LEGISLATURE

Partial Cost of the **Consolidated** Statutes.

The Debate on the Address Resumed By Hon, Dr. Pugsley,

Who Made Out the Best Possible **Case for the Government of Which**

> He was Yesterday the Leader in the House.

FREDERICTON, March 30 .- Mr. Morriso was appointed on the special communities on the Winding Ledges dam in place of Mr. Flemming, who is unavoidably absent.

Hon. Mr. Pugsley, in reply to Mr. Hazen, gave a history of the negotiations with regard to the Halifax award. He briefly stated that the position of the matter is this, the dominion government has agreed that a case shall be submitted to the supreme court, but has not yet agreed to the exact terms of the

COST OF THE CONSOLIDATED STAT-

Hen. Mr. Pugsley, in reply to Mr. Flemming, gave the following statement of the amounts paid on account of the consolidation of the statutes:

1901—Hon. A. S. White, on account \$2,200; Lawlor, on account, \$290; G. C. Gerow, stenographer, \$300; J. & A. McMillan, stationery, \$283.30; R. D. Robinson, printing blank forms, \$3.20. Total, \$2,986.50.

1902—Hon. A. S. White, on account, \$4,-300; F. B. Carvell, on account, \$500; R. A. Lawlor, on account, \$500; G. C. Gerow, stenographer, etc., \$316.25. Total, \$5,666.25.

1903—Hon. A. S. White, on account, \$1,200; R. A. Lawlor, on account, \$150; W. H. Trueman, on account, \$450; Telegraph Publishing Co., \$1,500; G. C. Gerow, typewriting, etc., \$150; McLeod, typewriting, etc., \$50; J. & A. McMillan, printing, etc., \$22.60. Total, \$3,-522.60.

The debate on the address was resumed by Hon. Dr. Pugsley, who in the absence of the premier through illness, was leading the house. After some glittering generalities, Dr. Pugsley said: The leader of the opposition has criticized our reference to the Hall-fax fishery award. He admits that we have made out a strong legal case in favor of the claim of New Brunswick, but he has only admitted this since the election. Before we took hold of this matter he had an opportunity of doing something to advance the fisherest of the province in fregard to the fisheries, but he never before intimated that the province had a strong case. One would have thought that, in view of the decision of the judicial committee of the privy council, he would have expressed an opinion before. When we took hold of this matter we found it surrounded by difficulties. Very few public men agreed with us in thinking that we had a case. Now hardly a lawyer of standing differs from us or desies that our case is a good one. But, says the leader of the opposition, although your case is a strong one, you should leave this money in the hands of the dominion government for them to expend. That is a statement I am surprised to hear, that although that money is ours we should give it to the dominion because they are devoting it to a good purpose. That is certainly a novel doctrine. If that money belongs to this province it is our duty as trustees of the people to place it in the provincial treasury so that the people can do what they please with it.

Now, with regard to our estimate of the claim against the dominion government, the value of the shore fisheries of eastern Canada. Therefore, our share of the Halifax award would be about \$1,000,000, and the interest on that sum since the time the award was paid at four per cent, would bring the total amount to which we have a right to about \$2,000,000. This sum, invested at four per cent, would sive us about \$30,000 a year of additional revenue. Now a great deal has been said in regard to the fish bounties

THE Collabor involves the second of the control of the control of the collaboration of the co

of population the province should receive an additional subsidy of \$180,000 a year for all time to come. I deny the fact, as stated by the leader of the opposition, that the effect of this will be to place greater burdens on the people. The effect will be to divert a cortain portion of the dominion revenue to the maintenance of important services with which the provincial government and legislature have to do.

