#### Facts You Can't Rub Out

If rents were lower, and light, advertising and other modern business necessities were cheaper in the city stores they would not have to add more profit to the cost of their goods than we do. If they did enough business to control the production of all the makers of good goods in this broad land they would have a monopoly on style and quality. But, fortunately for us, it costs them a whole lot more to do business than it does us, and the makers who supply them are just as anxious to supply us, hence

#### SGNALLING SECTION DOUBLED IN STRENGTH

Capt. T. E. Powers Has Arranged for Increase in Number of Men GOOD PROGRESS WITH and Addition of Up-to-date

Plans are well advanced for the enlarging of the local No. 6 Signalling Section under Capt. Powers, T. E., divisional signalling officer for this district, to twice its

William Street in Good Time present strength, and also providing new and up-to-date apparatus which will place the corps on an even footing with some of the crack signallers of note in the mili-

tor's certificate, which is somewhat unusual and speaks well for the work of the local body.

Capt. Powers with Privates O'Leary and Ballentyne, are now in Pettawawa taking a course of study in advanced signalling. Lieut. Leavitt would probably be promoted to the rank of captain, an honor which he richly deserves, as he has been with the corps and an active worker since its organization some years ago. Capt. Powers would still be divisional officer.

In addition to augmenting the strength in men, it is planned also to add three horses, a cable wagon, ten miles of cable wire, field telephone and a field telegraph to the equipment of the section making it thoroughly up-to-date in every particular, as it is already provided with splendid heliograph instruments, Bigby lamps, etc.

Major Lister, commanding signalling officer for the dominion, is well pleased with the interest displayed by the local corps, and the standing attained in merit, and is heartily in sympathy with the movement to make them still more efficient in the educative study of flashing messages through the air, one of the most valuable aids in the work of modern military manoeuvres.

#### EARLY CLOSING CASES COME UP: ADJOURNED FOR ANOTHER WEEK

H. R. McLellan's Nominations Some Evidence Taken Against Wiezel and Recorder Cites Many Authorities-Charges of Theft and Assault

Some St. John entries were well to the front in Hanks' racing meet at Augusta Maine, and among other horses prominent were some well known here, having been on the Maritime circuit in previous years. Peter Reed, one of H. R. McLellan's string of entries, captured the 2.40 event and a purse of \$300.

Of the St. John horse the Bangor Commercial says: Peter Reed, a chestnut stallion from St. John, drew the pole, got away from the wire a nose to the good and was never headed, though Annie. Walter-Cox's bay mare by Moco, pushed him hard to the stretch. Pope McKinnon's Katherine Kohl was third. Magneto. Commuter and Rose Baron trailed. The heat was stepped in 2.22½.

Gracie Todd, one of Mr. McLellan's entries got sixth place in the 2.18 also on Tuesday Peter Reed's time for the 2.40 in the three heats was 2.22½, 2.24, 2.24½. In the 2.14 pace or 2.11 trot for the \$1,000 purse there were several horses known here as follows:

Bon View in the list is another of Mr. McLellan's entries. El Galo was here three years ago as a colt, Northern Spy will also be remembered as a favorite here as will Brownette, while Miss Letha was formerly a Fredericton mare. On Wednesday the two-year-old trot or pace purse \$200, was won by Rene March, one of Mr. McLellan's entries.

Fred S., another nominated by Mr. McLellan had third place in the 2.22 trot when this event was held over until Thursday after two heats.

# THE STREET PAVING

-Busy Section of Mill Street Finished at Last-Part of the

of the crack signallers of note in the militia world.

At present the local section numbers aine men, with two officers, Capt. Powers and Lieut. Allan Leavitt, but it is planned to increase the strength to eighteen, with three officers, a sergeant major, quarter master sergeant, and other non-coms. and men.

At present practically every member of the corps is the possessor of an instructor's certificate, which is somewhat unusual and speaks well for the work of the local body.

The paving started last week in Prince William street is now finished from the corner of King to Princess street, and many favorable comments are heard of the work which has been done. It is said to be entirely satisfactory.

Creosote blocking was used in the pavement and although the methods employed were somewhat slow and old-fashioned, good progress was made. The old-fashion-
