Cough-Cures

Are abundant; but the one best known for its extraordinary anodyne and expectorant qualities is Ayer's Cherry Pectoral. For nearly half a century this preparation has been in greater demand than any other remedy for colds, coughs, bronchitis, and pulmonary complaints in general.

"I suffered for more than eight months from a severe cough accompanied with hemorrhage of the lungs and the expectoration of matter. The physicians gave me up, but my druggist prevailed on me to try

Ayer's Cherry Pectoral.

I did so, and soon began to improve; my lungs healed, the cough ceased, and I became stouter and healthier than I have everbeen before. I would suggest that the name of Ayer's Cherry Pectoral be changed to Elixir of Life, for it certainly saved my life."—F. J. Oliden, Saito, Buenos Ayres.

"A few years ago I took a very bad cold, which settled on my lungs. I had night sweats, a racking cough, and great soreness. My doctor's medicine did me no good. I tried many remedies, but received no benefit; everybody despaired of my recovery. I was advised to use Ayer's Cherry Pectoral, and, as a last resort, did so. From the first dose I obtained relief, and, after using two bottles of it, was completely restored to health."—F. Adams, New Gretna, N. J.