In regard to representation the government rest that it was their chity to look into the question, which they did, and came to the conclusion that under the British North Amprica Act the province had a right to its present representation in parliament. We felt it our duty as a government to express our views to the dominion authorities and passed a minute in council which we laid before them. It seems to me, as it must to anyone who approaches that section calmly and fairly, that the contention the government is making is a fair one. The premier and myself followed up the minutes of council by argument and deeply impressed the federal authorities, and found a desire on the part of the minister of railways to do everything reasonable he could to meet our views on this important subject. Before the speech opening the legislature was delivered a despatch was received from the minister of railways stating that the dominion government would co-operate with us in having the question submitted to the supreme court for the purpose of having the matter determined. Therefore his honor, in opening the legislature, spoke with the asurance of the hinlister of railways.

I was also glad to observe that the arrangement existing between the province and the N. B. Railway Co. for the reacquiring of a certain portion of that company's lands, to be opened up for settlement, met with the approval of the leader of the opposition. Through the efforts of the Hon. Mr. Costigan the compeny has dealt in a liberal manner with the province existence in the land at a nominal price.

There is also a paragraph in the speech in regard

fry.

Mr. Movrisey moved the adjournment of the debate, and the house adjourned at six o'clock. FREDERICTON, March 31. - The house met at three o'clock. The Hon. Mr. Dunn, in reply to Mr. Hazen, said

since the publication of the Hickman hand book (so called) another book office and from the department here. The cost of publishing was \$3,167 and \$650 was paid to Dr. Hannay for pre-

paring the book.

Hon. Mr. Pugsley, in reply to Mr. Flemming, read the following statement of the amount paid by the province on acount of small pox in 1902 and 1903.

Detroit, Mich., adopted a resolution paring the book.

Hon. Mr. Pugsley, in reply to Mr. Flemming, read the following statement of the amount paid by the province on acount of small pox in 1902 and 1903:

1902—For services on railway trains, A. R. Myers, 3305; F. M. Copp., 2315; C. M. Copp., 2315; \$8,288.10; Municipality Kings, expenses, \$8,288.10; Municipality Kings, expenses, \$676.03; W. D. Foster, Charlotte Co., expenses, \$234.18; D. Murray, Campbellton, expenses, \$780.55; Mayor of Moncton, expenses, \$686.38; Dr. D. D. McDonald, balance expenses Westmoriand Co., \$3,162.02; Dr. J. Meahan, Gloucester, half expenses, \$147.99; total, \$16,921.12. General total, \$18,927.57. 1903—Dr. E. B. Fisher, services and

travelling expenses, \$410; Sam Thomson, on account Northumberland Co., \$1,500; T. M. Burns, on account St. John City, half expenses, \$298.47. Total, \$2,208.47. Memo, total for small pox:-Memo. total for small pox:= Expended in 1900, \$23,662.85. Expended in 1901, \$10,943.37. Expended in 1902, \$18,927.57. Expended in 1903, \$2,208.47.

Grand total, \$55,743.26. A large amount still unadjusted. The bills were paid out of current revenue and the legislature gave authority to issue debentures for \$60,000 to pay these bills. When all the accounts are adjusted and paid it will take more than this sum to meet them. The Hon. Mr. Labillois, in reply to Mr. Glazier, made the following statement in regard to the Oromocto bridge: A contract has been awarded for the

British North America Act, the four original provinces of Canada. In addition to this, while in Ottawa, the Hon. Mr. Tweedie and myself as a sub-committee of the executive council addressed a communication to the premier of Canada, in which we showed that as long ago as the year 1870, when the territory of Rupert's Land became a part of the dominion and the government of that day was called upon to pass on the question of representation, Sir John A. Macdonald expressed the opinion that the British North America Act did not profess to do any deal with the representation of any deal with the representation of any Lord! All Thy works are lessons; each cil addressed a communication to the premier of Canada, in which we showed that as long ago as the year 1870, when the territory of Rupert's Land became a part of the dominion and the government of that day was called upon to pass on the question of representation, Sir John A. Macdonald expressed the opinion that the British North America Act did not profess to deal with the representation of any other territory afterwards taken in could only be a matter of arrangement. We also had verbal communications with the minister of reliways, who stated that he would urge upon the government that if they could not agree to adopt our views with reference to representation be submiffed to the supermedication of the present they could provide that the question be submiffed to the supermedication of the present and the words are lessons; each contains.

