> Ottawa, May 14- (Special) -Premier Bond, of Newfoundland, arrived in the ity today. He had a long conference with Sir Wilfrid Laurier and some others of the ministers. His visit is in connec-tion with the Bond-Blaine treaty, which he wants to see put in force. This treaty has been held in abeyance by the imperial uthorities at the request of Canada, who vanted, some years ago, to be made a

arty to it. Mr. Bond considers that, as Canada has not succeeded in making a treaty with the United States, and that as it has had now a considerable number of years to do so, since the Newfoundland treaty was negotiated, the objections ought to be

dropped against his treaty. He was in London, England, talking the matter over with the imperial authorities, and has now come straight to Canada to see what can be done here. It is said that the treaty would that the treaty would be injurious to Canadian fisheries, and, in reply to this, Mr. Bond says that he is giving away no fishery concessions, and that there is nothing in the treaty that in any way disriminates against Canada.
