quarrel about the horse. David Carleton, who said he is a brother of Katusky, testified. Gallant himself gave evidence and said he was removing the horse because Katusky was going to put it in harness and it wasn't fit for work. Katusky was dismissed, but Gallant was fined \$8 or two months in jail. One prisoner, charged with drunkenness, was fined \$8. Three others were fined \$8 each or two months in jail.

Baseball Rumor

New York, Oct. 22.—A report says that Edward Kometzky, first baseman of the St. Louis Cardinals, has been sold or traded to the New York Giants, while third baseman Mowrey will be turned over by St. Louis to the Boston Nationals. It was said that Fred Merkle would probably figure in the deal.

Sulzer Making Things Warmer in New York

Deposed Governor Plunges Headlong Into Election Fight and Sets the Already Warm Water Boiling

(Canadian Press) New York, Oct. 22.—William Sulzer opened headquarters in a Broadway Hotel today for his campaign to re-establish himself at the state capital. D., aged seventy-two, pastor of Methodist churches of this city, and one of the most eloquent preachers in the maritime provinces. Few men were so well known or more highly respected. At the time of his death Doctor Rogers was pastor of Fowler street church, St. John's, Newfoundland, one of the finest and most important churches in the province. WILL OF J. J. GORDON

His Property Here and in Nova Scotia Goes to Wife and Sisters

In the probate court today the will of John J. Gordon of Goldbrook, mail maker, was proved. He gives his real estate near Berwick, Kings county, N. S., to his trustees to convey it upon his sister Annie, wife of Thomas H. Johnston of Calgary, mail maker; to his sister or Kate, wife of Ezekiel McLeod of St. John, janitor, and to his wife Elizabeth in equal shares. Should his sister Annie die while married, then on her death it will go to his wife and sister Kate in equal shares. The leasehold property in St. John West he directs his trustees to allow his wife to receive such income thereon until one of his sisters becomes a widow and then to allow his wife and such sister to receive such income until his other sister shall become a widow—then the said leasehold shall be conveyed to the three of them or such of them as shall then be living. If his sister Annie dies while married the leasehold is to be conveyed to his wife and sister Kate. His freehold at Goldbrook he directs his trustees after the expiration of six years from his death to convey to his wife in fee simple—in the meanwhile while his wife has the use of it. The rest of his estate he gives to his wife, and he appoints the Eastern Trust Company trustees. To them probate was issued. The real estate consists of about two thirds of an acre of land at Moospath, near the Three Mile Station, and a property adjoining of the value of about \$4,000, also 200 acres of land at Berwick or Aylesford, N. S., the value of which is at present uncertain; personal property, but which is placed at \$2,500. Messrs. Baxter and Logan are executors.

ROYAL BABE IS HOPE OF EARLY NEW YEAR MONTHS

New York, Oct. 22.—A cable from London published here today, says: There was a ripple of excitement in intimate circles of the royal family today, when it became known that the New Year will bring with it an addition to the family of King George and Queen Mary. The correspondent learned on excellent authority that the interesting event is expected the latter part of February. This explains why Queen Mary has been keeping in the background of the recent social functions, notably the Connaught life wedding. Royal doctors are now in constant attendance at Buckingham Palace. It was their frequent visits which gave the first inkling of the anticipated event. Queen Mary has lately taken a great interest in eugenics. It is said the queen is overjoyed at the prospect. A birth to the reigning sovereigns would be an occasion for great rejoicing throughout Great Britain.

DON'T LIKE STAND TAKEN BY BRITAIN

Diplomatic Exchanges Over Policy as to Mexico

CONCERN IN WASHINGTON

No Wish For Anything That Would Impede American Plans in Regard to Mexican Problem and Dissatisfaction is Not Concealed