Some amblem of man's self-containing soul; Shall be made fruitless all Thy glorious pains, Delvins within Thy grace an eyeless mole? Make me the least of Thy Dondona grove, Cause me some message of Thy truth to bring.

Speak not a word through me, nor let Thy love. They could provide that the question be submiffed to the suppreme court of Canada. A few days ago the premier received a telegram from the contains of the simple contains. the premier received a telegram from Mr. Blair, stating that the government would agree to submit a case to the supreme court. The question is a highly important one, and the provinces of Ontario and Nova Scotia are also in-terested in it. Briefly stated, our argument is that in 1891 the population of New Brunswick equalled 7.344 per cent of the population of Canada as defined by section four of the British defined by section four of the British North America act. In 1991 the population of the province equalled 7.163 per cent of the population of the same four provinces of Canada, a decrease of .131 per cent, as compared with our proportion to the population of Canada in 1891. But to lose a member we would have to decrease one-twefitieth, of 3.672 per cent, and as our decrease was less than half

"CANADA COVETS OUR LAND"

presentation as before.

and as our decrease was less than half that, we are entitled to the same re-

(From the Milwaukee Sentinel.) People in the United States have seen under the impression that Canada is a sparsely settled country. But this, it seems, is a popular error. While we have been vegetating in our slow and unprogressive way the Dominion's perience cannot fail to strengthen our faith and unprogressive way the Dominion's population, fed by immigration and French-Canadian fecundity, has been population, fed by immigration and French-Canadian fecundity, has been advancing by leaps and bounds, and now something has to be done to relieve the congestion. lieve the congestion.

lieve the congestion.

To a martial and predatory power, short of land of its own and with an abundance belonging to a neighbor lying temptingly adjacent, the idea of conquest would at once suggest itself. But (fortunately for us) that is not Canada's way. If she wants land she is willing to buy it, and on a scale and for a price commensurate with her resources and rank in the family of nations. A scheme to this effect is hand book (so called) another book has been prepared, giving information in respect to the province and its resources. It was written and compiled by Dr. Hannay, and printed at the Gazette printing office. The total cost of the work was \$3,817. The number of copies published was 15,000. They have been sent to England, distributed from the St. John immigration office and from the department here. The cost of publishing was \$3,167 and \$650 was paid to Dr. Hannay for pre-Detroit, Mich., adopted a res favoring the purchase of the United ment of the amount paid by the progummary—1901, \$2,986.50; 1902, \$5,666.25;

1963, \$1,582.60; grand total, \$12,175.35.

DEBATE ON THE ADDRESS.

The debate on the address was resumed by

and travelling expenses, \$538. Dr. H.

He's a lion hearted Scot,
Fighting Mac!
And he'li make the running hot,
Fighting Mac!
Paul will have enough to do,
When he comes to grips with you,
And your Highland laddles true,
Fighting Mac!

You're the proper sort of man,
Fighting Mac!
As you proved in the Soudan,
Fighting Mac!
They are waiting for you now,
With a shadow on their brow,
Since the Magerstontein row,
Fighting Mac!

Your brigade has had a loss,
Fighting Mac!
And the men are mighty cross,
Fighting Mac!
For their hero Wauchope fell
(Who had hiunderd time will tell),
But they'd follow you to—well,
Fighting Mac!

Shall be made fruitless all Thy glorious pains,
Dalving within Thy grace an eyeless mole?
Make me the least of Thy Dondona grove,
Cause me some message of Thy truth to bring,
Speak not a word through me, nor let Thy love
Among my boughs disdain to perch and sing."
Here again are words very sweet and tender in their revelation of the simple confidence of his own heart:
"I, that still pray at morning and at eve,
Loving those roots that feed us from the past,
And prizing more than Plate, things I learned
A the best academy, a mother's knee."
Looking through a great European cathedral, Lowell exclaims:
"Let us be thankful when as I do here,
We can read Bethel on a pile of stones, and seeing where God has been, trust in Him."

