Little John MacLeod, two-year-eld son of Rev. and Mrs. J. C. MacLeod, met with a terribly painful accident last Saturday afternoon. He was playing in the kitchen while his mother prepared cakes for the Red Cross Sale which was to be held that evening. A jar of beans was standing on the stove highly heated, and as Mr. MacLeod was in the act of removing the jar from the stove to the table, the child came in contact with it in some unaccountable way, with the result that the jar broke in two, the hot beans spilled over the child, inflicting serious and painful burns all over the front of his body. His head, breast and legs were scalded, and the intense pain which followed was almost unbearable. The doctor was called and healing lotions applied, and everything possible done to soothe the great agony. The child's condition was extremely critical for some time and his life temporarily endangered, but fortunately careful treatment had its effect and complete recovery is now hoped for.

Mary Ann Burns, daughter of Mr. and Mrs. John Burns of this village, answered the great call last Saturday at the Protestant Hospital, Smiths Falls. She had been in poor health for many years and finally broke down under the severe physical strain. Deceased was born 35 years ago on the Burns homes ead in Lanark Township. The remains were brought to Lanark for interment and were laid in St. Paul's cemetery, Rev. C. C. Phillips conducting the services.

Roumanians Make Determined Stand Against Teutons.

Advance on the Molds Frontier is Continuing in the River Valleys Despite Strong Re-sistance, While King Ferdinand's Men on Shorter Front Are Put-ting Up a Desperate Fight.

The Russians who instituted an offensive in the Carpathians are continuing their forward march and they are steadily gaining ground in spite of the furious defence offered by the enemy. Fighting continues in the Putna Valley and north of Dorna Watra, and as they advance the Russian detachments are encountering strong resistance from the foe.

In an official communication issued Saturday at Berlin, the German War Office claimed that the Roumanian forces which have just driven the Teutons back on the road to Ploschit had been annihilated.

The force under von Mackensen has thrown detachments across the Danube between Silistria and Cernavoda, according to another German official communication.

A Petrograd despatch says the Roumanians, who have been retreating in eastern Wallachia before the Teutonic advance, have made a stand to the east of Ploechti, the War Office announced Sunday. They assumed the offensive on the road from Ploechti to Buzeu, and drove the Austro-German forces back to the westward. On the Moldavian frontier the Russian advance is continuing in the river valleys, despite strong resistance. The official statement reads:

"In the Putna valley and north of Derna Watra fighting continues. Our detachments, during their advance, encountered strong resistance. We are continuing the advance in the Trotus, Salta, and Cheboniaha (Czobainjos?) valleys.

The Germans claim that north of Monastir and in the bend of the Cerna River, the allies launched a strong relieving attack, but it failed. German and Bulgarian troops, the Teutons say, repulsed all attacks of the French and the Serblans.

Germans Have "Tanks."

PETROGRAD, Dec. 11.—One of the most interesting features of the Roumanian campaign from a German standpoint, has been the spectacular work of the new armored automobiles evolved soon after the advent of the British "Tanks" on the Somme front.

Even in the brief tests it has had Even in the brief tests it has had since the Germans crossed the mountains into the Roumanian plains the new German armored car has shown itself an efficient auxiliary to the cavalry in patrol work, as it frequently can inflict infinitely more damage than a whole squadron and is far more difficult to destroy than the English car. Its achievements so far include an attack on Roumanian infantry, in which 300 men were killed.

Each carries a crew of ten men, including the machine gun operators, the chauffeur, and one substitute and one officer. The machine guns can be operated in almost any direction through narrow slits.

Want War Cabinet. PARIS, Dec. 11.—The cry for leadership waxes stronger in every part of the press, some demanding a form of personal dictatorship, others insisting on a limited war council after the English model. But, what after the English model. But, what-ever party they belong to, all writers are agreed that the Government ma-chine must be radically changed at once to meet the situation. Declarations made in the Senate by M. Jenofyrier are significant in

this connection.

Nearing Spartan Ideal.

Nearing Spartan Ideal.

AMSTERDAM, Dec. 11.—Urging subordination of everything else to the conduct of the war, the Cologne Gazette says:

"Germany is approaching with rapid strides ever nearer the Spartan ideal." It predicts that Germany next year will bear a fair resemblance to the Spartan state of 3,000 years ago in which the individual was nothing and the state everything.
