USE OF WIRELESS TELEGRAPHY AT SEA

COMPLAINTS MADE AGAINST COMPANIES

Refusal to Accept Messages Revives the Proposal Regarding the International Control.

Washington, D. C., March 30.—Possibly the experience of the navy department in its efforts to keep in touch with the dry dock Dewey in its remarkable cruise from the Chesapeake Bay to the Philippines, may result in a concerted attempt to secure an international control within certain limits of wireless telegraph.

The officials have had good reason to believe that in several instances Commander Hosley, in charge of the towing expedition, might have succeeded in communicating with the department when there was genuine apprehension as to the safety of the tow had the shore wireless stations responded to his signals.

Some years ago the German government, whose merchant marine had suffered in this way, made inquiries to ascertain whether there was not a possibility of securing an international agreement like the existing convention for the protection of ocean cables for the regulation of the marine use of wireless telegraph.

MINERS ORDERED OUT BY MITCHELL

WILL NOT WORK AFTER THE FIRST OF APRIL

Operators Decide to Rely Upon Statute of Pennsylvania to Protect Their Property.

New York, March 30.—The following message sent by President George Baer, of the Philadelphia & Reading railway, to John Mitchell, president of the United Mine Workers of America, was made public at the offices of the representatives of the anthracite coal roads in this city to-day:

"Philadelphia, March 30th. To John Mitchell, Indianapolis, Ind. 'Is it true that pending negotiations, you have, as stated in the newspapers, ordered your followers not to work in the anthracite mines after April 1st?'"

"(Signed) 'GEORGE F. BAER.' It was also stated at the operators headquarters here that neither Mr. Baer nor any other of the presidents of the anthracite coal carrying railroads has yet received any word from Indianapolis telling of the order for the hard coal miners to strike on Monday."

It was reported in this city to-day that some of the anthracite railroads had prepared for the strike by hiring men to take the places of those who quit work, but this was denied at the operators headquarters to-day. It was stated that some of the operators had a constabulary force enlisted as was done in the last great strike, but this was discouraged by a majority of the operators, and they decided to rely entirely upon the statute of Pennsylvania to protect their property during the projected strike.

MITCHELL'S STATEMENT.

Indianapolis, Ind., March 30.—President Mitchell, of the United Mine Workers, said to the Associated Press to-day that he had not received the message of President Baer asking if it were true that he had ordered the anthracite miners out pending negotiations. "When I do," said he, "I will send him a copy of the statement given to the Associated Press last night announcing that such action had been taken."

PROPOSALS COMMISSION.

Washington, D. C., March 30.—President Roosevelt to-day authorized the publication of two telegrams received by him last night. They came from John H. Wilder, a chairman of the bituminous coal operators' Association at Indianapolis, and the other from John Mitchell, president of the United Mine Workers of America, and Mr. Robbins, the largest coal operator in the Pittsburgh district.

The telegram from Mr. Wilder proposes that the president appoint a commission to inquire into the wages paid to all classes of labor in coal mines of the territory involved. He proposes that the commission report to the president its findings of facts, together with its recommendations and suggests that the commission have power to administer oaths. The telegram signed by Messrs. Mitchell and Robbins takes issue with the statement made in the telegram signed by Mr. Wilder, saying that it does not represent the real facts. They assert that one-half of the total tonnage of Western Pennsylvania and the operators of the United Mine Workers of America, and Mr. Robbins, the largest coal operator in the Pittsburgh district.

TRIBES WIPE OUT.

Native of Northern Asia Preferred Instant Death to Slow Starvation.

St. Petersburg, March 30.—Horrid accounts are reaching St. Petersburg of cannibalism and starvation among tribes inhabiting the frozen Arctic plain of the Chukotka peninsula, at the extreme northern part of Asia.

Most of the remainder died of starvation during the winter of 1904-5, leaving the inhabitants without means of subsistence. During the winter of 1905-6, winter tribes have died and members of the Omolons and Olofy tribes, when facing starvation, assembled in council and decided that nothing remained but death. They agreed that each head of a family should kill his wife and children and then commit suicide. The tribesmen gathered on a plateau covered with snow and ice and in the darkness of the Arctic winter the Spartan decision was executed, not a single member of the two tribes surviving.

More revolting still is the story of what occurred in a family of the Yukahir tribes. A mother and nine of her children having died of hunger, the father, a surviving daughter and a nephew lived upon the remains, and when they were consumed the father murdered the nephew.

A Russian named Dolganoff, who went to the region to buy furs, reported the situation to the authorities at Yagutsk, Siberia. He entered a snow hut of the Yukahir family while the latter were eating the head of a murdered relative.

Moscow, Idaho, March 30.—The main building of the university of Idaho was completely destroyed by fire early to-day.

OVERCOME BY GAS.

Philadelphia, Pa., March 29.—Ignorance of the mechanic of a gas fixture in a family of Australian immigrants, who arrived here three days ago, were overcome by illuminating gas last night in a tenement house. Schayc Wainster, the father, died to-day at the hospital, and his wife and their three daughters, aged 22, 19 and 14, are said to be dying at the same institution.
