Where Roman Catholic Separate Schools exist, the sum apportioned to the Municipality has been divided between the Common and Separate Schools therein, according to the average attendance of pupils at both classes of Schools during last year, as reported and certified by the Trustees.

The gross sum apportioned to all the Schools this year is the same as that of last year; and, as many townships have rapidly increased in population, the apportionment in such cases has been proportionably augmented, which of course necessitates a reduction where the population has not been increased.

I shall endeavor to have the apportionment paid at this office, to the agent of the Treasurer of your Municipality, about the 2nd of July, provided that the School Accounts have been duly audited, and that they, together with the Auditors' and Local Superintendents' Reports, have been duly transmitted to this Department.

It is particularly desirable that the amounts should be applied for not later than the third week in July, as it is inconvenient to delay the payment. There are, however, some municipalities which have not yet sent in their accounts of School Moneys, now several months over-due, and in these cases the payment must necessarily be deferred until the law has been complied with.

I trust that the liberality of your Council will be increased in proportion to the growing necessity and importance of providing for the sound and thorough education of all the youth of the land.

I am, Sir, your obedient servant,

**E. RYERSON.**

## APPORTIONMENT OF THE LEGISLATIVE SCHOOL GRANT, FOR COMMON SCHOOLS, IN ONTARIO, FOR 1868.

*Circular to the Clerk of each County, City, Town, and Village Municipality in the Province of Ontario.*

SIR,—I have the honour to transmit herewith a certified copy of the apportionment for the current year, of the Legislative School Grant to each City, Town, Village, and Township in Upper Canada.

The basis of apportionment to the several Counties, Cities, Towns, Villages, and Townships for this year is the School population as reported by the Local Superintendents for 1867, and I have no more generally accurate statistics of a late date. From 1862, to 1865, the census of 1861 was the basis; but the large increase of population in some localities necessitated another standard for the last two years.