John Greenleaf Whittler, the great souled

"The world sits at the feet of Christ, Unknowing, blind, and unconsoled; It yet shall touch His garment's fold, And feet the heavenly Alehemist Transform its very dust to gold."

Many people are so inflated by their or pride and self-sufficiency that they do a discern the unspeakable beauty of the cha acter of Jesus; but great natures, like to old Quaker poet, through their humili-find the way into the secret of His present and can sing with him:

ANNUAL MEETING OF D. A. R.

Held in London-Satisfactory Report by Gen. Mgr. Gifkins.

FURTHER HEARING

In Regard to the Winding Ledges Dam.

Advocates of the Scheme Gave Ev dence Yesterday Afternoon and **Evening Before Committee** of the Legislature.

John Greenleaf Whittler, the great soules minetrel of human freedom, had a sublim faith in the presence of God among men and in the power of Jesus Christ to gain a victory over every force of evil. How inspiring to listen to his optimistic words:

"O hearts of love! O souls that turn Like sunflowers to the pure and best! To you the truth is manifest; For they the mind of Christ discern Who lean like John upon His throne!

cost in producing the finished article. The only real objection that the St. John lumbermen can have to the bill pecial committee on the Winding lies in the fact that they may have in-Ledges dam scheme met at noon today, there again being a large attend-ber for their mills.

Angus Bernier, of Edmundston, me ceedings. Maxim Martin, of Edmundston, stated that he was boom
master at the Madawaska river, and
had acted in that cancetty for many master at the Madawaska river, and had acted in that capacity for many years. It was his duty to sort out the logs as they passed down the river, to look at every log, allow those intended for the St. John river to passon, and to catch those intended for the Murchie mill at the mouth of the Madawaska and push them inside the boom. He had four or five men working with him, and they had no difficulty in sorting the logs as they came down the river, and there was no delay to the logs. The gap in the sorting

Typical in the advancement of the country and felt that the measure under consideration was one of the most important that had yet been taken up. The young men of the company received their wages for the cut-ting of the lumber, but wished to share in the company in the establishment of the works, as they promised to improve the condition of laboring classes as well as business interests.

quantity of logs that come down the river in any one day.

R. A. Estey observed that if only 1,000,000 or 2,000,000 logs came down in a day, the St. John drive would never get down.

River Log Driving Co. will present the there is in favor of the resolution. Thomas Clair, M. P. P., will also present additional argument against the resolution, and will be supported by Thos. Lawson, ex-M. P. P., of Andover. would never get down.

Robert Aiken said that he believed as many as 20,000,000 feet of logs

should the bargain be effected. President Roosevelt will doubtless give the Windsor plan serious consideration when it is brought to his attention by his majesty, King Edward VII.

The general manager efferred in some detail to the conditions affecting the past year's business, to the necessity under which the directors had been to place orders for new rolling stock, and to the hearty support and efficiency of the staff, in whose names he thanked the stockholders most warmly. The province of Nova Scotia had everything to attract and retain business. South African war when Sir Hector Macdonald was at the summit of his tame, indicate the esteem in which he was held:

He's a lion hearted Scot,
Fighting Mac!

MINTER PORT ITEMS.

In recognition of a nearty vote of the manager Gifkins was called upon to reply.

The general manager referred in some detail to the conditions affecting the past year's business, to the necessity under which the directors had been for now far more lumber driven down the seen far more lumber diven down the seen seen far more lumber driven down the St. John river in a year, and he was unqualified and decidedly of the opinion that the proposed dam and sorting works at the Winding Ledges will not detain the logs intended for down river.

