

"SIMPSON'S FOR FURS"

There is no doubt whatever in regard to the "Supremacy of Simpson's Furs," whether for women, misses or children. There is not a point upon which they can be successfully assailed—quality, style, carefulness of make and value gainsay comparison at every turn. Test the truth of our assertions by choosing either one of the two garments herewith illustrated. Remember that you have the privilege of returning any purchase not entirely satisfactory to you in every respect; and furthermore, that we repay all charges to your nearest railway station on all orders of \$25.00 or over.