(Canadian Press) Washington, Oct. 22.—Diplomatic exchanges between U. S. Ambassador Page and the British Foreign office with regard to Great Britain's attitude in Mexico are likely to continue. Indications that Sir Lionel Carden, British minister to Mexico, does not hold views in sympathy with the American policy toward the Huerta government had caused concern to the Washington government, and while some officials declared that they are not seeking European support at this time, it was plain that they did not desire that any factors should be injected into the situation at present from Europe which would in any way impede the efforts of the United States to deal with the Mexican problem. The administration takes the view that as the "nearest neighbor" to Mexico, the United States should have a free hand in trying to bring about a pacification. It is not unlikely, therefore, that the reported statement of the British minister that the United States did not understand conditions in Mexico will be the subject of further inquiry, with the possibility that the episode may bring out important developments. Officials decline to discuss Ambassador Page's cablegrams, but their dissatisfaction with the attitude of Great Britain was not concealed. Diplomatic circles today took increased interest in the situation, and many diplomats here predicted that the outcome might influence American policy toward Great Britain in other questions pending.

VOLTRUONO HERO GUEST OF HONOR

Captain Inch at Trafalgar Day Dinner of Sons of St. George in New York

New York, Oct. 22.—Captain Francis Inch, hero of the Volturmo disaster, was the guest of honor last night at a dinner given him by Nelson Lodge, Sons of St. George, to mark the one hundred and eighth anniversary of the battle of Trafalgar. The banquet hall of the lodge room was decorated with British and American flags, and the guest of the evening was seated, appropriately enough immediately underneath a shield hung on the wall, bearing the famous message of the British admiral, signalled to his officers and men just before the beginning of the historic engagement: "England expects that every man this day will do his duty." With characteristic modesty, Captain Inch declined to make a speech, and the assembly permitted him his wish, while speakers lauded his bravery.

TALK OF BREAKING THE C. P. R. UP INTO THREE COMPANIES

London, Oct. 22.—The Financial News says: "Canadian rumor is again busy with a conjecture that the C. P. R. Company will be split into three separate concerns, one of the railways of the company, the second of the lands and natural resources possessed by the company, and the third its steamships and hotels." Roosevelt in Brazil Rio Janeiro, Oct. 21.—Colonel Theodore Roosevelt paid his respects to the president of the republic in a lengthy visit yesterday. He then called on Dr. Muller, minister of foreign affairs, and together they inspected the port works and the avenues for which Brazil is noted.

GERMS IN THE MAIL

A New Terror In The Blackmail Game

MILLION IN ENVELOPE

Letters to Wealthy Chicago People Demanding \$2,500 For Serum to Cure Disease Which Writer Says Has Been Imparted By Opening of the Missive

(Canadian Press) Chicago, Ills., Oct. 22.—A blackmail with a new terror is giving the post office secret service men a field in which to exercise their talent. He sends to wealthy families a letter filled with a million or so of deadly germs, which he alleged will at once infect the person opening the letter. Death will occur in nine days from some mysterious fever, which he does not name. But he has a serum to prevent death, and this he will send his victim upon payment of \$2,500. It is more than nine days since Mrs. Frederick M. Steele of Highland Park received the culture bottle, and although she opened the missive and looked curiously at the contents, she is well yet, but worried. Inspector James E. Stuart says other families here received like messages. The letter reads in part: "By opening this letter you have liberated 2,000,000 of healthy bacilli propagated by myself and without a doubt you are infected by this time, but do not become excited—my prophylactic will destroy any number of germs of this disease in the body, if used by the ninth day. "Read further, and do not leave the room as you do not want to infect the whole house. Take off the garments that were exposed to the germs, and leave them spread out on the floor, or burn them, in the next room. Next burn this letter with a match, also in the same room to avoid spreading of the disease. "A copy of this letter and further directions you will find in the germ-proof envelope, but don't open that till later. "Take the germ envelope and leave the room, which it should be advisable to keep locked for six days." Then followed a description of the disease and its symptoms. "Up to the present only about a person in a thousand recuperated after going through all stages of this disease." The writer gave minute details for the transfer of the \$2,500 which he demands. He declares that Mrs. Steele's name was chosen from a list of 300 known to be subscribers to charity. The money, he directs, is to be left at the Grant Monument in Lincoln Park. The letter contained a postpaid substance between the pages. It was turned over to the laboratory. The chemists found germs, but cannot classify them.