Agron Lawson of Edgundston was detain the logs intended for down river.

Aaron Lawson, of Edmundston, was next heard. He stated that the average width of the river at the Winding Ledges is about 200 feet, with high banks on both sides for a distance of a couple of miles. Because of the swift current in the St. John river during the driving season, it is not now pos-WINTER PORT ITEMS.

The Furness str. London City, from London, sailed from Halifax yesterday the logs can be sorted out as they go down the river. It is well known to the logs can be sorted out as they go down the river. It is well known to the logs can be sorted out as they go down the river. It is well known to the logs can be sorted out as they go down the river.

ber of small mills, manufacturing chiefly cedar logs, now in operation along the upper St. John between Grand Falls and the mouth of the St. Francis river on the Canadian side, is nearly double the number operating on the Africa the Constitute. the American side. After the construc-tion of such a dam the same conditions should exist, because the dis-tance of shipments by rail on the Canadian side is shorter and the English lumber market for log lumber better than the American. The same conditions exist at St. John, where nearly two-thirds of the lumber manufac-tured from the upper St. John is Am-erican cut, and a large portion is ship-ped to the British market. There was nothing in the claim made by Mr. To Those, the cost of driving would be a loss to the province, otherwise the St. John River Log Driving Co. and the Sheer Boom Improvement Co. could never have been chartered, as by means of their operations thousands of dollars have been kept from laboring people.

creased competition in securing lum-

down the river, and there was no delay to the logs. The gap in the sorting boom is about thirty feet wide. The sorters stand on the boom and watch the logs as they float past, and those intended for the St. John river are not stopped for an instant. There are about 5,000,000 feet a year for the Murchie mill, and two or three millions go down river. There is a dam about quarter of a mile below the sorting boom, but the logs are not detained in the least at the dam. Logs do not catch very often on the plers of the bridge.

Mr. Martin stated that he is familiar waska and Victoria would become as with the conditions at the Winding prosperous and flourishing as any in Stamp the name of the inventor— Mr. Martin stated that he is familiar with the conditions at the Winding Ledges, where it is proposed to build the dam. He did not think that logs would be detained in coming down the river by the erection of a dam and booms at the Winding Ledges if proper and sufficient sorting gaps were provided. He was familiar with the driving of logs in the St. John river, and he thought that from one million to two million feet would be the outside quantity of logs that come down the river in any one day.

Mr. Martin stated that he is familiar wasks and Victoria would become as prosperous and flourishing as any in the province, and as their great nather the name of the inventor—

ST. JOHN MAN

Making a Big Career as a New York Bank Manager. The following from the New York North Side News of the 29th inst., re-fers to a son of John Montgomery, principal of the Albert school, Carle-

ton, who has already won a great re-putation in the banking circles of the

principal of the Albert sonool, Carleton, who has already won a great reputation in the banking circles of the United States metropolis:

The Hamilton Bank, of New York City, recognizing that the Bronx offers a desirable field in the banking line, has leased for a long number of years the large offices in Martin Walter's new fireproof building, 765 Tremont avenue, and will open a branch at that place about May I next. The Hamilton Bank is one of upper New York city's most strong and conservative banks. The main office of the Hamilton Bank is at 215 West 125th street, with a branch at 1707 Amsterdam avenue, and another at 135th street and Seventh avenue, making with the new one at Tremont, four banking offices.

W. R. Montgomery, who has faithfully served the institution for a number of years, and who has successfully managed the Seventh avenue branch since its opening and bringing it up to be one of the principal banking houses in upper New York, will have added to his duties that of managing the new Tremont branch. Depositors at the former place will be pleased to learn that he will continue in charge of the Seventh avenus branch. The name of the assistant manager has not yet been announced. Business men will find every advantage at the Tremont branch that they can at the main institution.

The Hamilton Bank, when alterations are completed, will have one of the handsomest banking rooms in thacity, with a separate department for ladies, also a foreign department.
