On April 7, 1824, three children were born to the late William De-Bow and wife, two boys and one girl. They were named Richard, James and Deborah, and unlike most triple births all were strong and healthy. In course of time they grew to manhood and womanhood. Richard mar-ried Elizabeth Faber, and one child was born to them. James never married. De-boyah married Henry McDonald, and their children and grand children are legions. The triplets are still living, and on the 7th of the present month celebrated their eight-ieth birthday, on which auspictous occasion their friends and neighbors gathered and presented them with a handsome purse of money. All are in the best of health at present, and as far as appearances go are good for twenty years yet.
