GERMAN FINANCES

In all the English comments on the speech recently made by Dr. Helfferich there has been only one undertone—grim satisfaction with the miserable condition of German finance. This is natural, but it is also unfortunate, because there lurks a great danger to the Allies not alone in what the Imperial Finance Minister has said, but in what he has carefully omitted to mention.

Can Germany pay for the cost of the war? This question finds no answer in Dr. Helfferich's speech. Can she redeem her own part of the war but she is obviously making no attempt to do so. How, then, can she be made to indemnify the Allies for the destruction of Belgium, Serbia, Poland, and Northern France? The Allies' Ministers do not tell us.

Germany's original intention of obtaining "indemnities from the Allies" is not even hinted at by the Chancellor in his latest un-scholarly speech. Germany no longer dreams of overwhelming victories and colossal monetary gains. She does not believe in the possibility of defeat to be sure, but she is convinced that the Allies will tire of the struggle and that she will come off lightly in the peace conference which will follow the military stalemate.

How does Germany then propose to pay for her part of the war? The answer is obvious. She will attempt to supplement the military stalemate by a smashing commercial victory. She will take advantage of the inertia which threatens to paralyze the allied commercial machines. She will hurl the vast quantities of goods of which the German Government has been for some time, and is still, assiduously subsiding the manufacture, on the markets of the world, and thus achieve in the realms of trade the victory denied her on the field of battle.

NO EVIDENCE OF GUILT, SAYS JUDGE MATHERS

Report of Winnipeg Law Courts Probe Exonerates Members of the Government.
Winnipeg, May 4.—Chief Justice Mather's report on the investigation into the construction of the Winnipeg law courts and central power house was made public today by the government.

Commissioner Mather said in part: "There was no evidence that any member of it, had been wilfully guilty of any improper work in connection with letting contracts, or that any of the contract prices were fixed with a view to contributions to party funds or any improper payments. There was much in the evidence and circumstances to indicate that the government had been imposed upon by three lowest tenderers, and would, for that reason be justified in refusing to abide by the contracts entered into with C. M. Simpson."

ARE YOU PALE, ANAEMIC WHITE-LIPPED, THIN?

Anaemia means colorless blood—means languor, blanched lips, faded cheeks. You grow dyspeptic, nervous, suffer functional irregularity. This condition can't exist if there is plenty of healthy blood. Ferronox makes good blood, rich nutritious blood—that's why it cures. In concentrated form Ferronox contains certain rare qualities that render it unrivalled in anaemia, languor, poor color and loss of weight. To build up—feel young and vigorous, nothing is better than Ferronox. At all dealers in 50c boxes.

Fatal Fallacy.

This measure, far more effectively than tariffs, will prevent German goods from being dumped on allied shores, thus compelling the Allies to pay for the war to the detriment of their own industries. Some Cobdenites still appear to maintain that German goods must be accepted after the war because these goods represent value that they will be paid for, and that the money will return to the Allies in the form of indemnities. This is a dangerous and short-sighted policy, which looks to the immediate profit rather than to the greater eventual gain.

If we are to prevent Germany from ever again becoming a menace to the world's peace, we must place her export trade under tribute for the wanton outrage of this war. The Allies may
